ROUND up your scrap metal-it's needed to make steel. Steel for at the mostl armor plate to protect him from bombs and bullets. Steel for weapons to help him do the job that must be done before he can come home again.

You don't wart production figures. It's enough to know that 50% of all new steel is made of scrap-that our steel mills now have only enough scrap in sight to last another 30 days What happens after that depends on all of us. If production falls and you've not done your part, will you rest easy?

Next week we're starting a collection drive - to build the biggest stockpile of scrap metal you've ever seen. Then when the mills need is, we'll have it—because you came through ... for his sake!

3

paper for details of the big scrap drive and what you must de tr
