Fountain School Given Superior Accredited Rating

The Division of Instructional Service, North Carolina State Department of Public Instruction, has announced that the Fountain Elementary School, in Pitt County, has been given the superior accredited rating. The Ayden Elementary School has also attained this rating for the 1952-53 school year.

These two schools are the first schools in the Pitt County System to ever attain the distinction of receiving the highest accreditation that the State Department of Public Instruction awards to elementary schools. The Educational Directory of North Carolina listed only 32 schools as having this rating last year.

The Division of Instructional Service accredits schools on the basis of achievements by the schools in the following six areas: (1) Instruction and Organization, (2) Administration, (3) Curriculum, (4) Instructional Equipment, (5) Buildings and Grounds, and (6) Professional Study Program.

The achieving of this high rating is the culmination of several years of work by the Fountain School officials and faculty. There have been many improvements in the Fountain School plant, library, lunchroom, supplementary books, and curriculum instituted and supported by the Fountain School officials and patrons. This progress, as evidenced by the superior rating, has given the Fountain community one of the best elementary schools in this section.

Farmville Defeats Snow Hill 26-6

Although outweighed, Farmville completely outlasted Snow Hill here last Friday night coming out on the long end of a 26-6 score.

After a scoreless first quarter, Charlie Fitzgerald midway the second quarter, threw to Tommy Norville for 3 yards and a touchdown. In the same period Teddy Allen scored on a hand-off from 30 yards out. During the third stanza Farmville took the kickoff and after three plays Teddy Allen went over standing up. Farmville scored its fourth touchdown as Teddy Allen took a lateral and scooted down the sidelines. Snow Hill became the first team to cross Farmville's goal as it scored on a substituted 60-yard march late in the third quarter.

Farmville's win was a team victory. Improved tackling and downfield blocking were a direct result.

Farmville Preparing For Morehead City

Farmville High School has been busy this week in preparing for Morehead City. This promises to be a real rough ball game. Morehead City boasts of a heavy and aggressive team. Kemp Wicker, 190 lb. halfback for Morehead City has been building his way through most of the opposition. Greenville downed Morehead City 7-0. This promises to be a real test for the "Red Devils."

Farmville came out of their last week scrap with Snow Hill in good physical condition with the exception of a few minor bruises. There may be a few changes in the lineup if the two injured boys fall to come around by game time. Most of the week has been spent in looking over Morehead plays and setting a defense to stop them.

The "Red Devils" went through a rough hour long scrimmage Tuesday night and a blocking scrimmage Wednesday night. Pass protection and pass plays received a going over with kick offs and timing of plays taking place the last part of the session. The line has been very aggressive in preparing for Morehead City in avenging last year's defeat suffered at the hands of Morehead.

Large Attendance Hears Miss Steele Give Bible Study

Approximately 125 were in attendance at the Intensive Bible Study taught by Miss Lucy Steele at the Presbyterian Church, Monday. The Bible study is an annual part of the women's work of the local churches. Miss Steele, a learned and able speaker, is teacher of Bible at Peace College, Raleigh. Her study was conducted with conviction, delivered in a dynamic and vibrant manner, and revealingly illustrated with everyday examples.

Central theme of the two-part study was "The Holy Spirit." In the morning session, Miss Steele in lecturing and referring to the scriptures with the reading in unison by the congregation, showed the Godhead as a unity in three, the Father, the Son and the Holy Spirit. She used her hand as an illustration of unity in diversity. She sought with eagerness to lead her hearers into the line of thought, proven by the Bible, that God is a person. She said that she realized that the Christian religion is a deep subject, but because of the need of it, the need of spiritual power for everyday living, those who profess to be Christians should never take the attitude that it is too sacred, too deep and too hard to grasp. For it is through intercession in prayer with God that they are sustained.

According to Miss Steele, a Christian's relationship to God can be summed up in three A's: Awareness of the Holy Spirit; Acceptance of the gift of the Holy Spirit; and Alertness to the Guidance of the Holy Spirit.

Scripture readings used in the morning session were: Genesis 1:1-2; Romans 8:28; Acts 10:18-20, 16:6-7; I Corinthians 12:14; II Corinthians 13:14.

The afternoon sessions dealt mainly with the relationship of the Christian and the Holy Spirit. How the Holy Spirit enables a Christian to know that God is his father and that because of the relationship he is able to do good works and to experience peace that passeth all understanding. Miss Steele asserted that when one accepts Baptism he receives the Holy Spirit by grace but he must ever seek to use his relationship with God if he acknowledges and confirms it.

