If you cannot take your watch please arrange for a substitute.
Mrs. A. W. Bobbitt.

P. T. A. HOLDS OCTOBER MEET

The first meeting of the Farmville P. T. A. for the new school term was held in Perkins' Hall, Thursday afternoon at 3:30 o'clock, with the new President, Mrs. Ted L. Albritton, presiding.

The call to order was followed with a prayer by Miss Annie Perkins. Room roll call was conducted by Mrs. L. P. Thomas and Miss Margaret Lewis and was won by Miss Edna Robinson's fifth grade. Mr. Moore then introduced the new members of the faculty.

Mrs. R. S. Scott, Treasurer, reported a balance of \$1,794.66 on hand for the P. T. A. and \$243.88 in account No. 2.

The Secretary, Miss Motley, reporting for the executive committee, stated the following problems: the maintenance of the school lunch program in view of reduced W. P. A. funds for labor, and the P. T. A. Membership Drive, with Mrs. R. A. Parker, Chairman. Prizes are to be given to the winners in the elementary and high school departments.

The lunch room report was given by Mrs. LeRoy Rollins, who requested any helpful suggestion as to the solution of the major problem involved.

**'WAR AGAINST MRS. HADLEY'
COMING HERE SOON**

I would like to call to every man, woman, and child's minds that on next Thursday and Friday, at the Paramount Theatre in Farmville will be one of the greatest shows ever filmed.

If you enjoyed Mrs. Miniver . . . you must not miss the "War Against Mrs. Hadley." This story deals with the typical American family and is truly a great story.

Stella Hadley has been playing ostrich all of her adult life. This fact is recognized and tolerated by her two children, Patricia, played by Jean Rogers, and Theodore, in the person of Richard Ney, whose performance of the elder Miniver son was hailed by film critics and audiences.

Following December 7th, her way of life subtly becomes changed and the picture sets out to show how Mrs. Hadley's resistance against being drawn into the war is finally broken down by pivotal experience which at long last achieves emotional maturity for the lady who has been escaping "Unpleasantness" all her life.

The picture's humor, true characterizations, and lack of heavy propaganda speeches make it enjoyable. It is truly a family picture for the entire family.

I would also like to call your attention to the "World At War." These films are actual scenes confiscated from different governments after our entry into war. See the events that lead up to the present war . . . invasion of Poland . . . of France . . . and many other startling facts. This 40 minute film will leave you breathless . . . This film is sponsored by the United States Government . . . It is truly a film that every one must see.

I urge each and every one of you to see these truly great shows . . . I give you my word that you will enjoy these pictures coming to the Paramount Theatre, Thursday and Friday, November 5 and 6.
Wade Drake.

**FARMERS NOW SIGNING
1943 PRACTICE PLANS**

Farmers in every county of North Carolina now are being given an opportunity to sign farm practice plans for 1943, stating whether or not they intend to cooperate in the 1943 AAA farm program, according to G. T. Scott, chairman of the State AAA Committee, with headquarters at State College.

Weekly reports already received in the State AAA Office show that 29,495 of a possible 196,745 eligible farmers have signed practice plans for the coming year. Of this number, Scott said, 29,422 indicated their intention to take part in the 1943 AAA farm program, and 73 indicated they will not cooperate.

"Signing of these farm practice plans is not compulsory on the part of the farmer," Scott said. "By signing a practice plan, the farmer merely signifies his intention to cooperate in the program during the coming agricultural year, and allotments for special crops are determined for his farm and forwarded to him. The farmer also is informed of the maximum payments he can earn for carrying out approved production practices next year. Since this is the time for seeding winter legumes and spreading soil building materials, it is important that he sign his farm plan as soon as possible. Farmers who cooperate in the AAA program can obtain seed and materials, such as lime and superphosphate, on a grant-of-aid basis, and costs will be deducted from any payments due them under the Agricultural Conservation Program."

In an effort to conserve transportation facilities, the AAA officials said, most of the signing work this year is being carried on by contacting farmers when they are in contact with AAA offices or at meetings for other reasons. He emphasized that this signing concerns particularly cooperation in the 1943 AAA program.

ON EVALUATING COMMITTEE

J. H. Moore, Superintendent of the Farmville Schools, served with the State Evaluating Committee in Washington, on Tuesday and Wednesday, in evaluating the eligibility of the Washington High School for membership in the Southern Association of Colleges and Secondary Schools.

AT NEW RIVER

Pvt. Claude Tyson, who has been transferred recently from Paris Island, S. C., to the New River Marine Base, spent the week end with his family here.

If nature intends that human legs are all to be parallel she has made one slip ups in her architecture.

**Orthopedic Clinic
Greenville, Nov. 6**

We wish to remind our readers of the State Orthopedic Clinic to be held next Friday, November 6th in Greenville from 12:30 to 4:00 p. m.

