VOLUME THIRTY

FARMVILLE, PITT COUNTY, NORTH CAROLINA, FRIDAY, OCTOBER 13, 1939.

NUMBER TWENTY-THREE

Farmville Market Reopened Tuesday With Heaviest Volume Of History

Local Market Topped Big Five in Price Averages

Everything was in readiness on Tuesday morning for the re-opening of the Farmville Tobacco Market with each of the five warehouses filled to their capacity for a day's sale. This week has brought more of a rush of tobacco to the market than at any time in its history, so the older tobaccoists state.

The sales, which started at 9 A. M. Tuesday morning, brought to a close a "sales holiday" that began in mid-September when the Imperial Tobacco Company withdrew its buyers shortly after the outbreak of the European war.

Two sets of buyers will be on hand and remain throughout the remainder of the selling season with the market selling on a basis of six hours per day at present.

Farmers are advised not to rush their tobacco on the markets and to grade closely and to keep the tobacco in a dry condition.

The Farmville market sold Tuesday and Wednesday of this week 1,514,868 pounds for \$236,457.54 at an average of \$15.61.

The market had sold for the season through Wednesday of this week 11,658,800 pounds for \$1,686,015.1.

Below is a comparative scale of the five large markets of the Eastern Belt at the close of the Holiday, September 12th.

	Pounds	Avg.
FARMVILLE	10,144,442	14.29
Rocky Mount	19,207,828	13.91
Wilson	27,241,906	13.93
Greenville	22,866,194	13.88
Kinston	18,047,020	13.31

Army Organizes New Troop Units

Five 'Streamlined' Divisions and Auxiliary Corps to Get Mass Training

Washington, Oct. 12.—Moves to put into active service several field artillery regiments of the Regular Army which have existed chiefly on paper were disclosed today by War Department officers.

More than 30 officers have been transferred from other units this week to service with the 86th Regiment at Fort Bragg, N. C., the 80th at Fort Lewis, Washington, and the 19th and 21st at Fort Knox, Ky.

Effective October 15th, four officers were ordered transferred from the 83rd Regiment, there from the 4th, and five from the 17th, all at Fort Bragg and assigned to the 36th Field Artillery, whose headquarters likewise is at that post.

The 36th, now partly active, will be a part of the 13th Field Artillery Brigade, which in turn is a component of corps troops for the new 4th Corps. The regiment is armed with motorized 155-millimeter guns.

Effective October 20, four officers were ordered shifted from the 82nd Field Artillery, Fort Bliss, Texas, and four from the 84th at Fort Riley, Kan., to the presently inactive 80th Field Artillery regiment of 155-millimeter Howitzers whose headquarters will be at Fort Lewis. The 80th is a part of the new Sixth Division.

Fourteen officers were shifted from present units at Fort Knox and Fort Myers, Va., to commands in the 19th and 21st Field Artillery regiments, now inactive at Fort Knox. Both the Fort Knox outfits are part of the new Fifth Division.

No Discrimination

Washington, Oct. 11.—Representative Harold Cooley was assured by Agriculture officials today that in the election of local tobacco quota-fixing committees there would be no voting discrimination against growers who failed to cooperate this year.

The Nashville Congressman was advised that if growers certified that they intend to cooperate in next year's production control program, they will be eligible to vote for committees.

Only farmers, however, who completed this year will be eligible to be elected committees to administer next year's program, Cooley was told.

In a county where less than 25 per cent of the growers complied with this year's quota-fixing program, a non-cooperative program may be elected committees.

Sub Searched Off U. S. Coast

Craft Reported Seen 200 Miles Off Route of Iriquois

Portland, Me. — Persistent reports that U. S. Navy and Coast Guard craft were searching by sea and air for a submarine sighted off this coast Monday approximately 200 miles off the normal course of the "threatened" refugee ship Iriquois were met with silence today by all official sources.

Arthur Greenleaf, Maine's commissioner of sea and shore fisheries, announced he saw the submarine moving at high speed on a course that would take the craft in the general direction of the European ship lane.

Navy and coast guard officials both in this state and in Boston declined to confirm or deny reports that a wide search was being made for the submarine.

While five miles off Portland lightship on coastal patrol, Greenleaf said he and two wardens saw the submarine within 50 yards of their motor cruiser yesterday, start to circle the patrol boat and then speed off to the southwest.

