Raleigh Round-Up

By Eula Nixon Greenwood

KNOWS HIS TURNIPS—Although most of the North Carolina delegates to the Democratic National Convention were well on their way home when President Harry Truman made his blood-thunder-speech early last Thursday morning, many of them are now of the opinion that Harry certainly knows his turnips. July 26, when Congress meets, is "Turnip day in Missouri."

Consensus around Raleigh last week was that there is now some chance for the Democrats to get back into power. Before Truman's lambast of the Republicans, the Democrats felt mighty low. Now they are wondering if the big blows at the donkey will come from Dewey and Warren or from the deep South. Probably both.

GETTING READY—The Republicans mean business—even in North Carolina. On the eighth floor of the air-conditioned, beautifully finished Insurance Building in Raleigh last week electricians and carpenters were putting finishing touches on GOP headquarters. Rumors were flying that the Republicans had plenty of money from "on high" and that they were out to make a killing. It is also reported that they have financial help from sources which are not so distant.

CLOSED AND OPENED—The Scott-Governor offices in the Carolina Hotel here closed last week, but within a few hours after the key had been turned on them a Scott-Governor office was opened on the same floor and will remain in business until after the election in November.

CIVIL RIGHTS—North Carolina was the only Southern State which did not vote solidly against Harry S. Truman at the convention. Before, during, and following the convention you heard a lot of talk about civil rights, with the South kicking up its heels each time the issue was mentioned. Not since the Civil War has the South done such wholesale fussing over the race question—or any other question. Now that you have heard about that terrible, terrible plank in the Democratic platform, that plank which is causing the Democratic party to split at the seams. Have you ever read it? Here it is: "The Democratic Party is responsible for the great civil rights gains made in recent years in eliminating unfair and illegal discrimination based on race, creed or color."

The Democratic Party commits itself to continuing its efforts to eradicate all racial, religious and economic discriminations.

"We again state our belief that racial and religious minorities must have the right to live, the right to work, the right to vote, the full and equal protection of the laws, on a basis of equality with all citizens as guaranteed by the constitution.

"We highly commend President Harry Truman for his courageous stand on the issue of civil rights.

"We call upon the Congress to support our President in guaranteeing these basic and fundamental rights: (1) the right of full and equal political participation, (2) the right to equal opportunity of employment, (3) the right of security of person, (4) and the right of equal treatment in the service and defense of our nation."

Well, that's it.

Curves Do It

The Magazine Photographers Association picked movie star Virginia Mayo as "Miss Third Dimension." Reason for the award and title: "On account of those curves."

the next four months (a very definite possibility), Lt. Gov. L. Y. Ballentine will be responsible for the appointment of a man to succeed Blythe on the all-important Advisory Budget Commission. Visits and hearings by this group are scheduled to begin shortly in preparation for setting up a budget for submission to the Legislature.

AFTER HIM—Many of the same folks who wanted to retain Joe Blythe as National Committeeman, and succeeded, are out to keep Wilkins Horton in as Chairman of the State Democratic Executive Committee.

Although Kerr Scott sided with Blythe, giving good reasons for so doing, he is expected to stand solid on putting in Capus Wayne as chairman. And when Scott stands solid, there is nothing solder. The "boys" are after Wayne and are trying to get between him and Scott on this thing, which will be decided within a few weeks now, if not already.

Town Will Be Sprayed With DDT To Destroy Flies

Walter Jones, mayor pro-tem who is serving this week while Mayor J. W. Joyner is out of town, announces that a DDT-spraying campaign to eradicate flies and their breeding places was started Thursday and will be continued until the entire town has been covered. The spraying is a precaution against polio, which, it is believed by many medical men, is carried by flies.

First to be sprayed will be gutters and such places. Then a block-to-block campaign will be made, spraying screens and doors of individual residences.

The campaign will be welcomed by local citizens.

Pitt is one of the few counties in the state in which no polio has been reported.

D-Day in a Wheat Field

Billy Koelch, St. John, Kan., wheat farmer, hitched his combine to a war surplus landing barge when heavy rains made his fields too muddy for his regular tractor. Koelch's ingenuity saved his wheat crop, which yielded about 30 bushels to the acre. With ordinary equipment, he would have had to wait another week before he could harvest.

