Americans, anxious for the survival of popular government, should seek to render their country unselfish service.

Pitt County will do its part in the defense of the nation and the valor of our sons will not be surpassed.

In a year or two, if the war brings us enough suffering, people will talk of the common good and mean it.

Personally, we are ready to back the judgment of Roosevelt and Churchill as to the strategy of the present war.

Luckily for the human race, adults, who grow cynical, are replaced by youngsters with enthusiasm, hope, faith and love.

The idea that the Japs are not prepared to risk national existence in war with the English-speaking nations has disappeared.

What has become of the moaning prophets who were so certain, a few years ago, that the national debt would wreck this republic?

Mental test: How long can you listen to the radio without getting too much of the moronic messages of the abject, advertising announcers.

Joke: Have you heard the story about the little boy who was named George Washington? Well, we might as well skip it, you've probably heard it.

Where we made our mistake, before the war, was in not sending our isolationists to Germany, Italy and Japan—they might have converted the aggressors into isolationists.

Americanism: Congressmen, who voted against adequate appropriations for the Army and Navy in 1939, now criticizing officers trying to fight a two-ocean war without adequate supplies.

\$693 P.E. PERSON

The national income in 1941 amounted to \$693 a person, according to estimates of government economists.

The nation, as a whole, enjoyed an income of \$92,000,000,000, which is not what one would call alfalfa.

We have not studied the report but we are inclined to believe that, even if every person did not receive his or her \$693, the national income was more equitably distributed than in any previous year in the history of this republic.

UNITED NATIONS AT WAR

It is related that President Roosevelt gave considerable thought to the term that should be applied to the nations engaged in the war against aggression and that, finally, he decided upon the "United Nations" which is strongly reminiscent of the "United States" which formed the American Government.

So far as we know, the first official use of the term "United Nations" occurred in Java, Netherlands East Indies, on January 25th, when the "Southwest Pacific Headquarters of the United Nations" issued its No. 1 Communique of the war, telling of attacks upon an enemy convoy attempting "to pass southward through the Strait of Macassar."

In the course of years, it is quite probable that the United Nations will play as important a role in the history of the world as that which has been played by the American colonies, referred to in our Constitution as the "United States."

NO "COMPROMISE PEACE" POSSIBLE

You can read almost anything about the war, including "verified" accounts of internal trouble in Germany and "authentic" repatriations of "peace feelers" being put out by Germany.

It is just as well for the United Nations to make up their minds to win the present war by force of arms, without regard to weakness in Germany, and to discount all stories which relate to German "peace feelers" on the basis of the 1937-38 experience.

It is somewhat difficult for us to understand the attitude of Japan toward the war, but they are not so stupid as they are sometimes represented to be.

WHAT TO DO IN AN AIR RAID. Suggestions No. 3 as issued by the United States Office of Civilian Defense in a pamphlet entitled "What To Do In An Air Raid," the first and second of which was printed in these columns for the past two weeks are as follows: NO. 3—PUT OUT LIGHTS. Whether or not blackout is ordered, don't show more light than is necessary. If planes come over, put out of cover also lights at once, don't wait for the blackout order. The light that can't be seen will never guide a Jap. Remember a candle light may be seen for miles from the air. If you have portieres or curtains, arrange a double thickness over your windows. Blankets will do. If you have heavy black paper, paste it on your windows. Don't crowd or stampede stores to get it, however. You probably have everything you need at home. Be ingenious—improvise. Should you get an air-raid warning, remember to shut off gas stoves, gas furnaces, and gas pilot lights on both. Bomb explosions may blow them out from blast effect. Gas that collects may be explosive later. Prepare one room, the one with the least window glass, in the strongest part of your house, for a refuge room. Put food and drinking water in it. Put a sturdy table in it. Put mattresses and chairs in it. Take a magazine or two, and a deck of cards, into it. Take things like eyeglasses and dentures with you when you go into it. Take toilet facilities, paper, a screen. If you have a portable radio, take that too. Above all keep calm. Stay at home. Put out lights.

Every Patriotic American Salutes His Nation's Flag. During the ceremony of hoisting or lowering the flag, or when the flag is passing in a parade or in a review, all persons present should face the flag, stand at attention and salute. Those present in uniform should render the right hand salute. Those men not in uniform should remove their headgear with the right hand and hold it at the left shoulder, the hand being over the heart. Women should salute by placing the right hand over the heart. The salute to the flag in a moving column is rendered as the flag approaches the spectator and is held until it has passed.

they are confident that, upon vital battle areas, they can exert superior forces. There is no logic whatever in any compromise peace between the nations now at war. The aggressors have set up a new standard of international conduct and assert the superior rights of their people as compared with other peoples. Neither Germany nor Japan has recognized the restraint of accepted morality because they do not give recognition to the divine personality of mankind. The present struggle can end only in the death of the German and Japanese ideal, or the extinction of free peoples accustomed to liberty and the ways of democracy. The decision must be complete, final and everlasting. The winner, whichever side it may be, will dominate the world for hundreds of years and impose upon the vanquished the victor's ideas of civilization, including economic, political and social organizations.

COLONIAL STORES INC., SUGAR PLAN GETS APPROVAL

Conference in Washington Brings Sanction From Department of Justice to Rationing System

Norfolk, Va., Feb. 5.—The Colonial Stores, Inc., plan for the distribution, or rationing of sugar, has been approved by the Office of Price Administration, following a consultation with the Department of Justice in Washington, announcement was made today.

The announcement following a conference in Washington between officials of the OPA, the Department of Justice and W. C. Pender, general counsel for Colonial Stores Inc.

The legality of the plan, which was at first questioned by the Department of Justice, was reaffirmed as a temporary measure in the public interest, in cooperation with the Office of Price Administration, until the government is prepared to take responsibility by issuing rationing cards, now in process of preparation, said Mr. Pender.

It was revealed that the rationing plan inaugurated by Colonial Stores Inc., had resulted in an approximate reduction of 30 per cent in total sugar sales and that the allotment for the month of January was exactly consumed, thereby providing sugar for all patrons.

The plan, permitting the purchase of sugar with other goods, said Mr. Pender, afforded an opportunity for all to participate in the government conservation of sugar.

No real hardship has been experienced as provision was made in the plan for purchase of sugar by those financially unable to make other purchases, he said.

Mr. Pender said that it was exceedingly unfortunate that the motives of the company in rationing sugar should have been misunderstood or questioned but he was glad to say that the conference in Washington had made everything clear and won official approval.

The reduction of 30 per cent in sugar sales, demanded by the government, had been accomplished and that fact vindicated the action of the company, Mr. Pender pointed out.

BURLAP

Farmers will have to turn more to bulk handling of grain since two-thirds of available burlap has been turned over for use by the armed forces, and grain bags will be difficult to get.

LABOR

Only 25 percent of the American population is now on the farm, the other 75 percent being engaged in creating the comforts and luxuries called the American standard of living.

PROMINENT

The vegetable garden fills a prominent place in the farm program, since it serves the double purpose of providing a health insurance policy and a savings account for the family.

IDEAL

The ideal garden soil should be fertile, well-drained, responsive to moisture and soil nutrients, should warm up quickly in the spring and should not bake after hard frosts.

ONE-TENTH

One-tenth of an acre will provide sufficient vegetables for one person; hence, a farm family of five should plant at least one-half acre to meet vegetable requirements of the family.

Health hint

If you believe your doctor, do what he advises; if you don't believe him, do it anyway.