Portsmouth, N. H., navy yard officials said no American undersea craft was near the position given which is 13 miles south of Portland.

Twice before since the war began fishermen have reported unidentified submarines off the main coast.

Washington, Oct. 10.—The White House said today that navy patrols had observed an un-American submarine yesterday about 20 miles west of Key West, Fla.

Stephen Early, a presidential secretary, said it was possible it was the same boat which was reported Saturday 15 miles off Miami, Fla.

The submarine, Early added, was comparatively small. Also seen in the same vicinity, he said, were two non-American tankers.

He declined to say, however, whether the submarine and the tankers were of the same nationality.

"This information is still in the process of being checked," Early declared.

He made that statement when asked whether other governments and American shipping had been notified of the presence of the submarine.

STILL IN WINTERVILLE TOWNSHIP DESTROYED

Members of the Pitt county ABC force and of the sheriff's office this week located and destroyed a fifty-gallon capacity steam liquor distillery in Winterville township.

The still was not in operation and no one was at the site when officers arrived. The still and 100 gallons of beer were destroyed.

Officers described the plant as being a crude affair.

Selling is the difference between profit and loss.

Cotton Crop's Forecast Off 452,000 Bales

111,928,000 Bales Forecast by Agriculture Department Based On Condition of Crop Oct. 1; 12,380,000 Bales Forecast Month Ago

Attack By Clark Features Debate Over Neutrality

Son of Champ Clark Assails Roosevelt Policies and Assistant War Chief; Says President Has Taken War Powers

Washington, Oct. 11.—Senator Bennett C. Clark (D., Mo.), tonight bitterly assailed President Roosevelt's war policies and charged during debate on the neutrality revision bill that Assistant Secretary of War Louis Johnson has made "moronic, idiotic and unpatriotic" remarks deliberately intended to inflame the American people.

One of the leaders of the isolationists bloc who served as an officer in the World War, Clark said that the state of limited national emergency recently proclaimed by the President is "no such thing." He contended that the Chief Executive can exercise under it all the power of a national emergency without consulting Congress.

Some of the exercises of those powers, under executive orders, he said have not "been precisely reassuring." He cited the first order nullifying civil service laws and regulations of the United States regarding "preparedness and neutrality."

He described as far more important than this the executive order transferring control of the Panama Canal Zone from the governor of the zone to the Army. Examination of the statute under which the transfer was made, Clark contended, shows that this authority is vested in the President only when the United States is engaged in war or when a war is imminent.

"The order therefore amounts to a certificate by the President either that a state of war exists in which we are engaged or that war is imminent," he said.

His attack on Johnson was one of the most vitriolic made in recent years in the Senate on a member of the "Little Cabinet." He listed the Assistant Secretary among a group of officials "who, only by reason of their position, carry certain weight of authority" and make "irresponsible statements calculated to alarm and inflame our people."

Attacking Johnson, Clark cited a speech made by Johnson before a convention in White Sulphur Springs, W. Va., to the effect that the American Army today is as vulnerable to the mechanized legions of Germany as was the Polish army, Clark said.

"In my judgment, no more idiotic, moronic, unpatriotic remark ever has been made by a man in high public position. . . . To compare the situation of the United States . . . with the situation in Poland . . . is an attempt to alarm and excite our people, which to my mind is beneath contempt."

He protested that Johnson has been flying around the country in an Army plane for years "preaching the inevitability of war and the certainty of our being drawn in, and drawing horrific pictures with grisly prophecies of our own shores being invaded and our own land laid waste."

He accused Johnson of going outside the law to set up the War Resources Board and "stealing" its personnel with Morgan-du Pont controlled members.

"To be sure, after the affiliation of the personnel of the War Industries Board were exposed, the President announced that they would continue their labors and be disbanded, but Louis Johnson is still in office, and his board has not been disbanded," he said.

No less "reprehensible," he said, is the effort of the War Department "to make the nation war-minded by preparations for the draft."

"I say it is a shameful thing when, without the authority of Congress, plans are already under way for drafting boys 12 years old who have not even had the poor privileges of voting for those who pass the laws and determine the policies which send them to the shambles," he declared. "I say it is a shameful thing because it can have no other purpose than inflaming the people and making them war-minded."

AYDEN MEN ARRESTED ON WHISKY CHARGE

Pitt county ABC officers Saturday night arrested Thad Little and Logan McLamb at the Airport filling station about one mile from Ayden and charged them with possession of liquor for the purpose of sale.

