**Invasion Is
Costly Lighting**

Your Boy Gives
100 per cent
How about your
bond buying?

The bathing season is now on but little else is.

If there's any surplus fat on a person a bicycle will bring it out.

Where's all that money we "saved" to support us in retirement?

Mary had a little lamb. She was willing to shear it but not share it.

The army is buying all the mules so can get and the mules are kicking.

The chisler is known by his shavings.

After we get Italy we will find that its old boot needs a shine.

The hobo, like dodo, seems to have become extinct.

The bluffer is shown up when he is brought to a showdown.

If Byrnes is assistant-President what is Cary Copkins' job?

If the politicians can't be licensed they ought to be labelled.

The marriage without romance is likely to be with finance.

A forbidding frown may stop many things but it can't start anything.

One may miss a gorgeous present by trying to pry into a dismal future.

The unflinching optimists are those who write advertising copy.

Nearly everything except card games seems to end at a reasonable hour.

Professional ethics are resigned to serve the personal interests of the professionals.

It's in the engineering blue-print room that you see the real producing brains at work.

**4-H Clubs Give
Army Ambulance**

North Carolina 4-H Club boys and girls celebrated Independence Day this year on July 3 by giving the U. S. Army a completely equipped ambulance for overseas service, says L. R. Harrill, State Club Leader for the Extension Service at N. C. State College.

The ambulance was presented to a representative of the Surgeon General's Office at ceremonies on Fayetteville Street in Raleigh and the Wake County 4-H Club Council made the formal presentation in behalf of all club members in North Carolina. The proceedings were broadcast over Radio Station WPTF.

On the same day, Miss Frances Banks, president of the North Carolina 4-H Club Council and a member from Pasquotank County, appeared on the National Farm and Home Hour program from Washington in presenting another 4-H ambulance to the Army. She represented the Southern States and was accompanied to Washington by Miss Celeste Spivy, home demonstration agent of the Extension Service in Pasquotank County.

Through a salvage program the North Carolina club members collected \$1,741.66 for the ambulance fund and came second in the honor roll among all the states in the U. S. The variety of ways in which this money was accumulated is a real tribute to the ingenuity and resourcefulness of the 4-H boys and girls.

AMERICAN HEROES
BY LEFF

Although wounded by a Jap's vicious hooked bayonet in hand-to-hand combat on Guadalcanal, Marine Pfc. Harold Panofsky of Brooklyn, N. Y., finally succeeded in putting his opponent down with his machete. Our boys are willing to spend their lives. How much more can you afford to lend by increasing your Payroll Savings allotment? Take a pencil and figure it out.

**Use More Grazing
Crops For Poultry**

North Carolina poultry growers must turn to soybeans, cowpeas, lespedeza, and the clovers as a source of protein, since the supply from animal sources has been greatly reduced because of the war, says R. S. Dearstyne, head of the Poultry Department at N. C. State College.

This means that growers must put their flocks on temporary pastures of legumes and make use of range shelters, which may be constructed from scrap materials found about the farm. A cow pasture provides an excellent range for pullets, since cows keep the grass well cropped, thus making available a constant supply of young, tender green blades. Commercial fishing has been curtailed and fish meals are not being imported from other countries, according to Dearstyne. Adequate supplies of bone meal, which supply the necessary phosphorus for poultry feeds, are also very small and cannot

be depended upon. An effort is being made to extract the fluorine from rock phosphate, so that this source of phosphorus can be used to meet the need of poultry growers.

Feed manufacturers are doing the best job possible in mixing feeds under the present wartime conditions. Dearstyne advises that poultry growers supplement these feeds with crops which are easily produced on the farm so that the chickens may be kept in just as healthy a condition as possible. Especially in the care of late hatched chickens this is particularly important because they are subject to a rather high rate of mortality.

"SLAP THE JAPS WITH SCRAP"

**HOME-CANNED BERRIES
TAKE LITTLE SUGAR**

Photo Courtesy Ball Bros. Co.

Home canned berries play leading roles in the pantry because they contribute vitamins and minerals for health, can be used in many ways, and are easy and inexpensive to can.

