**TIME FOR ACTION!**

Mr. and Mrs. Average American, this message is for you! Your Government has issued a call for your services in this war. You must answer present.

Steel mills throughout the country are slowing down in output for lack of scrap metals to keep their furnaces running 24 hours a day. Some war plants are in immediate need of fats to be used in making explosives. Other materials are required about which information will be made available when your government desires. The Call NOW is for metals, rubber and fats.

To locate and deliver these materials in YOUR JOB whether you be a preacher, lawyer, banker, farmer, barber, merchant or what not. Accept it as a PRIVILEGE and show the whole world what Farmville, Pitt County and this community CAN DO toward backing up her sons in the service. Millions and more millions of tons of metals are required; more rubber and tons of fats. This drive in national in scope. North Carolina's quota for scrap metal is 175,000 tons. Are we going to stand idly by and say, "Let George get it?" NO! George, who may be your own son or brother, is already wearing the uniform of his country and doing his part.

There is a salvage chairman in every town and township in Pitt County. See them and obtain all necessary information and instructions, then work at this job unceasingly and pray earnestly so that never will the people of Pitt County have to hang their heads and wail, "Too Little, Too Late."

This TOTAL WAR that has reached into our very homes and taken our young men is a deadly thing and to deal with it effectively, we must remember that TIME it's very self IS RATIONED.

"NOW" is the moment for ACTION!

**WHILE OUR HOMES STILL STAND**

War with its horrors, its ever increasing demand for personal sacrifice, its restriction of individual rights, has cast a shadow over our country. No section, town, village, city or hamlet can escape its demands that affect the lives of all of us. Yet we here in America have not felt the full potency of total war, at least many of our inland towns and cities will be secure from the scourge of the enemy. But this does not mean that we can ever allow ourselves to deviate one iota from the avowed purpose of total victory. To achieve this, we must work, sacrifice, and bend every effort individually and collectively to contribute our efforts where they are vitally needed to win the war.

In every home in America, without exception, there are things that have long outlived their usefulness. True, they may be wrapped in memories—delightful mementos of children at play, John's first tricycle... Mary's doll carriage... the states that Bill learned on... These are only things... things that have passed their utilitarian value, that we are asked to give as scrap. They aren't scrap to us... they mean something in our lives. But our homes are still standing here. Over there they have a different kind of scrap... they have the beams that they used to support the steeple of their church... the iron rails that little hands used to grasp to help them up the stairs... Yes—they have much more scrap of that kind than we... but we as give the scrap in our homes—and not the scrap of our homes.

Opportunity never makes an appointment and never waits.

**SCRAPPERS**

Our fighting men on the front, in the air and on the sea have proven that they are scrappers; now the people on the home front have a chance to prove that they are scrappers; our war production plants are facing a scrap shortage; it is up to the people on the home front to see that there is no scrap shortage; our men can't win without production materials; every patriotic citizen will get all of his scrap metal and scrap rubber and turn it in immediately; once you have cleaned up your scrap does not mean that you have finished your job, but everyone must be constantly on the alert to notify others, watch for scrap neglected on the ditch banks, along the streets, in the by-ways and hedges, and most important of all, remember that you will have additional scrap as time goes by.

Also everyone should remember that no item is too small to turn in; as your small amount can be multiplied by 130,000,000, which will make something big out of what looks very small to one individual.

Every available kind of scrap metal, scrap rubber, burlap bags and fats are badly needed now; your neglect to turn in your small amount of scrap might mean the loss of a soldier's life, one of your own relatives or a good friend; each person at home is directly responsible for the life of some soldier, even for the salvation of our nation and democratic way of life; it would indeed be a calamity, if by neglect and carelessness the American People on the home front brought death to our soldiers, sailors and marines, and thereby made defeat of the United Nations inevitable. IT IS NOW OUR CHANCE TO SAVE AMERICA WITH WHAT WE HAVE WASTED IN THE PAST; GET IN YOUR SCRAP WHILE THERE IS STILL TIME.

**State College Hints For Farm Homemakers**

By Ruth Current  
State Home Demonstration Agent  
N. C. State College.

Fresh fruit is delicious, refreshing, and healthful, in lots of ways, but it often leaves spots on tablecloths, napkins, and clothes that turn into ugly stains unless you get after them while they're still fresh and damp. If you let fruit stains dry, they're much harder to remove.

Letting fabrics become hopelessly stained is more than a personal loss these days. Every piece of cloth you own represents material and the labor of men at looms. Both are needed now for war production.

Sometimes warm water will take out a very fresh fruit stain; try it first. Boiling water will take out most fruit stains from white or colorfast cotton or linen. Stretch the stained material over a bowl, and fasten it with a string so it can't slip off. Pour on the boiling water from a height of 3 or 4 feet, so it strikes the stain with force. Rub the spot, then pour on more water, and rub again.

If the stain is not all gone when you've finished the water treatment, put a little lemon juice on the spot and put it in the sun to bleach. For further remedies write to the Home Demonstration Department, State College, Raleigh.

