FARMVILLE CHAMBER COMMERCE BIG FACTOR IN TOWN'S ACTIVITY FROM A BUSINESS STANDPOINT

Steady Upward Trend Noted From Activities Since Its Organization A Few Years Ago

The Farmville Chamber of Commerce and Merchants Association was organized in July, 1938, by a group of forward looking and progressive business men; and has since enjoyed a steady growth.

Following its organization the Association was incorporated under the State laws of North Carolina and the officers began to assume the duties of the two groups indicated by its name. Broadening its scope and activities at remarkable rate of speed the organization now includes practically all branches of the business life in the town, and boasts of a strong board of directors, alert to the need for satisfactory working conditions, a better understanding between employers and employees and cooperation with the buying public as well as is now considered a powerful

force in the civic and industrial life of Farmville.

Too much praise cannot be given the faithful leaders, who have stood by and are helping to keep in touch with every phase of this community's business development, leading to continued improvement.

Through cooperative merchandising and advertising, members of the Association are able to give better values and services to the buying public of this section of the State.

It is the Association's purpose to bring about a closer cooperation of its members, whereby they can work as a unit for the promotion and development of the business life of the town; and its aim to grow into one of the most serviceable organizations in Eastern North Carolina.

Uncle Mose: "The glad I see black stid of bein' yellow, 'cause I see won't be mistaken for a Jap."
