

Let Everybody Know You're Investing 10 Percent of Your Income in War Bonds

The attractive red, white and blue window sticker, pictured above, is the new yardstick of patriotism in the War Bond drive throughout the nation.

WALSTONBURG NEWS

Mr. and Mrs. J. T. Beard of Raleigh visited Mr. and Mrs. Ray West, Thursday.

Miss Dorothy Gardner of Snow Hill spent the week end with her parents, Mr. and Mrs. J. C. Gardner.

Pvt. Allen Thacker of Fort Bragg spent the week end with friends here.

Mrs. E. F. Brooks left Thursday for Sioux Falls, South Dakota, where she will spend some time with her husband who is in radio school there.

Mr. and Mrs. J. C. Gardner, Mrs. G. W. Bailey and Mrs. B. L. Davis and little son, Bobby, were Rocky Mount visitors Wednesday.

Mrs. A. D. McLawhorn and Mrs. Julian Worthington of Winterville spent Thursday with Mrs. G. W. Corbett.

Mrs. Charles H. Floyd of Roper returned to her home Sunday after spending last week here with her mother, Mrs. H. C. Burch.

DOGWOOD

Farm woodland owners who have commercial size dogwood trees in their timber stands suitable for shuttle blocks can help prevent bottlenecks in the textile industry by selling the dogwood timber now.

WHEAT

The 1943 national acreage allotment for wheat under the AAA program is 55,000,000 acres, according to a recent announcement from the U. S. Department of Agriculture.

BRISTLES

Revival of interest in American hog bristles for use in brushes is reported, since manufacturers are no longer able to secure the imported bristles.

NEW

Granville will and black shank of tobacco are being grown in new locations throughout Pitt County this year, reports E. A. Weeks, assistant county agent.

A WEEK OF THE WAR

(Continued from page 1)

Bay Area. Australians were mopping up the remnants of Japanese forces in this area. U. S. Army Air Forces in China, continuing their offensive, scored a direct hit on Japanese Military Headquarters in Nanchang, sank at least seven Steamers, blasted a Railway Station and Warehouse and strafed a troop train.

Two Navy Vessels, the Destroyer Blue and the Auxiliary transport Colhoun, have been lost in action in the South Pacific in the past two weeks, the Navy announced. There were few casualties. The Navy also announced the sinking of nine more United Nations merchant vessels by enemy submarines in the Atlantic.

War Aims and Foreign Relations

President Roosevelt, in an address broadcast to an International student assembly in Washington and short-waved to other parts of the world, stated the war is "going to be long and hard and bitter (but) this time we shall know how to make full use of 'Victory' to build a better world.

He said the Government will see to it that men returning from the fronts can resume their interrupted careers and education and that work is provided for those willing and able to work.

Reciprocal Lend-Lease aid to the U. S. already covers a range as wide as the requirements and geography of a Global War, and is being provided to this Country on the same basis as we are providing Lend-Lease help to other Countries, the Office of War Information reported. Such aid is being provided without dollar payment under the terms of master agreements with Countries receiving U. S. Lend-Lease help. Reciprocal Lend-Lease aid "for American forces abroad . . . ranges from squadrons of spitfires to new fan belts for army trucks—from building airdromes and Naval bases to "D" ration chocolate bars and bananas at the soldiers, mess—from convoy protection for U. S. troopships arriving in British waters to filling the gas tanks of U. S. ferry planes at airports newly laid out in jungles or deserts," the OWI said. The President announced a special U. S. technical mission will leave for Brazil soon to assist the Brazilian Government in expansion of its war machine.

Army and Selective Service

Assistant Secretary of War McCloy said that between February 1 and August 30 U. S. Army planes destroyed 234 Japanese planes in the air, compared with American losses of 109. This record, together with the "flying tigers," record of 213 Japanese planes destroyed as against losses of 84, is due mainly to the performance of the P-40 fighters, he said. The Army said it has developed a system of technical inspection and maintenance supervision of aircraft that is undoubtedly the finest in the world.

The War Department sent 36,000 dependents, allowance checks, totaling \$4,500,000 to relatives and dependents of enlisted men in the four lower grades of the Service. Selective Service Headquarters instructed State SS boards to place their calls so that most men right now will come from local boards with the most single men or men with dependents other than wives and children.

Navy and Shipbuilding

Navy Secretary Knox said the submarine Menece "is not by any means solved," but there has been a "steady diminution of ships sunk off our own shores." A shipbuilding compilation for Labor Day showed 174 launchings and 49 keel layings during the day for many kinds and sizes of combat and cargo ships. The Maritime Commission reported 68 vessels were put into service in August and there is "every indication" the goal of three completed ships a day will be reached in September.

Peanut Oil Becomes U. S. Weapon

About five million acres of peanuts are being produced in any single year here. That's one of the contributions U. S. farmers are making this year toward keeping the Nation at the maximum fighting power. Most of these peanuts will go into oil—oil from which thousands of necessary items for both civilian and military production can be made. This essential and hundreds of others are being made and improving these crops is a great war effort.

What You Buy With WAR BONDS

Our army spells and pronounces it ponton, not "pontoon," as you do. Ponton bridges cost all the way from \$15,000 to \$700,000. The smaller bridge using individual metal pontons is pictured here. The largest ponton bridge is 1,980 feet long and is made of rubber instead of aluminum.

One small bridge has a weight capacity of 25 tons, using about 2,000 individual metal pontons. The smallest is used only to take troops over smaller streams. But whether our army uses the smaller or largest ponton, our engineers need plenty of them. If you and every American invests at least 10 per cent of income in War Bonds every pay day we can supply our fighting forces with these essentials to a victorious war.

reached in September.

Rationing

The War Production Board released 50,000 of the refrigerators which have been frozen in the hands of dealers and distributors since February 14 for sale to the general public after finding that they were not needed for "essential" purposes. Another 50,000 will be released by authorization of WPB food requirements committee recommended to the Board the following meat conservation program—(1) Limitation of the amounts of meat packers may sell to the civilian trade so that each civilian will be able to buy 2 1/2 pounds a week; (2) direct consumer rationing to be started as soon as possible—in about four months; (3) an interim voluntary conservation program.

Purchase of War Bonds

The Treasury Department announced sales of War Bonds in August totaled \$697,255,000 in bonds through the ten percent payroll savings plan, compared with 18,000,000 persons and \$200,000,000 in July. Treasury Secretary Morgenthau announced State War Bond quotas for September, totaling \$775,000,000 for the Country.

Taxation and Profits

The Treasury Department recommended to Congress a reduction in individual income tax exemptions to \$500 for each dependent. The Treasury also proposed a ten percent tax on consumer spending and high penalty rates for luxury spending. At the request of Congress, the Treasury outlined a sales tax levied against the retailer who would pass it on to the consumer. War expenditures in August were \$4,900 million, more than three times greater than the amount spent for National Defense a year ago. Income payments to individuals in July were 21 percent more than July 1941 and were at the record annual rate of \$114 billion a year, the Commerce Department said.
