WORK IS THE MIRACLE

St. Peter and St. Thomas Aquinas were having a golf game one heavenly day. St. Peter's first drive was right up to the cup for a hole in one.

We in America had half expected that we would begin to achieve miraculous victories immediately on entering the war.

We are recognizing at last that we must cut out waiting for miracles and get down to work. Work, after all, is the true miracle.

And we can all join in working miracles, through the miracle of work!—The Silver Lining.

STAND STEADY!

Daniel Webster once was giving one of his stirring and eloquent addresses in a large hall on the second floor of an old building. The room was packed with people, crowded close together.

Stand steady! A nation swaying to the rhythm of war-hysteria needs that message today. We need to firmly plant both feet on the good earth and brace ourselves for the days ahead.

Stand steady! Bab news, rumors, disappointments, fear will try to topple over our spirits. Against it all, we must stand as firm and steady as a giant oak in a gale.

Stand steady! As Atlas supports the world upon his shoulders, America must stand steady, supporting and upholding the world of freedom, justice and goodwill.

Stand steady! We must face limitations and sacrifices with high courage. We must take them all, not lying down, but standing up, in the full stature of our manhood.

Stand steady! Let us keep our feet on the ground-of-reality and our heads in the clouds-of-hope. While we meet, battle with, and subdue the problems of each day, let us hang on to the ideals of the American Way of Life with a firm resolve to win the peace as well as the war.

Stand steady! —Wilfred A. Peterson, Editor The Silver Lining.

Air Observation Post For Week of June 29th

Mrs. George Jefferson, Jr., visited friends in Greenville, Thursday.

Hostess At Bridge. Mrs. R. A. Fountain, Jr., was hostess at two tables of bridge Wednesday evening in honor of Miss Lucile Bell of Rocky Mount.

Miss Elizabeth Smith won the high score award and the honoree was presented a gift by the hostess.

The guests were served coca-colas while playing and a salad course at the close of the game.

EXECUTOR'S NOTICE!

Having qualified as Executor of the estate of Mrs. Henrietta Fulford Moxingo, deceased, late of Pitt County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Farmville, N. C., on or before the 15th day of May, 1943, or this notice will be pleaded in bar of their recovery.

This is the 13th day of May, 1942. R. L. Fulford, Executor of Mrs. Henrietta Fulford Moxingo. M-15-6wks.

Suggests Ways To Can With Minimum of Sugar

Most farm homemakers have received their home-canning sugar certificate, and have been allotted one pound of sugar for every four quarts of finished fruit to be put up. "This may not sound like enough to some people," says Mrs. Cornelia C. Morris, Extension food conservationist of N. C. State College, "but it will suffice if care is used."

The Extension worker makes the following sugar-saving suggestions to home-canners: If you pack your fruit hot in its own juice, you will need much less sugar than if you pack the fruit cold, then cover it with sugar-and-water syrup. Remember, sugar is not needed in canning to keep food from spoiling. But it does help the fruit to hold color and flavor. By sweetening the fruit slightly, and then heating it, you can draw out juice from the fruit itself—in many cases make it unnecessary to can any added water.

For juicy fruits, usually it's best to separate the riper fruits from those less ripe. Then you can crush the riper fruits, heat them, and extract juice from them. Pre-heat the less ripe fruit, which you have set aside, in this juice. Add sugar to sweeten slightly if necessary. Fill the jars. Make sure there is plenty of juice to cover the fruit. Process in a water bath.

Certain varieties of peaches and pears may not yield enough of their own juice to make the canning liquid. You'll get more juice from these fruits if you slice them and add a

little sugar before you pre-cook them. If there isn't enough juice to cover the fruit in the cans, use syrup to fill the jars—a syrup made from one or more cups of sugar to one quart of water.

SOYBEANS

An Illinois soybean plant recently established a new record by crushing 7,000 bushels of beans and producing 9,000 gallons of soybean oil daily for an entire month.

One never learns by success. Success is the plateau that one rests upon to take breath and look down from upon the straight and difficult path, but one does not climb upon a plateau.—Josephine Preston Peabody.

Uncle Mose: "Fahson say he can't use wine at de communion. He can't get enuff to go 'roun'."

In isolated naval stations our Navy normally supplies medical services for the entire population.

When a selectee gets into the army it makes a man of him. Perhaps that's why the women want to try it.

A preacher laments that too many go to church and have neither their minds nor pocketbooks with them.

WAR DAMAGE INSURANCE AVAILABLE NOW!

The U. S. Government Has Created A New Billion Dollar War Damage Corporation

and delegated to the insurance agents of America the duty of providing the citizens of the nation with this protection against enemy action and other damage due to war.

You must have this insurance if you want your dwelling, household goods, automobile, store, factory, etc., protected against bombing, invasion, etc., or against the damage our own armies might cause you in the course of repelling enemy action. YOUR PRESENT FIRE INSURANCE POLICIES DO NOT COVER THIS HAZARD.

At the request of the Government, this agency has placed its facilities at your service and will accept your application for war damage insurance at once.

PEANUT GROWERS

INCREASE YOUR YIELD OF NUTS AND HAY

Tests during the past four years have clearly demonstrated that 3 to 4 applications of Stauffer's "Perfection" Brand Dusting Sulphur will greatly increase the yield of peanuts. The increased yield of peanut hay alone more than pays for the cost of the sulphur dust. Sulphur has proved to be effective and economical for leafspot and leafhopper control. In case of a severe attack by leafhoppers use "Magnetic" Pyrethrum-Sulphur Dust for quick kill; then proceed one week later with straight sulphur dust schedule. The following Stauffer Sulphur Products are available in your vicinity and will meet every requirement in your peanut dusting program: "Perfection" Brand Dusting Sulphur (93% sulphur, 7% conditioning agent). "Magnetic" Pyrethrum-Sulphur Dust (Use in case of heavy infestations of Leafhoppers). "Magnetic" Sulphur-Copper Dust.

Farmville Tobacco Market Report

By R. A. Fields, Sales Supervisor

Tobacco in this immediate section is suffering terribly at present for lack of rain and many farmers are forced to begin housing earlier than expected. This is not a general condition throughout Eastern Carolina, however, but appears about in spots. Some sections have enjoyed an abundance of rain while others have had very little.