The officers reported they found in one-half gallon of beer and one-half gallon of wine and have been found in and seized by officers.

DOG BITE INCIDENT

Chatham City, N. C. — Robert Johnson is a multi-dog man. Dog bite incidents occur frequently in this neighborhood.

Dies Committee Hears Ex-Soviet

General Krivitsky Says Russian Secret Agents in American Army and Navy

Washington, Oct. 11.—A wide-eyed crowd at the Dies committee hearing heard General Walter G. Krivitsky testify today that "undoubtedly" there were Russian secret agents in the United States Army and Navy.

Krivitsky, who identified himself as a former high official of the Soviet military intelligence system, also expressed belief that Stalin and Hitler had been exchanging military information since the Russo-German non-aggression pact was signed.

Such information as was obtained in this country, he assumed, therefore would be available to Berlin as well as Moscow.

Krivitsky, a short, wiry individual with a lined, grim face, said these assertions were not based on personal knowledge, but on his 17 years' experience in the Russian military intelligence, topped by two years as chief of intelligence for Western Europe, including Germany. His official connection with Russia ended, he declared, in December, 1937, when he broke with Stalin over the purge of that year.

Testifying in Russia through an interpreter, Boris Shub, Krivitsky declared that 35,000 members of the Russian Red Army officers' corps were "destroyed by Stalin in 1937; that 300,000 or 400,000 other persons were exiled or imprisoned and 'millions' intended in concentration camps."

He also testified that (1) Communist party leaders in Germany, Poland and Hungary were recalled to Moscow and shot; despite the fact that they were not citizens of Russia.

(2) Stalin is the "absolute" head of the Communist party in the United States rather than Earl Browder, the American general secretary, although both hold the same title in their respective countries.

(3) Stalin could not have accomplished the "great purge" of 1936-37 without "moral support" from other countries because so many elements were against him in his own country.

(4) The Ogpu (Russian secret police) spies not only on foreign government and on Soviet diplomats—"from ambassadors to the lowest embassy officials"—but on citizens of other lands who express displeasure with Moscow.

(5) The Ogpu kidnaps and murders persons, some of them non-Russians, on foreign soil.

Eight Killed In September

Monthly Report of Patrol Headquarters Issued

Greenville, Oct. 11.—Eight persons were killed in highway accidents in Eastern North Carolina during September, compared with 12 in the previous month, it was reported at the office of Lt. Lester Jones, head of Troop A of the State Highway Patrol, today.

A decrease also was shown in the number of persons injured, 31 having received non-fatal injuries last month, compared with 63 the previous month.

The number of accidents for the month, however, was greater than for August. Patrolmen investigated a total of 68 accidents in September, compared with 66 the preceding month.

A total of 592 arrests were made by the combined force stationed in Eastern Carolina. Of this number 166 were charged with driving drunk, compared with 43 drunken driving cases in August.

Of the 592 arrests, 634 defendants were convicted and nine were acquitted. Sentences totaling eight years and four months were meted out to the defendants. In addition fines totaling \$5,207.07 and costs of \$5,313.09 were paid.

Other activities of the patrolmen included: vehicles inspected, 4,848; lights corrected, 2,455; warnings issued, 74; courtesies extended, 609; cases recovered, five, valued at \$3,885; vehicles weighed 380,144 of which 144 were found to be overloaded; complaints investigated 322; cases of first-aid rendered, two; citations issued, 1,174; driving licenses approved, 76.

Death Ray May Develop in War

Scientist Who Destroyed His Own Terrifying Machine Cites Possibility

Cleveland, Oct. 11.—Death "rays" may strike down millions of human beings if the European war continues, Dr. Antonio Longaria, wealthy Cleveland scientist, reported last night.

Dr. Longaria said he perfected a death-ray apparatus in 1933 and killed pigeons on the wing at four miles. Later he destroyed the machine because of its inherent danger.

"It's quite possible that someone may stumble across the particular electric wave I used," said Dr. Longaria, who in 1936 sold a welding process described as "impossible" by others for a reputed \$6,000,000.

"I found it accidentally myself, and I certainly am not proud of that discovery."

"The machine killed small animals, and it could kill human beings just as easily. The ray lies in one of the unexplored frequency bands in the vicinity of the X-ray. It kills painlessly, without burning, by changing the blood to a useless substance—as light changes silver salts in photography."

