It is very evident that this steam communication will be of great advantage munication will be of great advantage to the farmers in Pamlico. In the past It is very evident that this steam comone might ship his cotton by sailboat and contrary winds delay it a week in no certainty of striking the market on a rise. Hereafter, by reading the market Flour, reports in the DAILY JOURNAL, the farmer can know just when is a good time to ship his produce so as to get a good Sugars, price, and can rely on reaching this

travel would greatly increase if one hours instead of eight days. It is reasonable to expect that freights, especially vegetables and early truck, would receive a great impetus by means of quick transportation. In fact steam, in decreasing the time of transit between any two points, lessens the apparent dismakes commercial transactions much easier and more frequent.

And again, no city need be under any apprehension of damage to its trade if the community from which it draws its trade is prospering. Whatever benefits that part of Beaufort and Pamlico which trades with New Berne will react and in the end benefit this city also. It is a wise provision of Providence that allows no one place to be absolutely independent. Town and country are mupendent. Town and country are tually dependent, each on the other, ing the other is very sure to receive its share of the general prosperity.

It is altogether a matter for the dealers the red man.

In futures, as the crop is now almost This is Emancipation day—the day bills for nearly \$20,000 more.
