**U. S. MUST HELP POLICE THE WORLD**

Secretary of the Navy Frank Knox points out that twice the United States has learned from "bitter experience" that no matter how great its reluctance to participate, the world has grown so small that we cannot escape the consequences of a general war.

Consequently, he foresees that the United States and Great Britain, after peace has been made, will have to join hands for "at least one hundred years" to impose the peace and establish a "world ruled by laws and not by men."

Certainly, the people of the United States might as well understand that they have a price to pay for world peace. No peace will be permanent if the way is left open for other aggressions, or if ascendant nations adopt pacifism and permit disgruntled and aggressive peoples to attack them again when they are unprepared.

Mr. Knox feels that the people of this country should have some "grander, nobler concept" than that of military victory. The goal that he holds before them is world peace, with malcontents held in check by the power of peace-loving nations, like the United States and Great Britain.

**DEFENSE BOND Quiz**

Q. How many Defense Savings Stamps does it take to fill an album?  
A. Seventy-five 25-cent stamps; seventy-five 50-cent stamps; seventy-five \$1 stamps; or fifteen \$5 stamps. The completed albums are immediately exchangeable for Defense Bonds (Series E) at your post office, or through your bank.

Q. Who directs the National movement to sell Defense Savings Stamps in retail stores?  
A. The Treasury's Retail Advisory Committee, of which Benjamin H. Namm, of the National Retail Dry Goods Association, is chairman. Officers of 13 other great retail organizations comprise the committee.

NOTE—To buy Defense Bonds and Stamps, go to the nearest post office, bank, or savings and loan association; or write to the Treasurer of the United States, Washington, D. C. Also Stamps now are on sale at most retail stores.

**Local Colored School Accorded A-1 Rating**

According to a recent release by the State Department of Education, the Farmville Negro school has been given the A-1 rating. This is next to the highest rating that the state gives to any of its secondary schools. The AA-1 rating is the highest. There are only 12 of the Negro schools in this group and they comprise the largest city units. The next highest is A-1 of which there are 18. The Farmville school is now rated in this group.

The school of which E. B. Sugg has been principal for the past 22 years, has often been commended by leading educators and citizens, of both races, for the efficiency of its organization and administration.

The administration declares without hesitation that the school is indebted to the friendly interest and support of its white citizenship for this achievement. Without which, it could not have made this progress. There are only three Negro schools east of Raleigh that has a higher rating, and there is very probably not a Negro school in the state that enjoys a greater measure of confidence and moral support than this one.

J. H. Moore is superintendent of both the white and colored schools. Dr. Paul E. Jones is chairman of the Farmville School Board. D. H. Conley is superintendent of the Pitt County administrative unit.

Our Own Little Observation: Few women think highly of other women.

**AID RUSSIA FOR U. S. BENEFIT**

It might be a good idea to keep the record straight.

The United States is helping the Soviet, in the war against Germany, because it is to the interest of the United States to help the Soviet.

We are not sending supplies to Red Russia because we approve the form of government that exists in Russia. Nor should we be so foolish as to withhold aid, in the war on Hitler, just because we disapprove the kind of government the Russians have.

The United States is not engaged in any war to compel the Russians to provide for complete freedom in Russia. In short, it is not our business to determine the style of government that the Russians enjoy.

We are not making war upon Hitler because of the form of government the Nazis give Germany. We make war on Hitler because Nazi Germany makes war upon all free peoples and, if victorious in Europe, would undoubtedly make war upon us.

If Red Russia becomes a world menace, threatening to use vast military resources to conquer the world, the United States would make war upon Soviet Russia to the same extent and for the same purpose that we aid the enemies of Hitler.

It is not the function of the United States to demand, at the point of a gun, that other peoples be given freedom, either of the press, of religion, or of the ballot box. Our safety requires, however, that we prevent any self-appointed super-race from attempting to conquer the entire world.

Concerning aid to Russia, it should be decided solely from the standpoint of the selfish welfare of the United States. If the Red army is fighting an enemy that may be our enemy, then it is wise for the United States to give material assistance to the Soviet, somewhat in the form of insurance against war.

There are successful business men who take no exercise, either physical or mental.

Some folks are never happier than when they are getting other people into difficulties.

Few people are less educated than the expert who knows everything about only one subject.
