Invasion Is Costly Fighting

Your Boy Gives 100 per cent How about your bond buying?

So long as we can afford to throw away two-inch cigarette butts, we're not insolvent as individuals or as a nation.

The difference between what the owner thinks his house is worth and what a buyer is willing to pay is sometime colossal.

Since Hollywood has destroyed the meaning of the old superlatives, there's no word left to describe America's war effort.

You do not know these days what you are raising your boy for. He may turn out to be the governor's husband.

Lime and Legume Seed Are Again Available

The Agricultural Adjustment Agency will again allow North Carolina farmers to draw upon their 1941 allowance for conservation materials, it was announced here today by the State College Extension Service.

Where a farmer has used his maximum 1943 allowance, he may get lime or winter legume seed out of his 1944 allowance, up to an amount equal to that of his allowance on 1943, the announcement said. This, it was explained, is to allow the producer to obtain all conservation materials he needs to get his land in shape for the even greater production demands that will be made on it next year.

If a farmer has not used all the conservation materials his farm has earned, through performing AAA practices, for 1943, he can get the materials in the 1944 year up until December 31. The farm program year formerly ended on October 31. In addition, special crop payments, such as are made farmers for producing within their acreage allotments on wheat, cotton, tobacco and peanuts, also may be used to obtain conservation materials. This, said the announcement, should give the farmer a chance to greatly increase the use of lime and winter legumes during the next five months.

The Triple-A has ordered 1,214,000 pounds of Crimson Clover from Tennessee, and more than 8,000,000 pounds of hairy vetch from Oregon. Austrian Winter peas and Italian rye grass will be ordered within 10 days. Farmers should immediately place orders for seed and lime with County AAA Committees. County Committees have arranged for local dealers to handle the distribution of seed.

State College Hints For Farm Homemakers

By Ruth Current, N. C. State College.

Squash as a vegetable or as a pie filling, is a rich source of vitamin A, especially the yellow types. It also furnishes some vitamin B1 and C. Squashes are handsome vegetables but it's the flesh inside that counts. You'll find it is good whether you bake, or steam squash as a vegetable, or make it into a squash pie. Squash pie is made like pumpkin pie. You may like it.

Allow about an hour's time for baking winter squash. To get the squash ready, wash the outside and cut it into pieces about 3 inches square. Take off the seeds and strings. Then put the squash in a greased baking dish. Pour over some melted fat and sprinkle with salt and pepper. Cover and bake in a moderate oven until the squash is tender.

The Hubbard is the best known of the winter squashes. It is a big vegetable with a hard shell. The outside may be dark green, orange, or bluish gray. It keeps well in storage so you can have squash all through the winter.

The summer squashes are quick-cooking vegetables. You can steam them tender in about 15 minutes in a saucepan with not too much water. Season with salt, pepper, butter or margarine, or cream. Some people like the seeds in squash; others it is good, and other hard cooked eggs that has been prepared.

Molly Pitcher Tag Day, August 4

The modern Molly Pitcher will greet you throughout the nation on August 4th when brigades of Mollys will tag every buyer of War Bonds and Stamps. They will carry on the tradition of the Revolutionary War heroine who has gone down in history because she aided her fighters at the battle of Monmouth in 1778.

BIRD NOTES

At the Bird Club meeting on Saturday, James Thorne read a true story about a pair of robins, who came with a group of birds from the South and stopped in West Virginia to build a cozy nest in an apple tree that looked into a doctor's dining room.

The nest was finished and the four greenish-blue eggs were laid about Easter time. The leaves of the apple tree had already come out and they sheltered but did not hide the nest from those who were watching it from inside the house.

Then one night a surprise snow-storm came and covered everything with a blanket of white. The next morning's sunshine showed a strange sight . . . the edge of a nest and Mother Robin's back all covered with snow but she bravely sat still for the eggs must not get wet and cold. Father Robin sat with his feet on a snow covered branch nearby calling to her to "Cheer up, Cheer up."

Soon Father Robin's cheery word was not so much needed for the warm sun melted the snow and again the spring showed through and in due time there were four hungry mouths to feed.

When the birds began to settle up their affairs in Florida in preparation to leaving their winter homes, they had no money so they had to pay their debts in other ways. They ate an extra lot of worms from Mr. Jones' orange groves to pay him for the use of his trees. They sang extra long and sweetly to Mr. Brown, who had allowed them to bathe and drink freely in his pond all the season. They also sang for Mrs. Lester to pay her for her land rent . . . they had done a great deal of tramping and hunting on her grounds.

Make yards safe and attractive to birds and they will repay in full measure.

