Summer Garb For Active Children

The aprons—of black satin or bright colored cottons—may be worn over a little dress or, in hot weather, instead of one. They are recommended especially for making castles by the sea.

The blomer dresses may be of colored chambray gingham, black satin or lighter materials—and they are recommended especially for climbing apple trees.

Simple to make and to launder, these are "the fittest" survivors in the struggle that has eliminated the doll's dress type of clothing for all normal modern children.

REAL TEST OF MORVICH AHEAD

BILLY EVANS TELLS WHY FAMOUS RACER CAN'T YET BE CLASSED WITH MAN O' WAR

MORVICH (LEFT) AND MAN O' WAR

By Billy Evans

Man o' War or Morvich? Is Morvich, the winner of the Kentucky derby, superior to Man o' War? That question was recently put to Sam Riddle, the owner of Man o' War, who replied:

"To decide such supremacy it would necessitate racing the horses against each other. It would require actual competition. Man o' War will never return to the turf, so that method of procedure is out of the question.

"Perhaps it is a good thing for the racing game that Man o' War is retired. Discussion creates interest. The showing of Morvich as a two and three year old will cause many an argument as to the relative ability of the two horses.

Man o' War Superior
"While recognizing the great worth of Morvich I feel that Man o' War is the superior horse by a considerable margin. Possibly Mr. Block, who owns Morvich, entertains the same opinion as to his horse."

Since the running of the derby, racing experts have taken away considerable glory from Morvich by contending that the opposition was very ordinary.

While it must be admitted that Morvich outclassed the field a good many of them were virtually little better than selling plates. It will be recalled that a number of the best horses entered were forced to withdraw because of the coughing "flu" that was then going the rounds of the racing stables.

What Experts Say
George T. Miller, the veteran starter, is another racing expert who believes that luck has camped on the trail of Morvich.

"The winning of the Louisville derby, while it was done in a most decisive fashion, does not satisfactorily establish Morvich as the outstanding three year old in the country," says Miller.

"In winning the derby Morvich beat a very ordinary lot. There was no Bunting, Kai Sang, Olympus, Whisk-away, Pillory or any of the other crack three year olds trailing him.

"The test for Morvich is to come. Morvich is entered in a number of feature stakes, where he should meet much stronger opposition than in the derby. If he comes home the winner in each event then he will be entitled to close comparison with the great Man o' War. Until then it is ridiculous to crown Morvich the turf king of the three year olds."

All the same, regardless of what parts think of Morvich, Benjamin Block, his owner, seems very well satisfied. He laughed at a fancy offer to buy the colt and said he valued him at a half million when asked to name a price on him.

FAREWELL PARTY FOR MRS. COHEN
One of the most beautiful social occasions of the season was a combined bridge party, shower, and picnic supper given Tuesday afternoon at Hermit Park by Mrs. Sol Weil, complimentary to Mrs. Julius Cohen who has made her home here for a number of years, but will move to Greensboro in the near future. Mrs. Cohen will leave tonight for a visit to her parents in Detroit, Mich., before settling in Greensboro.

About forty of Mrs. Cohen's friends had been asked for the occasion. Bridge was played on the veranda of the park pavilion, and at the close of the game, from a cloudless sky, Mrs. Cohen was deluged with a shower of parting gifts, rained upon her from an exquisite Oriental parasol.

The pavilion was unusually beautiful, overlooking as it does the sparkling fountain at the center of the park. It made an ideal spot for a social gathering on a torrid day.

The final touch in Mrs. Weil's hospitality was a picnic supper, served most informally with all the proverbial accessories—paper plates, lemonade, deviled eggs, etc.

Goldsboro society looks upon Mrs. Cohen's departure with real regret, as she has been most actively connected with social and welfare work during her residence here.

1 KILLED WHEN MINE TRAIN IS AMBUSHED
General Manager of Mining Company and Another Man Also Badly Injured

SALT LAKE CITY, June 14.—A mine guard named Webb was shot and killed and Harry P. Lewis, general manager of the Standard Fuel Company, of Standardville, Utah, and an unidentified Greek miner were wounded today when a railroad train carrying new miners to the company's mines, was fired upon by men in ambush, according to reports received here.

The train, belonging to the Utah Railway Company, was ambushed at Jacobs, near Standardville, the advices stated. Superintendent Lewis was acting a engineer having taken charge when the regular train crew refused to operate the trains upon learning that it was conveying men to the mines to take the place of strikers.

The attackers who are declared by Standardville peace officers to have been strike sympathizers fired upon the train from both sides. They fled into the hills after firing and were pursued for a short distance by deputy sheriffs and mine guards.

"Here Comes the Elephants!"

DO you remember how you used to be on the job bright and early to see the circus parade? Remember how you thrilled as the lions, tigers, and the big, lumbering elephants passed in review? How the horses, the blare of the bands, the antics of the clowns, and the glitter of it all inspired you with a fervid determination to see the real show—the big performance in the tent?

You didn't realize it then, but you were getting a lot out of an attractive advertisement.

Perhaps you don't realize it NOW, but other advertisements, just as attractive, just as interesting and far more valuable to you, parade daily before you in the columns of this paper.

The merchants and makers of everything you want or need, here display before you their most attractive wares. It is truly "THE GREATEST SHOW ON EARTH."

The whole purpose of any advertisement is to excite your curiosity, gain your interest, arouse your desire; to tell you something you don't know; to remind you of something you have forgotten; to convince you of something over which you have been hesitating. In short, the purpose of an advertisement is, in one way or another, TO MAKE YOU HAPPIER.

Read the advertisements and see if that isn't so?