GREENE COUNTY FARMERS ON INSPECTION TOUR

Sixty Greene county farmers made a tour of farms in Ormondville township to see fields of black shank and wilt resistant varieties being grown.

The first stop was made at the farm of Raymond Murphy, where Oxford 26 tobacco was being grown. Mr. Murphy told the group how fields of tobacco on his farm had gone down with wilt and since he had been planting Oxford 26 he had been growing good quality tobacco averaging in 1947 more than 1200 pounds to the acre.

A field of No. 70 tobacco, which is resistant to Graymould wilt was visited. This tobacco was being grown by Alfred Bowen. A stop was made on the farm of Sam Worthington to see a field of Oxford 1 being grown where there was a total loss in 1947 from black shank. A tobacco variety demonstration including fifteen black shank resistant varieties was also observed on this farm. A field of Oxford 1 being grown by Robert Moore was observed where a loss from black shank occurred in 1947.

BOLL WEEVIL INFESTATION IN GREENE IS VERY LOW

A number of fields of cotton have been examined for boll weevil and infestation is low in all fields examined, reports J. W. Grant, farm agent for Greene county. Hot, dry weather has checked weevils in cotton and farmers are being urged to save dust until infestation gets to 10 per cent.

J. Ed Sugg, R-1, Snow Hill, has a small outbreak of Red Spider in one field. He used a boll weevil dust which has sulphur to control the spiders.

Oxford 1 tobacco being used for control of black shank is looking very good. Although seasons have not been favorable the Oxford 1 variety compared well with old varieties being planted.

A. C. Edwards is using the Oxford 1 tobacco and has a good crop. Sam Worthington, R-1, Ayden, is using Oxford 1 on a field that was destroyed 100 per cent in 1947 with black shank.

At The Kiwanis Club

John Council Parker "subbed" for Program Chairman David Harris at the Kiwanis club Monday night and served as master of ceremonies at a musical quiz, in which members were contestants, that delighted the group and gave such congeners as Jake Fields, Carl Hicks and Jack Lewis a chance to show their talents.

First contestant was Edgar Barrett, who recognized two of the three times played by John's wife, Cornelia, and accordingly was given two prizes. Then, Edgar was allowed to pick three others who were to compose a quartet. He selected Sam Bundy, George Allen and Rev. E. W. Holmes.

Sam Bundy's name was picked by lot for the next contestant. He got a couple of prizes also. The three he picked to sing with him were Carl Hicks, Jake Fields and Jim Hockaday. Bill Creekmur, next contestant, had Frank Allen, Sam Lewis and Ernest Pettaway singing with him. Jake Fields, the Walstonburg warbler, had Louis Williams and Jack Lewis for his threesome.

The program was thoroughly enjoyed by the club and appreciation was extended to Mrs. Parker for serving as accompanist.

Sam Lewis won the attendance prize.

Threat Of Polio Delays Opening Of New Scout Camp

Camp Charles, recently completed Boy Scout camp for the East Carolina council, located near Bailey, will not open the latter part of the month as had been planned. State health officers advised against the opening but have stated that if the polio outbreak does not become more severe it would be alright for single troops to spend the week and there.

Ed Nash Warren, local troopmaster, hopes that conditions will permit the local troop to camp there sometime this summer. The camp site includes 50 acres of land and a large lake.

Plan to Raise Funds for Band

Three dozen people, representing civic clubs, who showed by their very presence that they were interested in the formation of a band in Farmville high school, assembled in the town hall Monday night and discussed plans for having a band and means of supporting it.

Irvin Morgan, Jr., served as chairman and explained in detail why the group had been called together.

Three Tarboro men, who have recently been through what Farmville is about to undertake, told how they had raised funds. They, however, do not have to bother about uniforms, which have been held over by a previous band, and some of the heavy instruments. They stated that uniforms cost \$80 and that some of the heavy instruments cost about \$600.

Although it was not decided at the meeting Monday night how funds are to be raised, committees were named to study the ideas and come to some definite plans.
