THE SHANGRI-LA

The United States Navy, ins ed and abbetted by that lover of about to break a tradition. There are fairly strict rules for labeling ships of war; a battleship is called after a State, a heavy cruiser rates a big city, a light cruiser a small city, a destroyer honors some naval here or some ristinguished friend of the Navy, and a submarine takes the is at home in the water. Aircraft carriers enjoy more freedom, for they can be named after early fighting ships of our Navy or after battles Thus the Saratoga, the Bonhoms Richard, the Kearsarge. But until now no ship has been named after a imaginary place, the creation of a story teller's dream.

One is going to be so entitled. is, of course, the Shangri-La. In a moment of inspiration President Roosevelt told the reporters that the planes which bombed Tokyo took off from this never-never land of James Hilton's invention. Actually their starting point was the rolling deck of the Hornet, later lost in the Midway fight. So the new aircraft carrier, for which we are all being asked to buy an extra dollar's worth of war savings stamps this month, will like to have them. bestow a triple honor: on Mr. Milton's bold imaganation, on the lost Hornet and on the men who carried out what was probably the most spectacular air raid of history.

Subscriptions for the Shangri-La are now well past the half-way mark. We are promised that her planes will take part in another attack on Tokyo-exact date withheld for seasons of security. Those who haven't at once. We don't wish to keep Japanese waiting.—Editorial from The New York Times.

State College Hints For Farm Homemakers

By Ruth Current. N. C. State College.

It's a good idea to preserve some of your grapes for winter use. You can make them into flavorful grape juice, tart grape jelly, spicy grape butter, or rich grape jam. If you want directions for making any of these good things with grapes, write Mrs. Mary Lee McAllister, State College, Raleigh.

Grape juice and grape jelly are easy to make, but the canning experts say that there's sometimes a problem with the crystals that form in grape products. These crystals Prices Announced are perfectly harmless, but the gritty testure often mars the perfection Atlanta, Aug. 11 .-- A change in of your homemade grape juice or

THS COMMUNITY E

THIS COMMUNITY is on the spot! We are in a pulpwood growing section and there is now a pulpwood shortage. The country needs vast quantities of pulpwood for explosives, rayon parachutes, gas mask filters, shipping containers and a thousand other uses - yet some of the mills that make these things are actually shutting down for lack of wood.

This is a desperate situation a war emergency. Something must be done QUICKLY!

And only we who live in the pulpwood cutting areas can do anything about it.

This is OUR responsibility.

How the problem can be solved

Mr. Donald M. Nelson, Chairman of the War Production Board, gave the key to the solution in the following statement:

"If every one of the more than 3,800,000 farmers in the 27 palpured producing states were to devote 3 EXTEX days in 1943 to cutting pulpwood, we could accrease the threaty and 2,500,000 cord shortage with wood to spare."

Will you enlist for 3 extra days?

If you are now cutting pulpwood part time; if you have cut it in the past; or if you have never cut it but know how to use an exe and saw, will you pledge 3 mma days (at regular pay) to meet Mr. Nelson's challenge?

Fill in the coupon. Mail it to this newspaper and you will receive the pladge badge which identifies you as a Victory Pulpwood Cutter.

This is a wer emergency.

CHARMAN, NEWSPAPER PULPWOOD CAMPAICN THE CARMVILLE ENTERPRISE

I pledge mysalf to work at least 3 sures days during the balance of 1943 cutting pulpword. Please send me the campaign badge which this pledge entitles me to wear.
