CONGRESS PLODS ON NEUTRALITY PROBLEMS. ADVOCATE INFLATION. ARMS EMBARGO REPEAL. TAX REVISION BEGUN. SUGGESTS NEW TAXES. HULL AND WALLACE.

After nearly six months, the end of Congress is not in sight. Predictions that adjournment will occur around the middle of July are overly optimistic in view of the discussion that will result in the Senate when neutrality legislation is undertaken.

Meanwhile, a group of eleven senators, advocates of a \$2,000,000,000 currency inflation program, intimated last week that they might take advantage of the legislative situation to force action on their proposal.

Just how long the neutrality legislation debate will last in the Senate cannot be predicted, but more than twenty senators have signed a declaration of principles which oppose the Administration's suggestions advanced by Secretary of State Hull.

The Senate group is determined in its opposition to repealing the embargo on arms and munitions of war to nations engaged in a conflict.

While the opposition in the Senate is a minority at this time, the isolationist group believe that weeks of discussion would work up support in the country.

The tax revision bill, intended to move "irritants" in the interest of business revival, passed the House with only one dissenting vote.

Other subjects which attracted attention last week were rumors that President Roosevelt might ask Congress to provide funds for an increase in appropriation bills that exceeds the budget figure.

It is not believed that processing taxes on agricultural products will be reworked, but the fact is that the President has come out in favor of broadening the personal income tax base to add from 2,000,000 to 6,000,000 taxpayers to the direct Federal tax roll.

There is no fundamental clash between the two groups, and Secretary Wallace.

ton exports. The Hull program is designed to facilitate the removal of trade barriers throughout the world in the interest of peaceful commerce.

The United States, under Secretary Wallace's plan, does not attempt to secure new markets for its surpluses. Recognizing that these surpluses have been caused, in part, by the action of foreign governments in subsidizing export sales, the Secretary of Agriculture would serve notice that this country will not be outbid.

BIBLE SCHOOL CLOSES

A splendid Vacation Bible School has just come to a close in the Walstonburg community.

The school continued from Monday through Friday of this week.

The activities of the school consisted of worship, class work, recreation, and singing, each of which was led by capable workers.

Rev. E. C. Soper, pastor of the Methodist Church, assisted by Rev. Ralph Arthur, a student from Duke University, supervised the school.

Those who had a part in making the school a success were: Miss Fannie Mae Smith, Miss Hazel McKeel, Mrs. Carlos Walston, Miss Sue Stallings, Miss Mary Stallings, Mrs. Isaac Reuse, Mrs. Melvin Gay, Miss Sudie Lee Dildy, Mrs. Jake Fields, Mrs. Knight, Mrs. Frank Shirley, Mrs. Lee Jones, and Mr. Hinson, the new principal of the Walstonburg High School.

MARKETING

A seasonal reduction in marketings of hogs but an increase in marketings of grain-fed cattle is in prospect during the next few months, reports the U. S. Bureau of Agricultural Economics.

It is all right to think if you don't do so much thinking that you haven't got time to do anything else.

MANY MORE CHICKENS ON FARMS THIS YEAR

The poultry and egg industry once more is expanding.

Production of chickens was increased in 1938, and a further increase is in progress this year. Production of eggs declined slightly in 1938, but the output during the current year 1939 will probably equal or exceed that of 1937.

On January 1 last there were approximately 413,000,000 chickens on farms. On January 1 next there may be more than 430,000,000.

These and other changes in the poultry and egg industry are reported by S. A. Jones of the Bureau of Agricultural Economics in "The Agricultural Situation." During the past 15 years, the largest number of chickens on farms was 475,000,000 in 1928, and the smallest was 387,000,000 in 1938.

Of the total number of chickens on January 1 last, about 108,000,000 were in the West North Central States. It was in this area that the poultry industry was reduced most during the recent drought years.

In 1926, the West North Central States had about 30 percent of all chickens in the United States. The proportion on January 1 last was 26 percent. Jones says it is expected that with more normal feed conditions, this area will regain a larger share of its relative position in the poultry and egg industry.

The Texas legislature has set aside \$10,000 as a cash prize to the Texan who discovers or creates a new use for cotton which will consume 300,000 bales or more yearly.

FARM BOYS AND GIRLS IN 4-H CLUB CAMP

Farm boys and girls from 43 States and Puerto Rico moved into a city of tents this month on the shore of the Tidal Basin in the National Capital, for the 13th annual National 4-H Club Camp.

The 172 delegates, outstanding 4-H Club members in their States, represented more than 1,250,000 club members in the States and Territories.

Two boys and two girls formed the official delegation from most of the States. Usually each delegation is accompanied by one man and one woman—each a state club leader.

Four-H Clubs, organizations of rural youth between the ages of 10 and 21, are sponsored by the cooperative Extension Service of the U. S. Department of Agriculture and State Land-Grant Colleges, and county governments. There are approximately 75,000 local 4-H Clubs.

Southern Women Eager to Tell!

"One is bound to be gratified by the enthusiasm of Southern women for CARDUI!" says one of the Touring Reporters now conducting a Query in Southern cities.

"Of the 1297 CARDUI users, we have seen so far," she said, "1206—or 93 out of every 100—said it definitely benefited them!"

CARDUI's remarkable success in helping weak, rundown women who suffer from headache, depression, nervousness, and other symptoms of functional dysmenorrhea due to malnutrition, is explained by the way it promotes appetite and digestion, and so builds physical resistance. Try CARDUI!

FORD LEADS!

- LEADS IN NUMBER OF OWNERS! More people are driving Fords today than any other make of car! LEADS IN PERFORMANCE! Ford is the only low-priced car with a big, powerful V-8 engine. So fine it doesn't even need "breaking-in." No car with fewer cylinders is so smooth, so much fun to drive! LEADS IN ECONOMY! The 85 H. P. Ford V-8 in this year's Gilmore-Yosemite economy run showed the best gas mileage among all leading low-priced cars. And Ford V-8 owners report that oil is seldom, if ever, added between changes. LEADS IN HYDRAULIC BRAKING POWER! Ford has 162 square inches of braking surface. Biggest ever used on a low-priced car. LEADS IN STYLE! Ford has the most advanced styling in the field. Recognized by style authorities and the public as the year's most beautiful low-priced car! (Don't discover it too late!) LEADS IN RIDEBASE with 123 inches between front and rear spring anchorage... nine inches more than car "B," eleven inches more than car "C." Yet this big Ford handles easier, is easier to park! LEADS IN EQUIPMENT AT NO EXTRA COST! You get equipment on a Ford V-8 that would cost you from \$24.70 to \$24.00 extra on other low-priced cars. The Ford price means the price of a complete car. LEADS IN QUALITY OF CONSTRUCTION with the only dual down-draft carburetors... only semi-centrifugal clutch... only cast steel crank-shaft... only steel seat inserts for all valves... only 3/4" coating rear axle... only torque tube drive... in its price class.
