Few people who inquire after your health are interested in your symptoms.

The invasion of Great Britain, it seems, has been postponed indefinitely.

Church collections do not, as yet, indicate any great prosperity in the land.

The American League has just ended what one might call a real pennant race.

Rumania has a German guarantee of its borders, whatever the guarantee is worth.

The more money the average family has to spend the more it wants to spend.

For every man who seeks the truth there are a hundred who want to prove that they are right.

Farmers who plan to live at home and do so will find that they make more money in the long run.

If everybody who expects to write a book would buy one, the booksellers would enjoy a big spurt in sales.

Beauty contests are still being held all over the country but the idea has about exhausted its possibilities.

If there is anything that the United States can do that Hitler won't like, we are for it.

**PEACE ?**

"Peace on the continent" is said to be the watchword of the German foreign office.

To get the so-called peace the Germans have ruthlessly attacked their neighbors, disregarded pledges and run roughshod over natural rights of individuals.

Suppose that peace is made, under the impact of the German military triumph. How long will it last? Does Germany expect all peoples of Europe to acquiesce in Teutonic supremacy and be content forever with the humble role of servant to the superior Germany?

**CAREFUL HUNTERS**

Now that hunting season is about to get under way throughout the United States it might be well to readers of The Enterprise of the dangers inherent in the hunting season.

Scores of nimrods are cut down every year through the premature discharge of weapons, carelessly handled. Other victims fall a prey to the nervous hunter who shoots at the bushes that move rather than at game in full view.

Those who hunt this fall and winter might save their own lives by rigorously observing safety codes. In addition, they might spare innocent bystanders.

**PLANES TO THE BRITISH**

It is somewhat of a surprise to be told that the United States, during the first year of the war, shipped only 749 airplanes to Great Britain and to learn that 278 of these planes were shipped abroad during August.

It is certain that increased shipments were made during September but the probability is that our assistance, in the way of planes, is not as great as many Americans have been led to believe.

The facts emphasize the accomplishment of the British in maintaining their air defense and continuing their attacks upon Germany. It may be presumed that, when more American planes reach the British the offensive of the air will be intensified.

**INTERESTED**

Yancy County farmers are displaying a considerable amount of interest in the use of lime and phosphate obtained through the AAA grant-of-aid plan, now being administered by the local agent, Mr. R. H. Cross.

**BOYDERS**

Boyd's products are the best in the world.

WHY WAIT? Buy a few a day for a few cents.

**SHELL VICTIMS**

Athens, Oct. 30.—Information from usually reliable sources in the Dodecanese Islands said today that some 500 Italian soldiers had been killed or wounded in a "recent" British naval shelling of the Italian-fortified island of Skarpanto.

The soldiers were taken by surprise while sleeping in barracks, the report said, and only 200 escaped. The barracks and a wireless station were reported destroyed.

The dead, it was said, were buried hastily in a long ditch.

**Need Laxative? Take All-Vegetable One**

Don't let impatience lead you into harsh measures for the relief of constipation!

There's no use, for a little spicy, all-vegetable BLACK-DRAUGHT, taken by simple directions, will gently persuade your bowels.

Taken at bedtime, it generally allows time for a good night's rest. Morning usually brings punctual, satisfying relief from constipation and its symptoms such as headaches, biliousness, sour stomach, no appetite or energy.

BLACK-DRAUGHT'S main ingredient is an "intestinal tonic-laxative" which helps tone intestinal muscles. 25 to 40 doses, only 25c.

**Federal Loan Administrator Jesse H. Jones recently conferred with T. V. Soong, president of the Bank of China, in order to facilitate further loans to China in exchange for the defense products needed by the United States.**

Mr. Jones made it clear that financial aid will be increased to the Japanese-harried Chinese nation and suggested that strategic metals would be obtained. Mr. Soong did not disclose what China intends to buy but pointed out that his country needed no trucks. The probability is that the money will be used to secure gasoline, munitions and equipment. China, it is thought, can handle the problem of small arms and small arms ammunition.
