There are many things for which men are willing to die, if they have to.

Aviation is the coming way to travel, whether you like the idea or not.

We have any number of ideas that we do not care to print in these columns.

The writer who presents two sides to every question will escape much attention.

The go-to-church movement can be given your personal support without any community drive.

Almost any business, that is monopolistic, can show a profit, even if the management uses no brains.

Here's one minor prophet who did not think that the Russians and the Germans would go to war.

After listening to Prime Minister Churchill's radio addresses we suspect that he has a small opinion of one Benito Mussolini.

The average man will be enthusiastically patriotic if it means a fifty per cent increase in income.

Red Faces: Big business leaders who said that there would be ample supplies of steel for all purposes.

It is rather marvelous, the way the average man can scant a call for money for a worthy cause and be absent.

The child who attempts to reform father and mother ought to be between the shafts pulling the family cart.

Correct this sentence: "The United States is in no danger from any quarter of the world but we should rush national defense."

You can have a good product, at a reasonable price and never get anywhere unless you tell customers how it will help them.

It might be a good idea to remember that, whatever we do, we are not helping the Russians, they are helping the democracies.

Income of farmers, in 1941, will have more buying power than in 1929, say economic experts, but the question is, "Do the farmers know it?"

What has become of the man who expected his vegetable garden to produce the results pictured in the catalog that he studied a few months ago?

It's not too late to make a concerted effort to reduce accidents on the highways in Pitt County. Every driver can help, will you?

Every community, including Farmville, is the product of many individuals; it should go forward through the cooperative effort of many more.

Here we suddenly realize that we have been remiss in our obligations to the business office. We have not urged you to pay your subscription to The Enterprise for some weeks.

INCOME UP ELEVEN BILLIONS

We are somewhat intrigued by the prediction that the national income for 1941 will be about \$11,000,000,000 more than the \$74,000,000,000 recorded last year.

This is interesting, even to a half-baked economist, and more than interesting to the citizens who expect to share some of the extra dollars that are floating around.

The economic experts say that the American farmer will receive, upon the basis of the present outlook, a cash farm income of about \$10,000,000,000 or about ten percent more than in 1940. However, the 1941 income will be greater because of the increase in the price of farm products.

620 Fifth Avenue, New York, where they will be cabled to London for answer the following Sunday.

British government officials and experts will make up a panel for the purpose of replying to queries from the people of the United States. The announcer will read the question, give the name and address of the inquirer and call on a member of the panel for an answer.

Here's a chance for all those who have yearned for an opportunity to ask the British government a question.

FOOD FAMINE NEARS?

With German armies invading Russia and the prospect of a long war looming on the horizon, there is the possibility that the world may face a food shortage that might assume famine proportions.

Already certain areas in western Europe, occupied by Nazi armies, are in need of food to take care of their populations. If destruction in the Ukraine means the loss of the wheat of that area it may come to pass, as suggested by Secretary of Agriculture Wickard, that food reserves will be more important than munitions.

The issue may resolve itself into "who can feed the people, the democracies or the dictatorships?"

American farmers, acting under their programs, have attempted to adjust supply to reasonably expected demand. The restrictions have been used to reduce burdensome surpluses but it should not be forgotten that the same machinery will assist our agriculturists to increase production when, and if, it becomes necessary.

DEFENSE BOND Quiz

Q. What is a U. S. Defense Savings Bond?

A. This Bond is proof that you have loaned money to the United States Government for national defense. Your Bond bears interest at the rate of 2.5 percent a year, if held to maturity (ten years).

Q. Why should I buy Defense Bonds?

A. Because money talks. To dictators it speaks defiance. To friends of freedom, it says, "Here's my hand!"

NOTE.—To purchase Defense Bonds and Stamps, go to the nearest post office or bank, or write for information to the Treasurer of the United States, Washington, D. C.

The United States has come individuals who are dangerously near the traitor line.

Keep Profit at Home

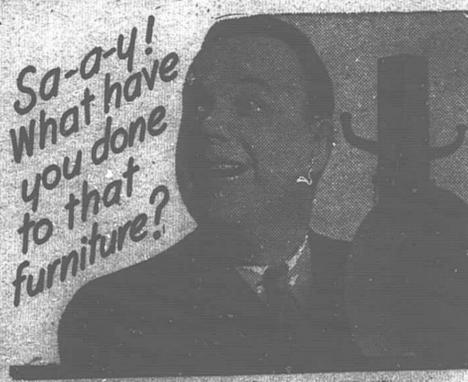

(By JOHN CRONIN in Commercial Banker)

Certainly I can buy at wholesale—and just as certainly I do not and won't, because I cannot help my community that way, and my institution can progress only as does my community.

It may seem hard to pass up a chance for a sizable dollar saving on a purchase—but the profit is the money that stays in town, and that's the money that builds up our community.

What have you done to that furniture?

AFTER you get him off to work and finish up the dishes, get busy with the woodwork or furniture that shows the battle scars of long, hard use. Make them look like new with the glorious, modernistic colors of this wonderful easy-to-use, fast drying enamel. Leaves no unsightly brushmarks—leaves no tell-tale odor. Dries within four hours and leaves a glossy, smooth, mirror-like surface. Indoors or out—big pieces or little—from baby's toys to garden furniture or the automobile—weather and wear have little effect upon this bright, hard, long-lasting surface. Surprise your family with old pieces made bright and new. Select your colors and start in this week.
