State College Hints For Farm Homemakers

By Ruth Current, State Home Demonstration Agent, N. C. State College.

You can prevent mildew much more easily than you can get it out. So keep your clothes in a well-ventilated and dry place.

Rust gives a lot of trouble in summer, too—rust stains on clothes and rust on valuable metal. Prevent rust by painting metal or by covering it with oil.

Here's a tip about saving color in summer clothes. Textile scientists say never to soak colored clothes unless you're dead sure that the color is entirely fast.

When you put a handbag away for awhile, stuff crumpled tissue paper inside to help hold the bag in shape. Wrap the bag in soft unnaped cotton cloth such as old sheeting.

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

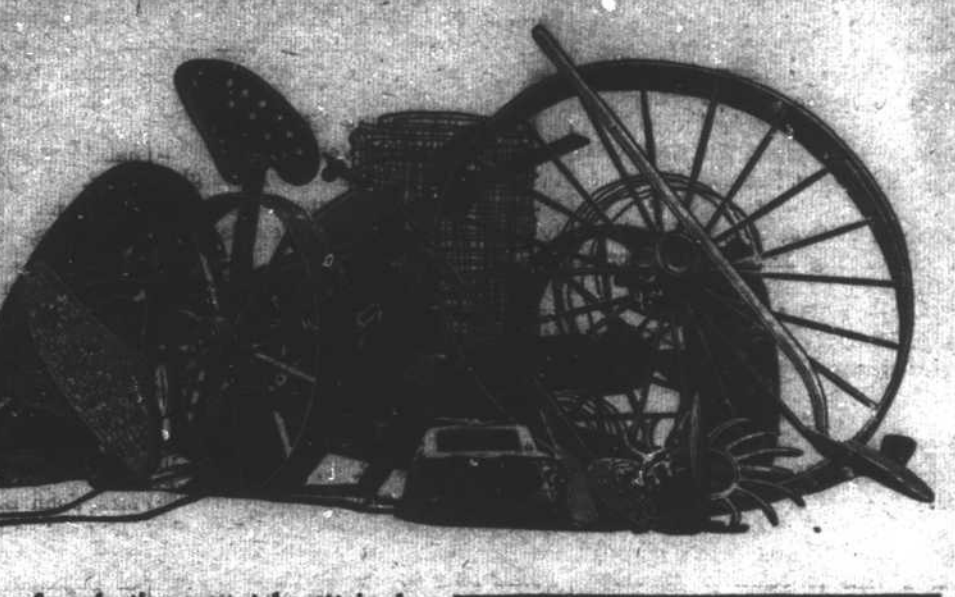

Scrap iron and steel, for example. Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel...

The production of steel has gone up, up, UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased...

JUNK MAKES FIGHTING WEAPONS. One old disc will provide scrap steel needed for 210 semi-automatic light carbines. One old plow will help make one hundred 75-mm. armor-piercing projectiles.

MATERIALS NEEDED. Scrap iron and steel. Other metals of all kinds. Old rubber. Taps, Manila rope, burrap bags. Waste Cooking Fats—When you get a pound of more, strain into a large tin can and sell to your meat dealer.