After the program apples were served.

MASONIC NEWS

There is great satisfaction and compensation in being the head of an organization which receives letters like the following one, sent recently to W. E. Joyner, Worshipful Master of Farmville Lodge No. 517, by C. K. Proctor, Superintendent of the Oxford Orphanage.

The letter reads: "We are in receipt of your fine letter and also its enclosures of check for \$106.00 and stamps in amount of \$2.00. We want you and the brethren there to know that this sort of loyalty and support has enabled Masonry during these years to take the lead in child care and it is that sort of thing that has built the Oxford Orphanage into a great institution. Your record through the years shows that Farmville Lodge has always been loyal and I want you to know your support this year greatly strengthens us for the task which has been committed to our care.

"Things are going well here at the home and I wish so much that you and brethren could walk in some day and see how this big family is getting along. "I congratulate you upon the fine work that is going on in your lodge and I wish I could be with you one of those nice occasions. I shall be glad to go down one Sunday when the weather gets cooler and take care of the speaking in that union service you have in mind. It has been a long time since I was in your community and I would love to be there and in person tell you and the brethren just how much you mean to us."

About the same date a letter of appreciation was received from the Masonic and Eastern Star Home in Greensboro, acknowledging check sent that institution by the local lodge, which further emphasizes the fact that Farmville Masons are supporting their institutions in a praiseworthy manner.

FOOD

The War Food Administration says that civilians will receive about 70 percent of the prospective supply of canned vegetables, including soups, and 53 percent of the canned fruits and juices in the next year.

LABOR

Extension's farm labor program is operating in over 2,800 counties in the United States. Nearly 500,000 placements were made in 2 months.

CORN

To help the feed situation, the Commodity Credit Corporation has recently purchased 6 million bushels of corn. Some of this corn will go to war industries.

EGGS

The War Food Administration says that civilians will get about 7 out of every 10 eggs produced during the coming year—about 3½ billion dozen eggs.

Nationwide Molly Pitcher Tag Day

Washington, D. C.—On August 4th, Molly Pitcher is stepping out of the pages of American history to sell War Bonds and Stamps. The gal who carried the blisters during the Revolutionary Battle of Monmouth and took over her husband's cannon when he was wounded, has long been a symbol of the heroism of American women.

In her honor, brigades of modern Molly Pitchers will take their stands on nation-wide Molly Pitcher Day at street corners, building entrances, and in public places to sell the bonds and stamps that back up our modern fighting men.

A red-white-and-blue Molly Pitcher Tag will be given to everyone who purchases a bond or stamp on that day. Members of the American Legion Auxiliary, and of the Independent Food Distributors Council unit of Molly Pitchers, will aid and augment local Women's War Savings Staffs to make up the volunteer sales force. They will use water pitchers to hold their supplies of tags and War Stamps. The slogan on the tags will read "Fill the Pitcher with Bonds and Stamps on Molly Pitcher Day" and the goal of the sales force will be to "tag" the total population.

ARGENTINE LEADERS

Soundphoto—From a balcony of the government house in Buenos Aires, Gen. Arturo Rawson, saluting, and Gen. Pedro Ramirez, foreground, greet enthusiastic population. They are the new leaders who took over after the successful one-day revolt in Argentina.

WHEAT

Wheat and wheat flour export programs, in operation since 1938, will not be renewed for the coming fiscal year because of shortages in the U. S., says the WFA.

HERE'S HOW YOU CAN HELP

— BY —
BUYING U. S. DEFENSE BONDS

you help provide funds to finance America's preparedness program. You enlist in the vast growing army of men and women who are determined to defeat all who seek to destroy our way of life. The Bank of Farmville is cooperating with the government — without profit or remuneration—in making these bonds available. Stamps are available for accumulating smaller sums. See table at right for denominations of both stamps and bonds.

Denominations	BONDS (SERIES B)	
	Issue Price	Maturity Value*
\$.10	\$ 10.00	\$ 10.00
.25	25.00	25.00
.50	50.00	50.00
1.00	100.00	100.00
5.00	500.00	500.00
10.00	1,000.00	1,000.00

*Mature in 10 years

FARMVILLE, N. C.

AMERICAN HEROES
BY LEFF

The Distinguished Service Cross has been awarded Staff Sgt. Doyle Ramsey of Farmville, Tenn., for showing a commendable courage and heroism in the line of duty during the first attack on Iwo Jima. When his ammunition was gone he ran from the scene of his tank to get more, and kept firing until the tank was disabled. He showed heroism beyond the call of duty. Future war for you would have much you can learn in War Savings beyond what you see today.
