NOTICE! Automobile Drivers!

Automobiles are the most danger- ous weapons traveling along and over our Streets and Highways of the day, and I am appealing to all drivers to be more careful in the operation of your machine in order to preserve property and save human lives.

Recently, Ronald Hocutt, Director of the State Highway Safety Divi- sion, together with more than one hundred police Chiefs and other traf- fic Officers of the various Towns of North Carolina, met in Wilson, and organized a "Safety School" and considered a safety program for you and your friends.

During the last five years, auto- mobiles driven over the streets of Farmville, N. C., have caused more than five deaths and done more than \$8,000.00 property damage. Let's stop this murderous assault and waste of property.

Let's make Farmville a safe place for our friends and neighbors and we can do so by following these sug- gestions:

- 1—Park your car between the curb and white line, on the right side of the street.
- 2—When parking leave about two feet between your car and the car in front. This will enable you more space for the other fellow.
- 3—To leave at will and leave and give 3—When pulling out of your park- ing place, be sure and see that the street is clear.
- 4—Keep a watch for children and people on the street.
- 5—Stop at all red lights and stop signs.
- 6—Always drive to the right.
- 7—Always give the proper signal, in stopping and turning.
- 8—Never cut a corner in turning, always pull your car to the right side.
- 9—Never park or leave your car in the center of the street.
- 10—Never park two cars abreast.
- 11—Never leave your car unat- tended, unless properly parked be- tween the curb and white line on the right side of the street.
- 12—Do not pull your car over to the left and stop for any thing.
- 13—Be careful—with your speed.
- 14—Always keep watch, as you know not what hour danger awaits you.
- 15—Always park your car here as you would in some other city.
- 16—Park and operate your car in such a manner that others may profit by your carefulness.
- 17—Let your driving, parking and the management of your machine be evidence of your desire to save lives and harm to others.
- 18—Never stop or leave your car on the left side of Wilson Street. This Street is part of the State High- way and the traveling public has the right-of-way—always park or stop close to the curb on the right side of the street, and be sure to look before you pull out—this is a dangerous street—be careful.

An effort will be made to regu- late parking of cars to the satisfac- tion of the public and car owners are asked to cooperate with the of- ficers to prevent all accidents.

"Build-Up" Important Protector of Women

A weak, undernourished condition often enables functional dysmenor- rhea to get a foothold; thus leads to much of woman's suffering from headaches, nervousness, and other periodic discomfort.

CARDUI's principal help for such distress comes from the way it usually stimulates appetite; in- creases flow of gastric juice; thus aids digestion; helps build energy, strength, physical resistance to periodic pain for many.

Another way, many women find help for periodic distress: Take CARDUI a few days before and dur- ing "the time." Women have used CARDUI for more than 50 years!