**Quotas Determined For 1943 Wheat Crop**

Marketing quotas on the 1943 wheat crop have been determined by Secretary of Agriculture Claude R. Wickard, according to G. T. Scott, Chairman of the State AAA Committee, with headquarters at State College. A nation-wide referendum, in which North Carolina wheat producers will take part, will be held prior to June 10, 1943, to determine if growers desire the quotas to remain in effect.

In making the announcement, Secretary Wickard said a proclamation to this effect may be issued anytime before May 15, 1943, but he wanted to give producers time to divert winter wheat acreage to more urgently needed food, feed and oil crops needed under the war emergency. Present legislation makes the announcing of quotas mandatory to any year when it becomes apparent that total supply will exceed a normal year's consumption and exports by more than 35 percent. To be in effect, however, quotas must be approved by at least two-thirds of the growers voting in a nation-wide referendum.

Scott said latest figures indicate the carryover of wheat on July 1, 1943, will be about 848,000,000 bushels, and the 1943 winter and spring wheat crops will be approximately 660,000,000 bushels. This will make a total supply of 1,508,000,000 bushels for the marketing year beginning July 1, 1943. Secretary Wickard recently set the 1943 national acreage allotment at 55,000,000 acres, the minimum provided by law, and requested that commercial growers voluntarily cut the total acreage to 40,000,000 acres.

"Wheat is a valuable wartime crop, as was clearly demonstrated in the first World War," Scott said. "At the present time, however, we have plenty of wheat. We entered the war with two years supply on hand, and many farmers in the western wheat areas are hard pressed for adequate storage space for the 1942 crop."

**Directory of Our Tobacco Colony**

It is with pleasure that the Farmville Enterprise welcomes the tobaccoists here again this season, and with the citizens of the community invites them to enter into all the activities of the town and become for three months a real part of its business, religious, social and civic life.

For the convenience of the "colony" we are printing a directory of every name of those engaged in the tobacco business we have been able to secure. There are several missing, of course, and we will be very grateful if they or their friends will advise us that we may add them to the list next week.

We believe this directory will be of service if clipped and carried with you, when wishing to locate some of your friends or acquaintances.

**Regrooving Of Tires Prohibited**

Raleigh, Sept. 3.—The WPA has ruled, E. H. Schellenberg, OPA State tire rationing specialist said today, that no person shall, without special written permission, regroove the tread of a tire or tire casing by cutting, scraping, grinding, burning or other means.

Schellenberg said that used car dealers frequently regroove tires to make them more saleable since many prospective customers refuse "dick" tires but sometimes accept "regrooves."

Regrooving a tire, he said, reduces the life of the tire and ventilation for cooler operation claimed in pre-40-mile-per-hour days is no longer essential.

"It is essential that regrooving be stopped," Schellenberg said.

Special permission must be obtained through the War Production Board before any tire can be regrooved, he said.

**NOTICE FOR PAROLE TAKE NOTICE that Elijah Dupree**

tried in the Mayor's Court, in the Town of Farmville, Pitt County, North Carolina, on or about the 11th day of August, 1942, for larceny and sentenced to twelve months on the road, will apply to the Governor and Parole Commissioner of North Carolina for a parole.

Any person objecting to said parole, will please make or file their protest with the Parole Commissioner of North Carolina.

This the 30th day of August, 1942.  
DANIEL T. DUPREE, Father.  
R. T. Martin, Atty. A-23-24

The war will be dragging on in the haze to come.

While looking with scorn on those who are not doing their war duty take a peek into the mirror.

**NOTICE OF SALE**

STATE OF NORTH CAROLINA  
COUNTY OF PITT  
IN THE SUPERIOR COURT

County of Pitt, Plaintiff,  
— vs —  
J. W. Hardy and wife, Mrs. J. W. Hardy, Sinclair Refining Company and Town of Farmville, Defendants.

Under and by virtue of the judgment made and entered in the above-entitled cause in the Superior Court of Pitt County, dated August 3, 1942, the undersigned commissioner will, on the 14th day of September, 1942 at 12 o'clock noon, at the door of the Court House of Pitt County, in Greenville, North Carolina, sell at public auction to the highest bidder for cash, subject to the confirmation of the court, the property hereinafter described, located in the County of Pitt, State of North Carolina, and more particularly described as follows:

Being the lot described in that lease recorded in Book R 19 at page 268 in the Town of Farmville, being the same lot leased by J. W. Hardy to Sinclair Refining Company in the Town of Farmville.

Dated this 10th day of August, 1942.

ROBERT BOOTH,  
Commissioner.

**HERE'S HOW YOU CAN HELP**

**BUYING U. S. DEFENSE BONDS**

you help provide funds to finance America's preparedness program. You enlist in the vast growing army of men and women who are determined to defeat all who seek to destroy our way of life. The Bank of Farmville is cooperating with the government — without profit or remuneration—in making these bonds available. Stamps are available for accumulating smaller sums. See table at right for denominations of both stamps and bonds.

Denominations	BONDS (SERIES E)	
	Issue Price	Maturity Value*
\$ .10	\$ 15.75	\$ 25.00
.25	37.50	50.00
.50	75.00	100.00
1.00	150.00	200.00