This Clinic takes all types of cripples, both white and colored, free of charge who are unable to afford private treatments. It is desired, though not required, that patients be referred by a physician or the Welfare Officer, and that the patient bring such note to the Clinic.

The Clinic is set up to serve especially the Counties of Beaufort, Carteret, Pamlico, Pitt and Tyrell, though patients from other counties who desire to come may do so.

The Clinic is conducted by Dr. Hugh A. Thompson, orthopedist, of Raleigh, N. C. This Clinic has been running for something over five years and is now serving a large number of cripples, adults as well as children, in this area.

The Pitt County Health Department Offices are located at the corner of Third and Greene Streets.

BIRD CLUB

From an article regarding the Screech Owl, Betty Johnson told the members of the Bird Club Saturday, that this bird has a sad, wailing cry and is the best known of the Owl family. It is the only common small Owl with ear tufts and these are not really ears, so Betty said, just long feathers. The real ears are little holes in the side of the head under the feathers.

In the East, Screech Owls have two colors, brick-red and gray. Naturalists have often wondered about this, but they can find no explanation. In the West, all Screech Owls are gray.

When the first small birds wake it in the morning, the Owl hurries home to a dark hole in a large tree and will not emerge again even though someone pounds on the tree. Sometimes it nests in the safe hole it sleeps in.

There are usually four white, shiny, nearly round eggs, from which the young birds are hatched with white fuzzy down. Their eyes do not open until they are two weeks old. They eat moths, grasshoppers and mice and are very good to have around an orchard.

Screech Owls do not go South in Winter. They sit so still that they look like a dried bunch of leaves and so most people do not notice them; Leaflets on the Screech Owl were given to each member at this meeting.

**FARMVILLE TO JOIN
SCRAP HOLIDAY**

(Continued From Page One)

have been appointed to re-canvass the town on Wednesday afternoon and collect every piece of remaining scrap. Apple trucks have been pledged for collection of the scrap in the township and high school boys will be used to man each of these trucks in collecting scrap.

The meeting of the leaders in Farmville Tuesday night was a very fine meeting and they set as their goal the contacting of every farmer in Farmville community and the collection of every piece of scrap metal or rubber in the community.

RECORD

The production of fats and oils from domestic materials is expected to total 12,000,000,000 pounds in 1943, greatly exceeding all previous records.

INCOME

Net income, including Government payments, of farm operators in 1942 is now forecast at about \$9,785,000,000, an increase of 45 percent over the total for 1941.

The Army's current proposition offering 18 and 19-year-old youths their choice of service in any one of 13 branches is strictly an All-American proposition. Don't think for a minute all those boys now fighting for the Axis had their preferences.

THE HOME FRONT

(Continued from page 1)

area. Far too many people are trying to save fuel oil and coal by burning gas. We have no gas to spare, because we need it to keep war metal industries going, and to make synthetic rubber.

U. S. Steps Up Purchases.

Forecasting the increased needs of Allied soldiers for food and clothing throughout the coming winter, the Government stepped up its September purchases of agricultural commodities to \$115 millions, an increase of 38 per cent over August. During the past 18 months farm products amounting to \$1,750,000,000 have been purchased under the Lend-Lease program, and nearly two-thirds of these products have been delivered for shipment to Allied countries. The voluntary Share-the-Meat Program provides that children under six years of age may receive 3/4 pound of beef, pork, veal, lamb, or mutton every week—their elders 2 1/2 pounds. Operators of public eating houses should continue to serve normal portions of meat, but should of-

**Veterinarian Issues
Timely Animal Hints**

Don't forget that livestock need plenty of vitamins during damp, dark fall and winter weather. Vitamin A and D are all important. In livestock feed, Vitamin A is found only in yellow corn, green leafy legume hay, and succulent pasture. Don't feed soft or damaged corn to livestock.

Don't give farmers, to help them avoid fall livestock losses, have been issued by Dr. C. D. Grimmond, veterinarian of the Agricultural Experiment Station of N. C. State College.

The suggestions, based on a study of principal causes of fall losses among farm animals, include:

Don't allow fall pigs to be farrowed in old hog lots infested with worms and disease germs.

Don't keep stock in cold drafty buildings. Such an environment is favorable to the development of "flu" and pneumonia.

Don't bring new feeder animals onto the farm without a proper certificate of veterinary inspection; always isolate new stock from other animals for three weeks to prevent spread of possible disease.

Don't overcrowd poultry houses; it endangers flock health.

Don't take chances with hog cholera; have a veterinarian check the herd and vaccinate fall pigs as soon as they are weaned.

Don't turn horses and cattle into cornstalk fields without keeping watch on them; cornstalk disease is always a danger; greater care should be observed in this wartime year.

Don't let insanitary livestock quarters endanger profits; all stock barns should be cleaned and disinfected before cold weather.

Don't risk running the dairy herd through mastitis. If any cows show inflamed udders or abnormal milk,
