Dance at Country Club Outstanding Social Event

The Country Club was the scene of a most enjoyable social event on Thursday evening of last week. From nine to twelve, when the young ladies of Farmville entertained at a dance in honor of the members of the Camp Butner Caravan, an excellent group of service men, who were hand picked on their merit to make the Caravan which toured Eastern Carolina last summer.

Coming over from Wilson where the Caravan was stationed for the night, the boys brought their own band, which includes representatives from such game bands as Paul Whiteman, Clyde McCoy, Cugat, etc. In addition to furnishing music for the dancing, which began with a grand march, they gave several specialty numbers. Miss Nellie Baker sang, "I Love You Truly."

The Club was beautifully decorated for the occasion with floor baskets of mixed gladioli, a United States Flag, fashioned of flowers, and bouquets of yellow lupines which graced the mantels.

Impromptu talks were heard from Captain Melvin Skinner, Commanding Officer for the Caravan, who acted as master of ceremonies. Captain Skinner also expressed sincere appreciation for the hospitality and friendliness extended them throughout the day and night, by the citizens of Farmville and surrounding community.

BIRD CLUB

At Saturday's Bird Club meeting, James Thorne read an article about two bird lovers, Dr. and Mrs. Eugene Swope. They left their own home in Cincinnati and went to Oyster Bay, New York, in 1924 to develop and operate the Roosevelt Bird Sanctuary. Dr. Swope had a deep admiration for Theodore Roosevelt who did so much to teach men, women and children to love and protect the wild birds and Dr. Swope as his wife were happy to occupy a position where they could carry on the advancing ideals of the bird Sanctuary idea created by Theodore Roosevelt.

It was a desolate patch of ground and had long been used for a dumping ground for the Oyster Bay community. Gradually with hard work and careful planning the appearance of the place began to change. For fifteen years they gave unstinted service and unflinching devotion to the building of an ideal sanctuary. Both are equally at home in the fields of botany and ornithology, being familiar with the habits and the common and scientific names of all the birds, shrubs, trees and flowers of the area. They stimulated interest for the living bird in the minds of innumerable thousands.

General visitors were never permitted to go unattended into the sanctuary. Dr. Swope said, "In a bird sanctuary, avian safety and peace of mind are infinitely more important than the gratification of human curiosity."

In 1935 Dr. Swope passed his stewardship to other hands and now he and Mrs. Swope live in a charming spot in Summerville, S. C., where they still give inspiration to the many who come to their door.

STATE COLLEGE HINTS FOR FARM HOMEMAKERS

By Ruth Current, N. C. State College.

In spite of the publicity given to War Bonds, there is still considerable misunderstanding about them. Here are some of the questions most frequently asked home agents and suggested answers to them:

1. What kind of government bonds should a farm family buy?
War Bonds are the safest investment ever offered farm people. Just like a \$10 bill, a War Bond is the promise to pay by the strongest government in the world, but unlike the \$10 bill, the War Bond pays interest and if lost or destroyed will be replaced.

2. "I bought a \$100 Liberty Bond back in 1918 and when I came to sell it, I got only \$88.50 for it. Will that happen to these 'W' Bonds?"
War Bonds are not subject to market price fluctuations. A Series E Bond may be redeemed at any time after 90 days from issue and the owner will always get at least as much as he paid for it.

Interest accrues to the bond by increase in the redemption value after the first year and at the end of each half-year period thereafter until the bond is redeemed or matured. In other words the bond "puts on weight" and it keeps until maturity will return \$4 for every \$3 invested.

The owner of a bond can redeem it with the United States Treasury but he cannot sell it to anyone else.

3. "Should I buy War Bonds or 'see debts'?"
Get debts into shape and then build up a financial reserve in War Bonds. Getting debts into shape, however, should not necessarily mean putting entirely out of debt. If all of any increased income available is paid on a mortgage, it will probably be necessary after the war to borrow again to replace and repair equipment and buildings at a time when it may not be so easy to borrow a mortgage as it was to reduce it.

When the war ends, a reasonably sized mortgage and a good reserve in War Bonds is a likely and better combination than no mortgage and no bonds.

What You Buy With WAR BONDS Holy Stone

Cleanliness is the first order of every American soldier and sailor and the United States Government spends millions upon millions of dollars to keep our fighting men as clean and as healthy as circumstances will permit.

"Swab the deck!" cries out a petty officer and the men fall to with their "holy stone" equipment, and in a short time everything is spick and clean.

Buy War Bonds and more War Bonds and you know that you are sharing in the effort that will free the world from war and domination.

TOMATOES
To get the most food value from them, tomatoes should be eaten raw from the vine, recommends Miss Mary E. Thomas, extension agent, State College.

It is most economical, convenient and delicious to use tomatoes there would be no wasteful storage.