Blackberries, blueberries, boysenberries, raspberries, elderberries—can them all and others, too, with little or no sugar. Sugar gives them better flavor and more calories, but has nothing to do with keeping qualities.

Berries are too precious to waste and none will be wasted if you will see to it that every step taken is the right one. First of all, wash, rinse and examine your jars. Be sure to inspect the top edges of those to be sealed with glass top seal or two-piece vacuum seal closures because top seals refuse to work unless tops of the jars are perfect. Cover jars, glass lids, and zinc caps with luke-warm water, heat to boiling and keep hot until needed. Wash and rinse rubbers and vacuum seal lids and drop them in boiling water—they don't need boiling unless you plan to do old-fashioned open kettle canning—then they must be boiled a few minutes to sterilize.

Every berry must be fresh, sound, ripe, and firm. Wash them carefully and then take your choice of canning methods.

Gladys Kimbrough, Home Service Director of Ball Brothers Company, prefers to hot-pack berries. This is how it is done. Place berries in a wide, shallow pan; add one-half cup sugar or less, for each quart of berries; set the pan over low heat and simmer until the berries heat through and the sugar dissolves (remember you don't have to use any sugar); pour the hot berries into clean, hot jars and process five minutes in hot water-bath canner.

FOOD CROPS

India reduced her cotton acreage from 23,547,000 acres last year to 18,716,000 acres this year, with more acres in food crops.

It has been said that every man has his price, but some are so anxious to sell they mark themselves down.

**What You Buy With
WAR BONDS**

Down in the Solomons and on the African coast the Cyclops Boat or tank lighter played a most important role in landing our invasion armies. These self-propelled, light, fast boats haul tanks, artillery and other equipment from the big ships off-shore to the beach heads.

We need more and more of them, for they are essential to the successful operation of the war. They are made in several sizes from small fifty-footers, costing about \$2,400 to the big 500-tonners costing around \$37,000. Your purchase of War Bonds every payday will help pay for them.

U. S. Treasury Department

ALCOHOL

Scientists in the Agricultural Research Administration report that it is possible to produce industrial alcohol from wheat without the addition of malt.

EGGS

Hens laid 5,506,000,000 eggs in May in the U. S., which is 13 percent more than for the same month last year.

NOTICE TO CREDITORS

Having qualified as administratrix of the estate of Cecil W. Morris, deceased, late of Pitt County, North Carolina, this is to notify all persons having claims against the estate of the deceased to exhibit them to the undersigned at Farmville, N. C., on or before the 1st day of July, 1944, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This 24th day of June, 1943.

Gray Hair?
NEW VITAMIN
RESTORES
NATURAL COLOR

Free Booklet Tells Of Thrilling Discovery: New Hope For Millions

One of the most sensational scientific discoveries of modern times is an anti-gray hair vitamin that restores natural, natural color to gray hair in nature's own way. Scientific investigation has revealed that gray hair, in many cases, may be due to a vitamin deficiency. Scientists have also discovered the particular vitamin that is necessary to restore color to the hair in such cases. Reports of tests made indicate remarkable results. Not a dye—no a hair—no a drug—no a medicine! It is a valuable food supplement. If you are among the millions of people who feel themselves handicapped, in business or socially, because of gray hair, mail coupon below for your free booklet about this revolutionary vitamin discovery. There is no cost or obligation, so read today!

United Vitamin Products, 9 W. Washington St., Chicago, Ill., Dept. 100

ORDINANCE REGULATING TRASH ON STREETS

"Whereas many persons have persisted in placing weeds, rubbish and trash on the streets and in the curbs on Saturdays, holidays and Sundays; and whereas, it is impractical to move said weeds, rubbish and trash on days mentioned and it is necessary for it to stay over-night and another day before being removed;

And whereas such action constitutes a condition both unsightly and unsanitary; and whereas it is the desire of the Town Officials to keep the streets clean at all times;

Now Therefore Be It Ordained that it shall be unlawful for any person to place garbage, weeds, trash and rubbish on the streets, curb or sidewalk on Saturdays, Sundays or holidays.

Anyone violating this ordinance shall be punishable by a fine of \$5.00 and cost;

This ordinance to be in full force and effect from and after August 1, 1943"
