

Complete Gas Ration Coupon Instructions

Raleigh, Oct. 2.—Graphic instructions showing motorists how to endorse their gasoline ration coupons were released today by the Raleigh Office of Price Administration.

Motorists are advised that they must endorse every coupon in their ration books immediately. They are not to wait until they buy gas before endorsing their coupons.

Holders of A, B, C, D, or T books are to write their license number and State registration on face of all coupons.

Holders of E or R books write their name and address on the face of all coupons.

Holders of interchangeable book coupons for official or fleet vehicles write official or fleet designation and city and state of main office. If the commercial vehicle does not appear under a fleet designation, the number of the Certificate of War Necessity is to be written on the coupons. Endorsement of coupons has a two-fold purpose:

First, it protects consumers against use of their coupons by others in case of theft or loss.

Second, it enables the Government to locate criminals who have been trafficking in illegal gasoline. By checking back the ownership of gas coupons that had been handled by suspected gas stations, the Government can determine whether a station is operating legally or illegally.

FARM FIRES

Farm and rural fire losses totaled 200 million dollars in the U. S. last year, 60 percent of the nation's total loss. Preventing fires is definitely a part of the wartime battle on the home front.

THE MOST YOU CAN BUY IS THE LEAST YOU CAN DO

BANTAM IS BIG BROTHER TO SMALL WAR PLANTS

Something is really being done about war orders for small manufacturing plants. Through the work of the Smaller War Plants Corp., twenty-four factories in various parts of the country, most of them of smaller size and without previous war work, start production in August on the Army's cargo trailer shown in the photograph. A. W. Aspin, chief engineer of the American Bantam Car Company, who is seen inspecting it, is Chairman of Army Ordnance's Trailer Integration Committee with headquarters in Butler, Pa., whose job is to see to it that every trailer made by the 24 plants is identical with every other. Working with Army Ordnance officials, American Bantam engineers designed this trailer from all steel to part wood, which will save hundreds of tons of critical metal on present and future trailer orders.

What You Buy With WAR BONDS

Booby Trap Detector

In the snow, in the sand, on the beaches, on the roads, in the woods, everywhere the Axis soldiers hide "booby traps," to slow the movement of oncoming fighting men of the United Nations. The detector does the same work on land as the mine sweeper does at sea.

Like buying War Bonds, the soldier operating the detectors will never know just how much they have aided in the success of their campaign, but he knows his work is necessary and must be accomplished. If more Americans on the home front will come to realize this, the success of our War Bond campaigns will be assured.

PEACH BORERS

Peach tree borers can be controlled the first half of October with PDB crystals and any time during October with ethylene dichloride emulsion. Ask your county agent for details of the treatment.

POTATOES
The Irish potato crop is estimated to reach 360 million bushels, that is 73 million bushels larger than the 1942 late crop, USDA officials in Washington say.

PARAMOUNT THEATRE

FARMVILLE, N. C.
THE HOME OF BETTER ENTERTAINMENT!

Week of Oct. 8

FRIDAY—LAST TIME
Merle Oberon and Bruna Adnerne
Co-Starring in
"First Come Courage"
One that you won't want to miss.
News of the Day.
Wild Horses—Pete Smith
Specialty.
King Midas, Jr.—Cartoon.

SATURDAY
Hopalong Cassidy—in
"BAR 20"
Chapter No. 2 of
"SECRET SERVICE IN DARKEST AFRICA"
Carry Harry—Comedy.

SUNDAY-MONDAY
Fred MacMurray and Joan Crawford—in
"Above Suspicion"
A Startling Story—A Woman Scared to Love as her Heart instructed . . . Don't Miss It!
News of the Day.
Slay It With Flowers—Cartoon.
Seeing Hands—Pete Smith
Specialty.

TUESDAY
Ann Southern and James Craig—in
"SWING SHIFT MAISIE"
"Watch Out Hitler and Tojo—America's No. 1 Blonde Bombshell is a Defense Worker Now—You are Doomed."
Portrait of a Genius—Miniature.
Moose of Tomorrow—Cartoon.

