A refreshing drink, assorted cakes and nuts were served after adjournment.

CHRISTIAN CHURCH NOTES

Rev. John H. Goff of Williamston, N. C., will hold a meeting at the Christian Church beginning October 5, and continuing through the 11th. Services will begin each evening at eight. They will be short and to the point. The public is invited to attend these services.

Rev. Goff is a Virginian by birth; North Carolinian by choice. He has held two pastorates in the states: New Bern and Williamston. Mr. Goff is an attractive speaker, with a friendly attitude, and mingles happily with young folks, having been on the Conference Faculty for Young Folks for the past ten years. He is liked by young and old.

First Sunday in October has been designated "World Wide Communion Sunday." All Protestant churches are asked to observe the day by seeking to have every member present at the Communion service. Our Chaplains are to observe it too. What a testimony to our faith in God and our Spiritual unity! What an opportunity to show the unbelieving world our ability to arise when the hour comes! What a means of strengthening our own moral being! Let every believer attend church on that Day and "Remember Him" by breaking the loaf and drinking of the Cup. This church will cooperate wholeheartedly in this worldwide Christian service. We hope to have every member present on October 4th.

BIRD NOTES

Charles Fitzgerald told members of the Bird Club what he had discovered in studying about the Towhee recently, at the weekly meeting of this group, held on Saturday. Charles described the bird as small in size and black, orange and white in color. He utters a peculiar cry of protest if molested by someone or something that sounds like w-r-rink. He found it to be an active bird, somewhat similar in size and appearance to the Baltimore Oriole, but distinctly a ground dweller with a characteristic habit of scratching in the leaves. He makes his nest by scratching a hole in the ground under a bush or in a thick tuft of grass and builds it so cleverly that it is almost impossible for a hunter to discover it.

As a songster, the Towhee has a charming success. Few birds have more musical notes, when he wishes to sing. It is surprising how many insects and grubs they eat, feeding as they do two or three times every minute. Thus Charles found them to be very valuable as a destroyer of insects.

You can never tell how a man will turn out. Some start off in a promising way and wind up in the legislature.

Motorists ought to know that trains run on the railroads. They can always see the tracks after the trains pass.

MERRY MATRONS

Continuing a fall program, which calls for a miscellaneous series of entertaining features, designed to bring variety to the meetings of the Merry Matrons, Mrs. R. O. Lang, leader for Tuesday, conducted a game of Hearts, which was enjoyed by players at four tables. Mrs. J. W. Parker made high score and was presented with lovely handkerchiefs as an award by Mrs. Lang.

The meeting was held in the home of Mrs. R. A. Fields, which was beautifully decorated with marigolds, lupins, zinnias and azarum. A delicious frozen salad, ham and biscuits, sandwiches, pickles and iced tea were served after the games. Special guests were Mrs. W. C. Holston and Mrs. Henry Johnson.

WEDNESDAY AFTERNOON CLUB

Members of the Wednesday Afternoon Club and special guests, Mrs. R. T. Williams, Mrs. Walter Jones, Mrs. Richard D. Harris, Mrs. C. S. Hotchkiss and Mrs. James Wheelers, Jr., enjoyed an afternoon of progressive contract this week at the home of Mrs. G. M. Holden, with Mrs. Ben L. Lang as hostess. Gladli and lilies were beautifully arranged in the home.

Mrs. James E. Lang and Mrs. E. T. Williams compiled high scores for members and guests and were presented with War Stamps.

A delicious frozen salad, sandwiches and iced tea were served after play.

NEW DEAL CLUB

Mrs. Jack Lewis was hostess at a delightful meeting of the New Deal Club this week at her home, in which fall flowers were used with pleasing effect.

Mrs. Henrietta M. Williamson won high score for members and was presented with cologne, and Mrs. Z. M. Whitehurst, high among guests, received sachets. Mrs. L. E. Walston and Mrs. W. Lealie Smith received War Stamps as consolation prizes.

A delectable salad course was served with coffee.

LAMRAD CLUB

Mrs. Irvin Morgan, Jr., delightfully entertained the Lamrad Club at her home, in which dahlias and roses, in shades of pink, were used with artistic effect. The high score awards of War Stamps went to Mrs. George Moore, Jr., a club member, and Mrs. Tommy S. Ryan, a guest.

A variety of sandwiches was served with Coca-Cola. Mrs. Frank K. Allen, Mrs. Tommy S. Ryan, Mrs. Herbert Allen and Mrs. James Monk, Jr., shared with members in pleasures of the afternoon.

What You Buy With WAR BONDS

The Army's fighter planes are the finest in the world and develop speeds up to 400 miles an hour. They cost approximately \$100,000 each, provide fighter escorts for the huge flying fortresses, and combine speed, range, altitude and blistering fire power.

America's plane production plants are working over-time turning out thousands of these fighter planes. War Savings Bonds will help pay for them and the American people are committed to at least ten percent of their income to finance their cost in War Bonds. Every American, buying his share every pay day, will make it comparatively easy to supply our army and navy air corps with these supreme Eagles of the air.

The forgotten man is now well remembered. The tax man calls upon him regularly.

COTTON

A United States cotton crop of 14,028,000 bales is forecast by the Crop Reporting Board, based on conditions as of September 1, which places the 1942 crop well ahead of that of 1941.

The way to deal with huck is to cooperate with it when it is on your side and to buck against it when it isn't.

For sale: Some perfectly good political platforms. The makers find that they have no further use for them.

Censor: One who permits only the truth to be published and very little of that.

What You Buy With WAR BONDS

The Aerial Camera for use on Scout and Observation and Reconnaissance planes is essential to both the Army and Navy air forces in planning battle formations and in obtaining information on enemy fortifications and movements. They look something like a cannon, and cost about \$3,400 apiece.

The aerial cameraman can plot wide territories in bold relief so that Army or Navy Intelligence can make accurate measurements of enemy territory. We need many of these cameras so necessary to the air arms of the Army and Navy. You can help buy them with your purchases of War Bonds. Invest at least ten percent of your income every pay day, and help your county go over its War Bond quota.

New Mileage

How to get new mileage into worn-out automobile tires is demonstrated to Miss Dorothy St. Lawrence of Providence, R. I. at the Firestone laboratories. The trick is simple; by merely applying an all-cotton protector to the inner tube and inserting both into the old tire, an additional mileage life of 4,000 to 5,000 miles is obtained. Not had in these days of rubber shortages.
