Published weekly and entered as Second Class Mail Matter at the Post Office at Farmville, N. C., under Act of March 3rd, 1879.

Although American seamen are now able to receive mail from home at foreign ports, the service does not provide for registered, insured, or C.O.D. mail.

A cut in the amount of 35 mm. film that the motion picture industry may use in 1943 will save enough film to stretch three times about the earth at the equator.

The manager of a Pueblo, Colo., hotel cut down the metal heads of his bedsteads and sent 8,000 pounds of scrap brass and steel to the local salvage committee.

If everybody should tell everybody the whole truth about everything everyday, soon everybody would be shunning everybody and nobody would see anybody.

More than 2,300 fire department drivers, mechanics, and chiefs in 118 cities are pledged to strict tire care, gasoline saving, and systematic maintenance of motor equipment.

A woman can easily find a husband that is healthy. She can sometimes find one that is wealthy, but all the old rascals will step out and every one of them is a lout.

"I am not having any beans since you fitted my glasses. What is the cause and what should I do," wrote the girl to her eye specialist. "Try Life Buoy" replied the doctor.

That juvenile delinquency that is causing the whole country so much concern can be stopped by simply patting the kids on the back, just below the waistline and very hard.

Since no new steel dies, used in engraving stationery, cards, etc., are now available, the industry has been polishing and using both sides of old dies.

A doctor says dyschromotopia is an hereditary anomaly, is trichromatic and is incurable. One should exercise caution and not allow himself to become exposed to it.

Simple Susie says she's older than she used to be and she is thoroughly disillusioned, but she still has something to look forward to—reaching sixty-five and getting a pension.

A Civilian's Prayer

Help me, Almighty God, to be the only kind of hero I can ever be.

Help me see how important it is that I go gladly and energetically about the humdrum business of saving my tires and my fuel, of spending less and saving more, of eating less and working harder, of asking less and giving more.

Help me see that while the war may be won no matter what I do, the light we fight to keep alive may go out because of what I prove myself to be.

Help me to realize that Americans are fighting today, not to create freedom and opportunity for the ruthless and greedy, but to make it possible for kind men, men of integrity, responsible men, to work in peace, and to work for the common good.

Help me realize that these fighting men—indeed, the good men and women of the whole world—are waiting now for one small but all-important sign from me:

They know I can't join them in the blood and dirt. But they want to see if I will seek responsibility. They wait now to see if I need merely to be led to do my part, or if I must be driven. For that will tell them if their spirit is also my spirit, and their purpose mine.

Help me not to fail them. Amen.—Tims.

State College Hints For Farm Homemakers

By Ruth Current
State Home Demonstration Agent
N. C. State College.

Set up a kitchen office—maybe just a shelf. Include your favorite cook book, nutrition study material for daily review, scrap book of handy things for economy in housekeeping, a complete file of laundry and cleaning information.

Set up a food budget, list purchases, and check prices.

Ask your neighbor about her canning plans. If you do not can on the same day, you may keep an eye on her children or prepare her one-dish meals—she may do the same for you.

Don't let your tongue run loose. A kind word in time saves the nine or ten you use patching things up. Sit down hard on the stories that come to your ears—they probably aren't true anyway.

These are sins of omission—things you forget to do! Leaving your room an untidy mess; letting your good looks slip by rundown heels, straggly back hair and spotty clothes; forgetting to deliver messages, run errands, or carry out jobs entrusted to you.

BIRD CLUB

At the Bird Club meeting, Saturday, Charles Fitzgerald read an article by C. S. Brimley, of Raleigh, relating to the Goldfinch. This bird is a resident all over the State.

The male, in summer, is bright yellow and wears a crown of black. Wings and tail are black also but have white markings. The female is duller, yellow-brown above and yellowish beneath. At the fall moult the male loses his bright color and assumes the dress of the female, except for the presence of some yellow on the wing. In the spring, he changes again to his bright summer suit, but the female simply molts from one dull dress into another.

The Goldfinch is smaller than the English Sparrow but of the same build. They go in flocks for most of the year. In late summer these flocks are simply broods of half a dozen or more. Only a comparatively small number stay to summer with us. The nesting period is usually from late June to August, which is much later than most other small birds breed.

Each month brings them a tasty exciting change of fare, from the dandelion seeds of early spring, the grass seeds of early summer, and the garden flowers, such as ragged robins, corpeopsis, calliopsis, and especially sunflowers; the thistles of later summer, the zinnias and marigolds and cosmos, and the composites of fall, the goldenrods and asters.

The Goldfinches are beautiful birds and few birds seem to enjoy life more. They do a great service in keeping down weeds. They also eat many insects including cankerworms, plant life and beetles.

Of the two types of electric batteries used in devices to aid hearing, 56 varieties of "A" batteries have been reduced to two, and more than 175 varieties of "B" batteries have been reduced to four standard types by the War Production Board.

FINAL RITES HELD FOR AUSTIN HAMLIN

Austin Hamlin, 64, a well known and highly regarded colored Farmville citizen, died at his home here January 10, after several months of infirmity and ill health.

Funeral services were held from the home on Walnut street by Rev. Fred Davies, pastor of the First Baptist Church, of Wilson, and Rev. C. B. Mashburn, pastor of the Christian Church. Interment was made in the Rountree cemetery, Wilson.

Hamlin was born in Northampton County on September 2, 1878, and in 1904 was married to Miss Effie Mitchell, of Wilson.

Becoming a resident of Farmville in his early life, Hamlin, a high type colored man, industrious and of good business ability, conducted a blacksmith shop here for many years, which was an asset to the town, and built a nice home in the colored section. As the result of an accident he lost both limbs, cutting short his useful career, which was a distinct loss to the entire community.

He is survived by his widow, a daughter, Mrs. Mary Barnes, of New York, and a granddaughter, Thelma G. Hamlin.

NOTE OF THANKS

We wish to express to Farmville friends our appreciation for their many acts of kindness during the illness and death of our loved one, and especially to the Town of Farmville and Mr. Berry Taylor for their efforts in putting the street in condition for the funeral procession.

Mrs. Effie Hamlin and Family.