Scripture readings in the afternoon were: Romans 8:16; Galatians 4:2-13; 1:13 and 15; Acts 11:15.

Prior to the study, special music was rendered by Mrs. B. R. Turnage, soloist, accompanied by Mrs. G. Alex Rouse, who also played the hymn accompaniments.

Mrs. E. C. Coates, Spiritual Growth chairman, introduced Miss Steele and welcomed the visiting women, who represented nearly all the churches of Farmville, and the Boyd Memorial, Falkland, Fountain and Ballard's Presbyterian Churches.

Ministers taking part in the program were Rev. E. S. Coates, of the church, Rev. W. D. Norton, pastor of the Boyd Memorial Church, Rev. Lee Williamson, pastor of Hollywood and Child Presbyterian Churches and Rev. Phillip Cowy, pastor of the Fountain Presbyterian Church.

Warning!

The presence in Farmville this morning last week of a stranger who molested at least 3 girls with improper proposals and obscene literature and comments brought from town officials a request that parents warn their daughters not to take up any time with a stranger who usually addresses his intended victim with apparently harmless questions or comments, or requests for information.

Little is known about the identity of the unwelcome visitor except that he was driving a 1948 or 1949 Buick, and apparently was from another state.

Washington News

The Defense Department is expected to agree to a military budget six or seven billion dollars under the request this year. The 1953 request is being worked out now, several months before it will reach Congress. And though the requested sum will be down, actual spending next year will probably be up—since expenditures do not keep pace with authorizations.

If Congress economizes on other items, next year, it may be able to balance the budget. But tax reductions may not be enjoyed until the following year. Minor reductions and some special taxes might be reduced, but income tax relief will probably not arrive next year. One estimate for this year is a 10 billion dollar deficit, and expenditures running around 60 billions.

Newsmen who have traveled with both Stevenson and Eisenhower lean to the Democratic candidate. Even those reporters who work for publications supporting the General make no secret of the fact that they personally like Stevenson. A poll of newsmen currently with Ike and Adlai showed that Adlai—won majority support with both groups. That was a mild surprise to some observers.

The reason most often given is that Ike is still unaccustomed to the politician's role in dealing with the press. Ike is accustomed to playing the role of a military officer, who puts things on and off the record at will, who can readily decline to discuss touchy issues, in the interest of security or U. S. relations. But the press corps in the U.S.A. is a tough hard-digging swarm of writers. They pry into anything with vim.

Stevenson, as Governor, has had more experience in the civilian's relationship with the fourth estate and this experience is predicated with earning him the nod over Ike, to a large extent. Some dissenters from this opinion say that Adlai is just more frank—and that appeals to the press.

PHOTOGRAPHER HERE

Raines and Cox, Wilson photographers, will be here next Tuesday under auspices of the Presbyterian Women of the Church. The photographers will be at the church from 10:30 until 5:30.

After adjournment, the hostess served individual lemon pies, salted nuts and coffee.

Greene County Will Dedicate Health Center

The dedication exercises of the Greene County Health Center in Snow Hill next Tuesday at 3 o'clock mark the final steps in the attainment of a facility for the service of the people of the county which has been actively and ardently pursued for over three years and had been dreamed for as many more years before there seemed to be any hope of the dream materializing. The possibility of the realization of the dream of a health center came with the establishment of the North Carolina Medical Care Commission and provision for hospitals and health centers construction which this commission administered. These provisions consisted of many millions of dollars appropriated by the legislature of North Carolina to match corresponding appropriation of the Federal Government for the purposes mentioned. The Greene County Board of Health was supported by the physicians and other prominent citizens in recommending to the Greene County Commissioners the appropriation of the funds administered by the North Carolina Medical Care Commission.

After due consideration the commissioners of Greene County voted to apply for such participation. Their application was granted by the Commission. An effort was then initiated to discover and purchase a lot suitable for the erection of a Health Center. This effort proved to be a difficult one and for many months the search for a satisfactory lot was fruitless for one reason or another. At long last the lot upon which the Health Center has been erected was purchased. It is an excellent lot well located and has splendid oak trees upon it. The Health Center makes excellent provision for the activity which the health department carries on and permits an expansion as well as the facilitation of its services. The building is well constructed of sufficient size and adequately furnished for present activities except that the x-ray program could be expanded and carried on as less expensive if suitable x-ray equipment could be secured.

W. E. Debusan, well known radio commentator, will be the principal speaker at the dedication exercises. The people of the county and their friends are cordially invited to be present.