"But I don't like to talk about it, because it could wreck civilization. I'll have nothing to do with it. My hands will be clean."

Dr. Longaria first demonstrated his ray while working in California on a colored motion picture process—which subsequently he sold to the industry. He took his apparatus to the top of a building there and demonstrated to a group of selected scientists that it could kill rabbits even when the animals were enclosed in a thick-walled aluminum case.

Later, after he had returned to Cleveland, Dr. Longaria took a group of fellow inventors to the top of his apartment-laboratory.

Giving them all field glasses, the little doctor released several marked pigeons and directed the inventors to watch them. He then prepared to give what he said would be his last demonstration of his fatal rays.

"I waited until the pigeons were out of sight of the unaided eye," the Spanish scientist said. "Then I directed my apparatus toward the birds and caught one in the cross-hairs of the telescope which was aligned with the ray. It plummeted to the ground—killed instantly. I killed the other birds the same way, and when the experiment was over, took my apparatus apart. I could assemble such a machine again, but I never shall. I have no drawings—the plans are in my head alone."

Dr. Longaria's earlier work included the development of telephone circuits making possible his measured frequencies 27 different conversations simultaneously over one pair of wires, and a process by which water may be purified electrically.

"My inventions have brought me wealth," he said. "I am interested now only in doing something to help civilization—which seems to be going backward instead of ahead. My wedding ray now is an established success, and my medical work shows great progress."

"Never again will I assemble a death ray for anyone."

In his laboratory—a vast, converted brick residence atop a cliff overlooking Lake Erie—the 50-year-old scientist works with five assistants on an electrical treatment for cancer. He is a doctor of medicine, and holds two other degrees. He said other physicians have not accepted his theory of cancer treatment.

Officers Are Inducted By New Pitt 4-H Club

Blanche Briley has been elected president of the newly organized 4-H Club of Greenville, reports Miss Ethel Niles, Pitt County home agent of the State College Extension Service.

Other officers are: Annis Mae Woolard, vice-president; Arline Hawkins, secretary-treasurer; Dorine Briley, song leader; Rachel Hawkins, librarian; Margaret Cobb, chairman of the program committee; and Lillian Belle Woolard, chairman of the fair committee.

STARTING MAIL SERVICE FOR FARMVILLE OCTOBER 16

Starting October 16, 1939 daily express mail service will be provided by a new start-up of mail service. Following points will be served: Farmville, Hillsboro, and Winton.

Schedule of mail service: 7:00 A. M. Asheville; 7:30 A. M. Lenoir; 8:30 A. M. Lenoir; 9:30 A. M. Lenoir; 10:30 A. M. Lenoir; 11:30 A. M. Lenoir; 12:30 P. M. Lenoir; 1:30 P. M. Lenoir; 2:30 P. M. Lenoir; 3:30 P. M. Lenoir; 4:30 P. M. Lenoir; 5:30 P. M. Lenoir; 6:30 P. M. Lenoir; 7:30 P. M. Lenoir; 8:30 P. M. Lenoir; 9:30 P. M. Lenoir; 10:30 P. M. Lenoir; 11:30 P. M. Lenoir; 12:30 A. M. Lenoir; 1:30 A. M. Lenoir; 2:30 A. M. Lenoir; 3:30 A. M. Lenoir; 4:30 A. M. Lenoir; 5:30 A. M. Lenoir; 6:30 A. M. Lenoir; 7:30 A. M. Lenoir; 8:30 A. M. Lenoir; 9:30 A. M. Lenoir; 10:30 A. M. Lenoir; 11:30 A. M. Lenoir; 12:30 P. M. Lenoir; 1:30 P. M. Lenoir; 2:30 P. M. Lenoir; 3:30 P. M. Lenoir; 4:30 P. M. Lenoir; 5:30 P. M. Lenoir; 6:30 P. M. Lenoir; 7:30 P. M. Lenoir; 8:30 P. M. Lenoir; 9:30 P. M. Lenoir; 10:30 P. M. Lenoir; 11:30 P. M. Lenoir; 12:30 A. M. Lenoir; 1:30 A. M. Lenoir; 2:30 A. M. Lenoir; 3:30 A. M. Lenoir; 4:30 A. M. Lenoir; 5:30 A. M. Lenoir; 6:30 A. M.
