SIGN YOUR PLEDGE

Uncle Sam, in this War effort, must know from every production plant just how many guns, tanks, planes and ships he can expect to receive within the next few months so that he can lay his battle plans accordingly.

By the same token he must know from the people of the nation just how many dollars he can expect to receive voluntarily in the purchase of U. S. Savings Bonds, so that he can lay his tax plans accordingly, to pay for the War cost. The more dollars voluntarily pledged for the purchase of Bonds, the less will be the tax load.

With this in mind, the Treasury Department is conducting a nationwide inventory by states wherein every income earner is being asked to sign a Pledge indicating how much he will lend from that income to buy Savings Bonds.

The pledge campaign in North Carolina is to be conducted next week—May 4-9.

This community is a local sector of the state and nation-wide battle front. The voluntary workers in the campaign are civilian soldiers serving without pay, glory or thanks, and are as surely fighting a battle for freedom as the soldiers on the battle fronts. They are conducting a campaign which we, a nation cannot afford to lose. Their only weapon is a Pledge Card and a cheery word.

They will offer every income earner the privilege and opportunity to pledge an investment in the safest risk in the world, the United States Government.

Every person who is financially able should support this Pledge Campaign to his or her utmost financial ability. The Pledge is entirely voluntary on your part, but upon the success of this campaign will depend the freedom of America, for without the tanks and guns and supplies to be purchased by your investment, your Pledge, we cannot win this war.

So join willingly, cheerfully, in this mobilization of American dollars, so that America will continue to be free. Sign the Pledge and do YOUR share.

Drying Of Vegetables, Fruits Has Advantages

Home drying is a satisfactory method of preserving certain fruits and vegetables, says Miss Ruby Scholz, Extension conservationist of N. C. State College. Used as a supplement to canning and storage, it will reduce the cost of the food budget and provide an adequate variety of foods for winter use, she pointed out.

Some of the advantages of drying, or dehydration, listed by Miss Scholz are: The product's weight is only one-fourth to one-ninth of the weight of the fresh materials; there is a considerable reduction in bulk; storage is possible for long periods without the use of hermetically sealed special containers; and very little special equipment is needed.

Among fruits best suited for drying are apples, peaches, and pears. Berries and figs do not dry successfully in this climate, the Extension worker reported, and are most palatable when canned in syrup by the hot water bath method, or when made into preserves.

Miss Scholz says that drying is advised for a limited number of vegetables. "Dried vegetable materials are prone to deteriorate in flavor and table quality," she explained. This is especially true of asparagus, spinach, cauliflower, and green peas.

"Cans are delicious when dried. So are green beans, some peas, and peas. Vegetables to be dried require partial cooking before they undergo the drying process. This pre-cooking should be done in steam rather than water, to preserve the food value."

Types of driers for fruits and vegetables include the outdoor screen tray, even and stove drier. The outdoor tray should be of wire setting, weatherproof covered, and slanted to the direct sun. Drying also can be done in trays on a stove or in an oven.

State College Hints For Farm Homemakers

(By Ruth Current, State Home Demonstration Agent)

Be sure to get rotenone or some good insecticide to fight bean beetles. Don't let them catch us!

What can you do to help America win the war? Here are some suggestions:

Fatten more pigs; grow more tomatoes; produce more poultry and eggs; grow more yellow soybeans; plant better home gardens; keep some bees; plant some cane seed; and improve the soil.

Don't complain about the sugar shortage. Put in a crop of molasses and get yourself a colony of bees.

Don't be too critical of everything. Do the best you can, do the most you can, and lend a helping hand wherever you can.

It is very important to select good quality, comfortable shoes because you will be tiring less and walking more. Good quality leather that will give good service and lower heels in women's daytime shoes, novelties for dress.

Brush and polish your shoes regularly.

Use shoe trees to keep your shoes in shape.

Have hats straightened and also cleaned and stored.

Wheat and the War

588 LOAVES

AMERICA HAS ENOUGH WHEAT TO MAKE 588 LOAVES OF BREAD FOR EVERY PERSON IN THE COUNTRY.

DEMOCRACY

ONLY IN AMERICA DO BALLOTS DECIDE WHAT PROBLEMS. IN 1941 U.S. GROWERS VOTED TO STABILIZE THEIR WHEAT INDUSTRY WITH MARKETING QUOTAS.

KEEP IT ROLLING

RAILROADS ARE HEAVILY LOADED WITH TROOPS AND SUPPLY MATERIALS. A SHORTAGE OF TIRE FLATS IS WHEAT COULD ENHANCE THE NATION'S MARKETING MUST BE DROPPED.

BIG INDUSTRY

WHEAT IS THE WORLD'S BIGGEST FARM INDUSTRY. NEARLY 14 MILLION U.S. FARMERS GROW WHEAT.

MAY 2

As America goes into full swing in her fight against aggression, wheat bins already are bulging with the largest supplies on record and transportation facilities are overburdened with movements of war materials and troops, according to W. Herbert White of Caswell County, member of the State AAA Committee. This is in marked contrast to the situation which existed when America entered the first World War. Wheat supplies on hand on July 1, 1942, are estimated at 1,423,000,000 bushels, enough for two years domestic use and exports, Mr. White said. This estimate is based on a carryover of 630,000,000 bushels and a 1942 yield of 793,000,000 bushels. In 1917, the wheat supply was approximately 700,000,000 bushels, or about half what it is now.

