What You Buy With WAR BONDS

The 155-millimeter gun is the modern version of the old "GFP" of World War I days. It has a range fifty percent greater than the old gun, having a 98-pound projectile approximately 15 miles. It is capable of high speed and each one costs \$50,000.

Arsenals of America are working at terrific speed turning out this long range, effective weapon for our armed forces. You and your neighbor working hand-in-hand in unity can make possible the purchase of an adequate number of these guns by buying War Bonds. Put 10 percent of your income in War Bonds to help reach your county quota, every day.

The long used statement that a good man can't be elected to office should be kept current. It is such a comfort to the defeated candidate.

BIRD NOTES

Julian Boyce read an article about the Chimney Swift at the regular meeting of the Bird Club Saturday morning. Julian found that when the first settlers came to America, among other interesting and new things they discovered was a small greenish black bird with slender wings and with feet so poorly developed that it very seldom attempted to alight. This bird was in the habit of building its nest in tall hollow trees but it was wise enough to profit by the coming of the white man, and, attracted by the warmth of the chimneys, began to build its nest in them.

The Swift found that its nest would be secure there from owls and snakes and other marauders. The nest of the Chimney Swift is stuck to the inside wall of the chimney with a sticky gelatin-like saliva, to which the sticks, it brings in its feet, adheres. In Southeastern Asia and the East Indies these birds' nests are made entirely of the glue and the natives collect them and make them into a soup, which is considered very fine and commands a higher price than almost any other article of food.

No one should be allowed to kill the Chimney Swift for he feeds entirely on insects such as mosquitoes, gnats, flies and ants and he catches most of them near the house, where they do the greatest harm.

Some get their black eyes from their ancestors and some from their adversities.

Special Program At the Christian Church, Sunday

A very special service is to be held at the Christian Church next Sunday morning at eleven o'clock in remembrance of OUR BOYS in the Service of our Country. We are having special prayers for them, our Country and those left behind.

The American Legion and Spanish-American Veterans are to attend in a body. On one side of the pulpit will be the American Flag and on the other the Cross of Christ.

A letter from Brigadier General A. H. Turnage of the Marine Corps of the New River base has been received in which he promises to be with us for the occasion, unless called away by some emergency.

The program will feature, songs appropriate for the occasion by the audience and a solo, "I Am Praying For You" by Mrs. C. S. Eagles.

General Turnage will tell us how as parents and as a church we may help our boys in the service.

Special prayers for our boys by Charles F. Beaman, and the pastor. Also a roll call of all our boys in the service. We hope to have all parents and next kin with us. And the public is invited to attend and join us in prayers for our boys.

Rev. C. B. Mashburn, Pastor. His old tire blew out and he couldn't get about. He bought himself a shay and used it only one day, when a wheel tumbled down and stranded him eight miles from town.
