

### Set Date For Salvage Drive

#### County-wide Scrap Campaign Starts On September 12

The Pitt county salvage campaign will get under way on Saturday, September 12 and continue for the duration, June H. Rose, assistant state director of civilian defense, stated at a recent meeting of a steering committee.

"Every ton of iron and steel scrap salvaged saves two tons of iron ore, one of our most valuable resources for helping to win the war," he stated. In its great war production effort the steel industry of America this year will consume about three times as much scrap iron and steel as it needed in 1938. Every piece of metal or rubber will help to win the war. Community scrap piles will be established at convenient places here and elsewhere in the county.

"We urge the people to bring in their scrap. If they have a large quantity they should notify the Salvage Committee and it will be collected. Money derived from sale of scrap will be used to buy medical supplies for Red Cross first aid stations.

"Those who have a large quantity of scrap metal or rubber are urged to sell it to a junk dealer. The main idea is to turn in scrap metal and rubber. Bring it in, send it in or call on the Salvage Committee and the scrap will be sent for and used in making war supplies," Rose stated.

Miss Lelia Higgs is chairman of the County Salvage Committee; Don H. Conley is vice chairman; sectional chairmen are F. F. Hendrix, metals; W. L. Allen, rubber, and John G. Fleming, fats and grease; William McDonald is spotter for locating scrap materials; John G. Clark is transportation, and S. B. Underwood, Jr., is publicity chairman; V. M. Forrest is secretary-treasurer; Miss Verona Lee Joyner is chairman of the women's division, and H. D. Dupree represents the Negro citizens.

Community chairmen are: H. L. Hart, Arthur; Dixie Cannon, Ayden; J. T. Lewis, Belvoir; Mayor Lewis Ayres is to appoint a chairman for Bethel; Norman Lewis, Chicod; Woodrow Wooten, Falkland; John B. Lewis, Farmville; E. F. Johnson, Fountain; W. W. (Bill) Lee, Greenville; Richard A. Nelson, Grifton; Mayor A. F. Fleming is to appoint a chairman for Grimesland; T. M. Grimes, Pactolus; W. C. Latham, Stokes and Woodrow Worthington, Winterville.

W. W. Lee is chairman of the Greenville Salvage Committee; Miss Hennie Long is chairman of the woman's division.

Dr. J. A. Battle, Principal W. H. Davenport and Miss Iva Donnell comprise the Negro Steering Committee for Greenville.

"Your worn-out electric toaster or vacuum cleaner may contain the steel that will sink a German submarine, or stop a Japanese bullet aimed at an American aviator. Send your scrap metal and rubber to the community scrap piles. If you have a large quantity of scrap metal sell it to a junk dealer, but do it now—the government needs metal and rubber for war purposes," said Bill Lee, chairman of the Greenville Salvage Committee.

#### Ample Grazing Speeds Nation's Food Effort

Providing ample fall, winter, and spring grazing for livestock and poultry is one of the principal steps in speeding up the Nation's wartime drive for more food products, says F. H. Smith, agronomist of the Agricultural Experiment Station at N. C. State College.

Young tender forage plants, he explained, make an ideal supplement for the regular dry feeding of this time of the year. The forage provides an appetizing succulent feed, rich in high quality proteins, vitamins, and minerals.

The exercise afforded and the exposure to sunshine while grazing further helps the values of the green feed and aids in keeping the animals and birds in thrifty condition. Milk and eggs are improved in quality and increased quantity when cows and hens have good grazing.

Smith explained that it is economical to provide grazing for livestock and poultry because they harvest this high quality feed themselves. This means a saving in labor to the farmer. Other savings are secured by more efficient use of the regular ration.

For example, the agronomist stated, swine require less grain and high quality protein when on pasture, and hens produce eggs five to ten percent cheaper when they have ample grazing.

Crops suitable for fall, winter, and spring grazing are oats, barley, Alsike, vetch, Italian ryegrass, crimson clover, hairy vetch, and rape. The crop chosen should be one known to do well under local conditions.

County agents will aid growers in selecting such crops and advise them as to proper cultivation and fertilization practices.

### A WEEK OF THE WAR

(Continued from page 1)

books for motorists in 14 designated occupations and S books for operators of commercial vehicles. New Books will be issued for the amount the operator is fairly entitled to, if present coupons are found in excess, and deliberate violations of regulations will be prosecuted, the office said. The OPA announced 35,500 new passenger cars will be made available for rationing in September, compared with 13,250 in August, but all unused quotas were recalled and no carryovers will be permitted in the future. The quota of 90,000 bicycles for September is the same as for August.

All rented standard model typewriters manufactured since January 1, 1935, were ordered returned to rental agencies by September 15 to make them available for purchase and use by the armed forces and Government Departments. Persons eligible to purchase machines under existing OPA regulations are not affected.

#### Transportation

The Office of Defense Transportation issued an order effective immediately, governing the operations of at least 50,000 automobiles used as taxicabs. The order: (1) banned use of taxicabs for "social or recreational purpose of the driver or operators;" (2) established a national taxicab speed limit of 40 miles per hour "or any speed above that prescribed by competent public authority;" (3) prohibited use of taxis for making "commercial deliveries of property;" (4) limited to 10 miles the distance a taxi may be operated beyond the corporate limits of the municipality in which the trip originates; (5) banned seeking cab passengers by "cruising;" (6) limited to 25 miles the distance which may be traveled on any one trip; (7) prohibited vehicles not marked distinctly as taxicabs from being operated as such.