North Carolina wheat growers will join with those of other states on Saturday, May 2, in a national referendum on wheat marketing quotas on the 1942 crop. "This referendum, the 1942 crop. 'This referendum,' Mr. White declared, 'gives American farmers an opportunity to decide an issue vital to them in the democratic manner.'

WALSTONBURG NEWS

Mrs. W. Earl Lang spent Monday in Greenville with Mrs. E. L. Baker.

Mrs. W. P. Jenkins and sons, Paul and Leggett, of Fairmont, spent the week end with Mr. and Mrs. Sam Jenkins.

Mr. and Mrs. Jesse Gay and son, Isham, and Mrs. W. E. Lang were Raleigh visitors, Thursday.

Mr. and Mrs. M. D. Yolverton and Mr. and Mrs. F. L. Eagles and son, Guy, of Fountain, visited relatives here Sunday.

Mr. and Mrs. E. F. Brooks, of Monroe, are spending some time with Mrs. Brooks' parents, Mr. and Mrs. L. F. Smith.

Aviation Cadet, James Redick, stationed at Shaw Field, S. C., is spending several days with his parents, Mr. and Mrs. W. V. Redick.

Woman's Club Meets

The Woman's Club held its regular meeting with Mrs. I. J. Rouse Wednesday afternoon at 4 o'clock. Miss Lillian Corbett conducted the devotional.

The president, Mrs. J. C. Gardner, presided over the business meeting. Roll was called and the minutes of the previous meeting read by the secretary, Mrs. Sam Jenkins.

After the regular business was disposed of Mrs. A. J. Craft, chairman of the nominating committee, presented the following as officers for the coming year: Mrs. Ed. Taylor, president; Mrs. Albert Bundy, vice president; Mrs. Sam Jenkins, secretary, and Mrs. A. R. Gay, treasurer. Mrs. A. J. Craft, vice president for the past year, installed the newly elected officers.

The hostess then served a delicious sweet course.

LIBERTY LIMERICKS

A teacher, expiring inflation,
Its after effects and causation,
Advised all her scholars
To save up their dollars
And buy bonds to safeguard the nation.

Help teach the Japs a lesson!
Put every dime and dollar
you can into U. S. Defense
Bonds and Stampography
pay day.

RUBBER

Collection of used rubber in the farm scrap drive will be a vital aid toward keeping rubber-reclaiming plants operating on the scale now considered necessary.

No man with honor will sell it.
If he is willing to sell he hasn't any.

Entertains At Birthday Party

Sallie Baker, young daughter of Mr. and Mrs. Vernon Baker, entertained several of her friends in honor of her fourth birthday on Tuesday afternoon.

Mrs. Baker, mother of the hostess served ice cream, cake and candy to the guests.

Hostess To Bridge Club and Guests

Mrs. R. A. Fountain, Sr., was hostess to her Bridge Club and invited guests Saturday afternoon in honor of Mrs. Jack Watters, a recent bride.

High score prize for the club was won by Mrs. J. M. Horton and for the guests by Miss Effie Lewis. The cut prize went to Mrs. J. W. Redick.

The hostess served bridal ices, frosted cakes, mints and salted nuts.

Housewives Are Told How To Outwit Clothes Moth

"Those winter woollens you are putting away this spring are going to be more valuable than ever next fall," points out Miss Willie N. Hunter, clothing specialist of the N. C. State College Extension Service. "War-time needs for wool emphasize the importance of protecting garments and blankets from moth damage," she declared.

Miss Hunter says that moths are likely to be in almost any house at any time of the year. "So eliminate all breeding places for moths," she advises, "and keep all floors and rugs well swept. Never leave wool rags or old wool clothes lying carelessly around the house. Don't let lint or hair accumulate in floor cracks or under baseboards—or dog or cat hairs remain in the basement. Moths like hair, feathers, and fur as well as wool."

Continuing, the Extension specialist said: "Before you store wool garments, rid them of moths, larvae, or moth eggs. Dry cleaning, washing with a strong solution of neutral soap, or sunning, airing and brushing combined will kill moths—destroy their eggs and larvae."

"Put clothing away in paper bags, in paper packages, in boxes, or store in trunks, chests and tight closets. Seal all paper bundles, bags and boxes so the moths have no access. They won't eat through the paper, but they will crawl through the holes.

"For extra protection, use naphthalene or paradichlorobenzene, or moth balls which contain one or both of these chemicals. About one pound of flake naphthalene or paradichlorobenzene is a safe amount for a small chest, trunk or wooden box. For a large closet or storeroom, use a pound of crystals to every 100 cubic feet."

LEATHER

Despite the Government's shoe-buying program which will be expanded three or four-fold this year, no shortage of civilian footwear is anticipated this year.

It wouldn't help any if a leopard could change his spots. He likely wouldn't change them and he would still be a leopard if he did.
