Garden Seed Collections Cost from \$5.35 to \$6.50

A garden on every farm has been proclaimed a patriotic and economic "must" in the National war effort. To this end, a "Victory Garden" campaign is being organized throughout North Carolina and the rest of the nation.

As an important part of the "Victory Garden" campaign, the Extension horticulturists at N. C. State College, have made up a list of garden seeds needed to feed a family of five for a full year. Seed dealers in every part of the State have agreed to offer these seed collections in special packages, at a reduced rate when bought all at the same time.

H. R. Niswonger, one of the horticulturists, says the prices of the garden seed collections range from \$5.35 to \$6.50, as quoted by dealers. The packages contain about 26 pounds of garden seed, which, if planted correctly and cultivated properly, will furnish an abundant supply of fresh vegetables for a farm family of five, with a surplus for canning and storage.

"If a farmer buys this special garden seed package, he will save considerable money," Niswonger declared. "A comparison of prices quoted by dealers for the 26-pound collection, with seed catalogues listing the various seeds in separate packages, shows that the seed would cost from \$2.65 to \$12 more when bought at intervals during the gardening season."

The State College leaders said that county farm and home agents have information on the source of these special garden seed collections. They will help farm people to plant them.

Scrap Metal Sales Aid Farmers and Red Cross

Scrap iron and steel is needed in the defense program... the American Red Cross needs money for emergency work... farmers want to help in the war effort in every way possible.

Dean L. O. Schaub, director of the State College Extension Service and agricultural representative on the executive committee of the State Defense Council, suggests a way for farmers to serve—to "Scrap the Japs With Scrap."

In Hoke County, he says, a one-day scrap metal collection campaign was conducted, and farmers brought in more than 300,000 pounds of discarded farm machinery, tractors, gas engines, automobiles, fence wire, etc. They sold the scrap to licensed dealers at from 40 to 55 cents per 100 pounds.

"Instead of pocketing the money received for the scrap, most of the farmers turned around and donated the cash to the Red Cross," Dean Schaub reported. "In this way, the farmers provided metal for guns and munitions, and for the manufacture of farm machinery, while donating to the Red Cross more money than they otherwise would have been able to give."

Dean Schaub suggested that the scrap metal collection campaigns which will be conducted in other counties along the same lines as the Hoke County drive. A theater in Raeford offered free movie tickets to farmers who brought in 500 pounds or more of scrap, and other prizes were offered by merchants who advertised in a special edition of the local newspaper.

"Scrap iron and steel is absolutely necessary in the present method of manufacturing new steel," the farm leader explained. "There are thousands of tons of scrap on farms of North Carolina which should be put to use in the National war program."

INDIANS ALSO PATRIOTIC

Seminole, Okla.—The Federal Government has received a request from the business committee of the Seminole Indians to release \$50,000 of their tribal funds in order that this amount might be used to buy defense bonds. An Act of Congress is necessary before any of the tribe's \$125,000 deposit can be released.

Believe it or not, there are individuals who are happy to be called upon to pay an income tax. Are you?

Scraps From The Red Cross Sewing Room

Sewing room activities continue to rank foremost in the National Defense efforts being made locally, and Mrs. W. M. Willis, production chairman, reports that three shipments of been sent out with great pride and past three weeks, with 271 articles of clothing being listed.

Included in the three shipments were men's sweaters, children's sweaters, men's bathrobes, shirts, ladies' woolen skirts, dresses, bonnets, socks, and layettes consisting of outgoing gowns, kimono, slippers and sleepers.

The sewing room is open every day from Monday through Friday, from 10:00 A. M. until 5:00 P. M. A new allotment is expected Monday and more and more workers are needed in order that the work may go on as rapidly as is being planned at headquarters.

The pressing clubs have volunteered their services for finished garments and the Farmville boxes have been sent outwith great pride and satisfaction by the production chairman and by Mrs. W. H. Moore and Mrs. J. H. Taylor, co-chairmen of the sewing room.

It was cheering to see the American Legion Auxiliary supporting the sewing room as a group this week, when 2 1/2 hours were devoted to this activity by the members, resulting in a large amount of work being done. The Auxiliary hostesses, Mrs. J. H. Bynum, Mrs. B. F. Weaver and Mrs. Nonie Barrett, extended their hospitality to the other workers of the afternoon, who paused to enjoy with the members, refreshments, consisting of sandwiches, cookies, salted nuts and coffee.

Women who have demanded equal rights with such vehemence in years past might get what they've demanded before long.

AN APPRECIATION

The War Fund drive is now complete, and the work was so well done that success has crowned our efforts, and Victory has been won.

This did not come as if by chance, for such cannot be done; it came from hard and arduous toil on the part of every one.

All of us had a part to play when the Zero hour was known, and hundreds of men and women battled, as for their own.

Day by day advances made, in spite of wind and weather, and complete success has been achieved.

By pulling well together. To all of you who had a share in measure great or small, My heartfelt thanks go out right now. My thanks—to one and all.
