The freedom of the seas has now become the freedom of the seize.

Our own dictionary: Acquisitive-ness—the only talent of some people.

The individual who seeks to please everybody is apt to lead a lonely life.

In spite of what you read about the war in Europe, it continues to remain in the talking stage.

If some people nursed their character like they nurse their bankroll, the world would be better off.

A good town has good roads, good people, and, most of all, good business.

The happiness and prosperity of the people of Farmville depends largely upon the people of Farmville.

Millions of Americans continue to wonder what other people mean when they speak of the conveniences of modern civilization.

It may take us a long time, but the people of the U. S., must learn that if we expect to sell goods to other nations, we must buy goods from them.

Trade experts say that there is to much wheat in the world for the good of the markets but hungry mouths throughout the world cannot believe it.

JOKERS SCARE A MAN TO DEATH

The approach of Hallowe'en reminds us that there are practical jokers who delight, whenever they can, to scare other people.

This may be all right with some individuals but there are persons—especially among the young whose health can be badly damaged by practical jokers and their pranks.

An instance of this kind is reported from Fullerton, Mo., where a 26-year-old farmer went into his field at night to cut corn stalks, which he had not done in the daytime because of excessive heat.

The end of his field bordered a cemetery and as he reached the spot several white-garbed figures popped up, leaping toward him and moaning weirdly. The man, says the news report, was too frightened to run. Hours later, his parents found him, still hysterical.

About three weeks later he died in a state hospital where doctors said his death resulted from maniacal exhaustion resulting from an unusually severe mental disturbance.

While it may be unusual for an adult to be so affected it is easily possible for youngsters to be seriously injured as a result of attempts to "scare" them. People with just a little bit of sense realize this and have nothing to do with such activities.

REACHING THE GUARDSMEN

Nobody can deny that the United States is taking this preparedness business seriously.

The War Department not only plans the largest peace-time concentration in the South this Winter but also expects to give the National Guard more intensive training to make it the "minute man" army. Drills will be held twice a week with a week-end of training every month and two weeks of Summer maneuvers. This will intensify the training of the guardsmen and fit them for immediate service in an emergency.

In view of the comparatively small number of men in the regular army it seems entirely reasonable to enlarge and improve the National Guard as the main body of the army.

I see All history pass by, and through it all Still shines that face, the Christ face, like a star Which pierces drifting clouds, and tells the Truth. They pass, but it remains and shines untouched, A pledge of that great hour which surely comes When storm winds sob to violence, fury spent To silver silence, and the moon sails calm And stately through the soundless seas of Peace. So through the clouds of Calvary—there shines His face, and I believe that Evil dies, And Good lives on, loves on, and conquers all— All War must end in Peace. These clouds are lies.

GO TO CHURCH

Our little city is well supplied with good churches that tremendously enhance the desirability of living here. Without these churches you, citizens of Farmville, would be less safe. Without them our community would not be a suitable place to raise your family. But these and many other reasons that could be given as to why YOU should go to church somewhere, are secondary to your own personal need of that which the church has to offer. Our churches welcome you. Why not go to the church of your choice this coming Sunday?