#### The Armed Forces

The War Department raised from 45 to 50 the maximum age at which men "who have character, skills or aptitudes which make their enlistment desirable and who are otherwise qualified" and who have draft board permission may enlist in the army. They will be assigned to overhead units or installations where they will release younger men for general military service, and if fit, they will be used for combat duty, War Secretary Stimson said.

Marine Corps enlistees, as well as Navy enlistees, may now apply for flight training to become Naval Aviation Glider Pilots, who act as co-pilots for large transport gliders. During the week, the 45,000-ton Battleship Iowa—heaviest vessel ever launched in the U. S.—the aircraft carrier, Independence, the Cruiser Boston, and two Destroyers, the Glennon and Jeffers, were launched.

The Red Cross and the Navy jointly announced a new rescue project under which buoyant waterproof bags containing emergency food, water and medical supplies, cigarettes, etc., will be dropped by Navy Patrol Blimps to Seamen awaiting rescue, before they are actually picked up by rescue vessels.

#### Strategic Materials

War Production Chairman Nelson said 2,000,000 cars from automobile graveyards have been converted into 400,000 tons of steel scrap a month during the last 4 months, but the steel industry is now consuming approximately 4,800,000 tons of scrap metal a month, about 4 times as much as it took in 1938. The office of the Petroleum Coordinator reported New Englanders and other East Coast consumers will obtain only 75 percent of their fuel oil requirements under normal weather conditions this winter.

#### LARGEST

The 1941-42 wool production in Australia was the largest ever recorded, the heavy clip resulting from the sharp increase in the number of sheep shorn due to the decline in meat exports.

NORTH CAROLINA—Pitt County, In The Superior Court

TOWN OF FARMVILLE

— VS —

TOM VINES AND WIFE, HATTIE VINES, EVA VINES CARR AND HUSBAND, PRESTON CARR, COUNTY OF PITT

The defendant, Preston Carr, will take notice that an action entitled as above has been commenced in the Superior Court, Pitt County, North Carolina to foreclose a delinquent tax lien against property owned by the defendants; and the said defendant will further take notice that he is required to appear at the office of the Clerk of Superior Court of said County in the Courthouse at Greenville, North Carolina, within thirty (30) days after the 7th day of August, 1942, and answer or demur to the complaint in said action, or the plaintiff will apply to the court for the relief demanded in said complaint.

This the 5th day of August, 1942. J. W. HARRINGTON, Clerk of Superior Court of Pitt County, North Carolina.

When women are required to pay alimony as men are sex equality will have become a fact.

### STATE COLLEGE ANSWERS TIMELY FARM QUESTIONS

QUESTION: Have prospects for more nitrate fertilizer improved recently?

ANSWER: Apparently not. It is estimated now that farmers will be able to get only four-fifths as much nitrogen in 1943 as they received this year. For this reason, agricultural leaders are asking farm people to seed their wheat and other fall grains without nitrogen fertilizer, so as to stretch the remaining supply to meet the needs of crops more dependent on this element. Fruits and vegetables, as well as certain other crops, should get first call.

QUESTION: Should Victory gardeners attempt to save seed?

ANSWER: Since the production of high grade vegetable seed, relatively free from disease, is really one of the most highly specialized phases of agriculture, the home gardener might be wise to buy all of his seed from dealers. Those who do save seed from their garden are likely to have mixed varieties and not too good a quality in their 1943 gardens if they are not very careful.

QUESTION: When should kudzu be moved for hay?

ANSWER: This is one plant that cannot be mowed anytime the sun shines. If kudzu is mowed in August or September, it makes new growth before frost. This new growth takes the starchy material out of the roots. Then, when cold weather comes along the plants are exhausted and often die out. Well-established stands may provide two cuttings of hay a year, if the first cutting is made in June or July and the second just before frost. Experiments have proved this to be true.

When women are required to pay alimony as men are sex equality will have become a fact.

#### NOTICE OF SALE

STATE OF NORTH CAROLINA, COUNTY OF PITT

IN THE SUPERIOR COURT

County of Pitt, Plaintiff,

— vs —

J. R. Lewis and wife, of J. R. Lewis, S. T. Lewis and wife, Effie Lewis, J. T. Lewis and wife of J. T. Lewis, B. M. Lewis and wife, Cora Lewis.

Under and by virtue of the judgment made and entered in the above-entitled cause in the Superior Court of Pitt County, dated August 3, 1942, the undersigned commissioner will, on the 14th day of September, 1942, at 12 o'clock noon, at the door of the Court House of Pitt County, in Greenville, North Carolina, sell at public auction to the highest bidder for cash, subject to the confirmation of the court, the property hereinafter described, located in the County of Pitt, State of North Carolina, and more particularly described as follows:

Being one Contained Lot in Farmville Township, more particularly described in Book J-13 at page 165 of the Pitt County Public Registry.

Dated this 5th day of August, 1942.

ROBERT BOOTH, Commissioner.
