Wedding veil of illusion fell from a Mary Queen of Scots bonnet and extended beyond the train of the dress. Her only ornament was a string of pearls, a gift of the bridegroom.

Reception Follows Wedding At Home of The Bride's Parents; Young Couple Leave For Tour Before Going To Camp Gordon

Of widespread interest was the marriage of Miss Vernice Lang Jones, of Farmville, and Captain Charles Marsden Duke, of Jacksonville, Texas, which was solemnized in a formal ceremony performed at the Christian Church on Saturday evening, June 27, at eight o'clock.

Attended by a large assemblage of relatives and friends from several states, the wedding united prominent families of North Carolina and Texas. The bride is the daughter of Dr. and Mrs. Paul Erastus Jones, of Farmville.

Woodwards, extending from the floor to the ceiling of the chancel, formed a background of greenery for the wedding tableaux. White pedestal baskets, filled with calla lilies, gladiolus, carnations and fern, were flanked by floor standards of cathedral candles.

The junior usher was the first to enter. He was Harry Humphrey Albritton, a cousin of the bride. Ushers were Paul E. Jones, Jr., brother of the bride, Lieutenant W. O. Smith, of Augusta, Ga., Lieutenant Graham Waitt, of Atlanta, Ga., and Ed Jordan, of Wilson.

Lieutenant Earl Ek, of Mariane, N. Y., was best man. Miss Frances King, of Weldon, was maid of honor. She wore a gown of yellow marquisette, made with a sweetheart neck and trimmed with matching lace, which was also used at the waistline and as a border to the collar, designed as a hood.

Miss Theodora Albritton, daughter of Mr. and Mrs. Ted L. Albritton, a cousin of the bride, was flower girl. She wore an aqua dress fashioned like that of the bride and carried a similar miniature nosegay.

Miss Jones entered with her father, who gave her in marriage. She wore a bridal gown of white marquisette fashioned with a yoke, which was outlined with Chantilly lace. The waist was in the fitted blouse mode and the long sleeves ended in a point over the hand. The bouffant skirt was shirred on at the hipline and extended into a cathedral train. Her

Impressive in its dignity and simplicity was the marriage of Miss Marjorie Louise Nichols, of Farmville, and Lowell Fulghum Liles, of Farmville and Manteo, which took place Wednesday afternoon, July 1, in the Farmville Baptist Church. The Rev. Buford B. Fordham, pastor of the church, officiated.

Large floor baskets of picardy gladiol and tall standards of cathedral candles were used in the church decorations. Mrs. Arthur F. Joyner rendered a program of nuptial music. Prior to the ceremony, Elbert C. Holmes sang "Because" and Mrs. John D. Holmes sang "I Love You Truly." Traditional wedding marches were used.

The bride and bridegroom, who were unattended, entered together. The bride wore a traveling dress of powder blue, made with a short fitted coat and trimmings of lace in the same shade. Her hat was a white wide brim model of summer fabric and accessories were white. Her corsage was of pink roses.

Ushers were Chester Outland, C. J. Rasberry and J. R. Shearin. Mrs. Nichols, mother of the bride, wore a navy net dress with white accessories and a corsage of red roses. Mrs. Liles, mother of the bridegroom, wore a pink sheer dress with white accessories and a corsage of pink roses.

Mrs. Liles is the daughter of Mr. and Mrs. Thaddeus Howard Nichols, of Farmville. She received her education in the Farmville schools. For the past two years she has been employed in the clerical department at Berk-Tyler's.

The young couple left immediately following the ceremony for unannounced points. Upon their return they will be at home in Manteo.

Liles-Nichols Rites Are Held in Baptist Church

Mrs. E. F. Gaynor presided and gave a report of activities during the past year. Miss Tabitha DeVincenzi gave a report from the Bird Club, of which she is sponsor. Mrs. B. S. Sheppard read a poem, "Flowers," and Mrs. E. L. Barrett brought the program to a close with a discussion of mulching certain plants.

Food fruit punch, sandwiches and salad were served by the hostesses, one of whom, Mrs. Harris, was presented with a gift from the members of the Club. Mrs. Louis D. Harris and her house guest, Mrs. John A. Moore, of Fayetteville, were special guests.

BIRD NOTES

At the Bird Club meeting Saturday, James Thorne read an article "Our Common Flycatcher," by C. S. Brimley, of Raleigh, written for the State Bird Club magazine "The Chat." James found that these birds feed on insects by catching them on the wing. Five kinds are common throughout the State: Kingbirds or Bee Martin, Crested Flycatcher, Phoebe, Wood Pewee and Arcadian Flycatcher.

An interesting letter to James from Mrs. N. D. Tyner, of Greensboro, retiring secretary of the North Carolina Bird Club, was enjoyed by the members. Reports from "The Chat" relating to the state Bird Club meeting held in Greensboro, were read with an article on "Principles to Consider in Selecting a State Bird" by James Hutchins, who listed the following:

- 1. A bird that occurs in every county in the State. 2. It should be reasonably abundant in all sections. 3. An all year resident. 4. Of economic value. 5. Pleasing aesthetic qualities, that is beauty of form, of flight and color; interesting life-history and pleasant notes.

Mrs. Hutchins suggested the Bob White, Robin, Song Sparrow, Cardinal, Blue Bird and Mocking Bird among those that will be strong contenders for first place when the General Assembly meets in January 1943. After studying the principles outlined, the Cardinal received the largest number of votes by members of the group.

A trip to the woods for a study of birds was made. Charles Putnam was a visitor at this meeting. The Club decided to dispense with the next meeting, which falls on July 4th.

GAS

Squirting jets of ammonia gas into the soil of fields and orchards is the underlying idea of a recently patented device, bacteria in the soil converting the ammonia into nitrates.

MILKWEED

Because of milkweed's buoyancy, which is claimed to be five or six times greater than that of cork, it may become a vital material in the making of life jackets.
