Most of the arguments that mar the tranquility of life are the result of ignorance.

The only way to make some citizens contribute to the public welfare is to tax them.

Many of the nation's leading industrialists are wondering what became of the war boom.

American Education Week will be well spent if it can persuade some adults to begin their education.

The human race may be marching towards perfection, but, at this stage of the parade, the goal is afar.

It might not be too early to call your attention to the Red Cross roll call which begins on November 11.

In about a month, or less, The Enterprise will be telling you how many shopping days they are until Christmas.

Everybody wonders whether Hitler or Stalin has the upper hand, but nobody seems to care much which one has it.

With two Thanksgiving Days ahead of us, the people of the United States ought to be able to express their thanks.

Modern society has about reached the point where the jokes that are told in public are as bad as those heard in private.

IT HAPPENS EVERY YEAR

Every year, in some section of the United States, it happens!

The other day, in Idaho, two brothers went hunting with three friends. One brother saw a grey object in the brush, he fired and his brother fell, fatally wounded.

Apparently, there is no law against a hunter shooting at something, moving in the brush. The hunter who takes a chance and fires without seeing the game may be a brave man, but, just the same, he risks somebody else's life.

HIGHWAYS FOR 1960

Some years ago, when highway construction began on a large scale, there was the general idea that after a period of major construction, the nation would have the highways that it required and that the expense of additional construction would be limited.

Experience has shown, however, that this is not to be the case. The number of automobiles has increased and the demand for improved highways is more widespread than ever. In fact, Paul V. Huffman, president of the Studebaker Corporation, says that an outlay of \$50,000,000,000 for the construction of highways and streets will be necessary by 1960 to accommodate the 40,000,000 motor cars and trucks that will be used at that time.

According to our arithmetic, this means \$2,000,000,000 a year for new highway construction. This is quite a sum. It may be an interesting item for those taxpayers who have the idea that the future will bring them reduced levies.

Headache, Bad Breath May Be Your Warning

The sea's thrilling S. O. S. means "Help is needed now!" And, so do most of those headaches, that biliousness, coated tongue, or bad breath which are often signs of constipation.

To disregard these symptoms may bring on a host of other discomforts from sluggish bowels: sour stomach, belching, loss of appetite. See how much better you feel the day after taking spicy, all vegetable BLACK-DRAUGHT. By simple directions, it acts gently, cleanses promptly, thoroughly. Its principal ingredient is an intestinal tonic-laxative; imparts tone to lazy bowel muscles. Next time try BLACK-DRAUGHT!
