The United States Defense Savings Bonds and Postal Savings Stamps will be placed on sale in the Post Office here at the opening of business on Thursday, May 1, as part of the national effort to make America imprognable.

Postmaster B. O. Turnage announced today that plans are nearly completed for this community, along with thousands of others from coast to coast, to do its full part at the opening of the savings program. It is expected that the Mayor and other civic leaders will be among the first purchasers of savings bonds and stamps here.

Postmaster General Frank C. Walker, in a letter to Postmasters throughout the country, said tha the help of local posmasters would be "a real service to the country." He transmitted the thanks of Secretary of the Treasury Morgenthau for the help that local postmasters had already given in the sale of United States securities, and also Mr. Morgenthau's thanks in advance "for the co-operation which he knows you will give to this new effort."

The new Defense Savings Bond is similar to the familiar "Baby Bond," of which more than five billion dollars worth have been bought by more than two and half million Americans since 1935.
