Braxton, of this city, is now stationed at Camp Phillips, Kansas. His address is Hg. Co., 3rd Bn., 301st Infantry, A. P. O. 94, U. S. Army. BIRD CLUB NOTES. Billie Russell read about pools, bird baths and bird nests at Saturday's meeting. Birds are clearly creatures. Water is a thing most of them must have. They will go long distances to cool themselves on hot dry days. Birds are not particular, for they will use a flower pot, saucer, or a garbage can top as happily as the finest formal type of decorative bird-bath on a pedestal. If a shallow pan for drinking and bathing is placed on the ground be sure it is far enough away from bushes and flowers so that stray cats will not be able to surprise the feather-soaked bathers. Properly built bird-houses, well placed, can increase bird life to a remarkable degree. In a small garden, sanctuary, or a park, where all dead wood has been removed. It is the only possible way of getting a Bluebird or Wren or other hole-nesting species to stay. Abundant food and water alone are not sufficient to hold them if they can find no place to raise their families. Therefore, Billie urges that every one have a bird bath and bird houses in their gardens. NOTE OF THANKS. I take this method of thanking the parents and children of Farmville for the way in which they handled the shooting of few fire works shot here during Christmas. In all we had a very nice quiet Christmas. L. T. Lucas, Chief Police.

CHRISTIAN CHURCH. Seasons come and go, rulers rise and fall, Empires are born and die, Time rolls on taking its toll of the perishes, but the unshakable remains. The one institution that has lived thru many centuries and seen change and decay all around is the CHURCH OF CHRIST. It lives and will live to bless mankind. It is light, merry and saving grace were never needed more than in this dark hour. Men and women have heavy loads, homes have empty chairs and many wives and sweet-hearts have empty hearts and arms. In this hour they need the comfort and strength that can come only from the Christian religion. Let us of the Faith resolve that we shall serve them in our LORD'S name more efficiently in 1943 than we have hitherto. For us to be of most service to our neighbors and country, we must maintain a close fellowship with God. This fellowship can be had thru the services of the church. Because it ministers in your name and in the name of Christ, the church appeals for your loyal support—physically, morally and financially this New Year. Here is a good text for the New Year: "Return unto me and I will return unto you, saith the Lord." We shall endeavor to maintain regular worship and Sunday School thru the year. Come and worship with us. C. E. Mashburn, Pastor.

State College Hints For Farm Homemakers. By Ruth Current, State Home Demonstration Agent, N. C. State College. Food takes the largest share of most incomes. The lower the income, the larger the share must be for food. If part of the food is raised at home, the food bill may be reduced greatly. Here are some suggestions for stretching the food money. Buy the least expensive foods that will give your family the best nutrition. Produce as much of your food supply as is practicable (vegetables, eggs, milk, fruits and meats). Can and store foods raised or bought when prices are low. Buy for current needs; do not hoard. Teach your family to eat all available food—food dislikes are not patriotic. Stop food wastes. Learn to cook vegetables to avoid loss of minerals and vitamins. Buy whole grain breads, flours, and cereals, or enriched white flour and bread. Prepare foods at home whenever possible; they are cheaper than ready-to-serve foods such as breads, cereals, desserts and soups. Expect fewer sizes of canned goods—more bulk goods. Give your family nourishing packed lunches; they cost less than meals in a restaurant. Spend as much for milk as for meat, and as much for fruits and vegetables as for meat. Plan meals carefully ahead of time. CHICKS. The output of chicks by commercial hatcheries continues high compared with other years, the November total 24,913,000 chicks being 10 percent greater than the same month last year. There's little profit in connecting oneself with a family tree. It's the tree of knowledge that counts. When we have to pay for our sins on the installment plan, it makes them expensive.