WEDNESDAY
DOUBLE FEATURE DAY
Buster Crabbe as Billy the Kid—in
"WESTERN CYCLONE"
Don (Red) Barry—in
"WEST SIDE KID"
with Dorothy Evans and Henry Hull.
First Chapter of "SECRET CODE"

THURSDAY-FRIDAY
Richard Scott and Evelyn Keyes—in
"DESTROYER"
A Heroic Story of One of the Fighting Ships in the Navy of America.
News of the Day.
Juke Box Smoother—Cartoon.

"Cutting pulpwood is essential war work"

says Paul V. McNitt,
Chairman of the
War Manpower Commission

"PULPWOOD is an essential war material, used among other things for making rayon parachutes, shipping containers and smokeless powder. Its many wartime uses have created a shortage which is rapidly becoming acute. With these conditions in mind, the War Manpower Commission has recently classified pulpwood cutting and production of pulp as essential war occupations.

"May I urge every man engaged in this essential work, either part or full time, to give it the best he has in him. Let him remember he

is wielding his axe and saw in the same struggle and to the same end that other men are wielding bayonets and machine guns.

"I know that the men who work in the forests and pulp mills and the farmers who cut pulpwood from their woodlots are just as patriotic and loyal as any other group of Americans. Now that they realize the importance of their part in the war, I am sure they will respond with the extra hours, extra days and extra effort that is the only possible answer to this dangerous shortage."

We Use Both Unpeeled Pine and Hardwoods. For Information Regarding the Sale of Your Timber Lands in Fee or Stumpage or price F.O.B. Cars — Write:

WOOD AND LAND DEPARTMENT

NORTH CAROLINA PULP CO.—Plymouth, N. C.

Now is the time to cut or thin your timber while prices are high and pulpwood badly needed.

Cut wisely and the remaining trees will grow faster and bigger. Your forester or county agent will help you select trees for cutting.

Estimate how many cords you can cut. Then get in touch with our local dealer, or telephone, or write us for prices and specifications.

BONDS OVER AMERICA

Marking the spot where our Revolutionary forefathers fought the Battle of Princeton stands the Princeton Graduate School and the Cleveland Memorial Tower. The latter a memorial to President Grover Cleveland.

Battle of Princeton

Back the Attack With an Extra War Bond

Uncle Moses' De taters is er gittin' ripe. De 'possum he's er gittin' fat. De war is on but ah won't fare so bad at dat.

A woman wants a husband that has the courage of her convictions. We live by faith but a little more work added to it would help a lot.

Swift Fellowship Given To State

Research on supplemental feeding now being conducted at the Agricultural Experiment Station at State College may improve the gains made by hog fed raw soybeans, Dr. L. D. Baver, director of the station, reports.

Dr. A. O. Shaw, Earl H. Hostetler and Dr. Walter J. Peterson, members of the animal industry department, are using funds provided through a grant of fellowship in nutrition by Swift and Company to study ways to provide the essential food elements, cystine, to hogs fed on the beans.

Dr. Peterson, in charge of the research, says, "Cystine is one of the amino acids, containing sulphur, and is essential for the growth of the hog. It is combined in the raw soybean pigs glean in the fields but not in a digestible form. Unless the pigs get cystine from some supplementary feed it cannot make use of raw soybean protein and therefore cannot thrive."

The scientists have taken a number of pigs and fed them on a raw

soybean diet to which is added cystine in various forms produced in the laboratory to determine which is the most desirable.

By-products of meat packing seem to offer usable sources of this essential amino acid. Therefore, Swift and Company has offered one of its fellowships in nutrition to the Experiment Station as a help in trying to solve this problem of the North Carolina hog producer.

Materials now being tested to add cystine to the hog diet include hoof meal and hydrolyzed hog hair.

MORE FOOD.

With 1,500,000 fewer men and far less farm machinery and supplies, farmers are being asked to produce more food than ever before. Swapping machinery and hand labor offers the best solution to the problem.

EGGS

Egg production for August of 1943 was 9 percent above the same month last year, and the production for the first eight months of the year was 13 percent above a year ago.
