

This Bird Is After Worms

At the international aviation meet, Paris, Pilot Ppaulan lost control of his plane. The plane did this. Ppaulan escaped with minor bruises.

26 HOMES NOW BEING BUILT IN GOLDSBORO

In Outskirts Of the City It Looks Like War Construction Camps

Building in Goldsboro is on the increase. As a matter of fact a decided and very evident boom in building, both residences and business houses, has been boiling along for several months until it has finally boiled over and become very much present.

Twenty six new homes and business houses are now under construction in the city and equally as many more have just been completed. Material is being placed every day for some new venture in the home building crusade.

Out in the outskirts of the city it looks like a war construction camp in places. Little homes, big homes and medium size homes are going rapidly forward to completion.

Mr. W. E. Stroud, secretary of the Goldsboro Building Loan company stated yesterday afternoon that his company had advanced during 1922 a total of 24 loans for building purposes.

The total amount of money furnished for building purposes by this company during 1922 is \$69,000 against \$48,000 for the entire year of 1921.

The great building mania that struck the country in 1920 is reflected so far as Goldsboro is concerned in his figures. During the year he made 29 loans for a total of \$170,000, of which \$116,500 loaned during the first six months of that year.

The growth of the city, coupled with the lack of adequate shelter for those moving in accounts for the remarkable building spurt taken in Goldsboro. The relative cheapness of material and labor is also a moving factor in the sudden desire for homes in the part of Goldsboro.

Beautiful suburban homes are being constructed in nicely laid parks in and around Goldsboro. The streets are being laid out rapidly where there is a demand and homes are springing up again in Goldsboro just as they did in 1920 when everybody built and everybody had money.

JUDGE LYON IN KINSTON

KINSTON, June 14.—Judge C. C. Lyon, of Elizabethtown, convened the June term of civil Superior Court here Monday. Many cases were on the calendar, but few of especial importance. The local docket has been crowded several years. A special term will be held in July to try the cause of Montague vs. West Company. Montague, a hauling contractor, claims damages from the West Construction Company, road and street builders, for alleged breach of contract. The latter, countering, asks damages as large or larger from Montague. It has been very difficult term, to continue two weeks, will be Judge Lyon's last regular term in Lenoir County. He will retire at the end of this year.

The horse that wins the great English Derby has cause to remember it, for people pull hairs out of its tail as souvenirs. A Siamese Buddhist, when he takes a solemn oath, says: "If I lie, may I be cast into purgatory, and there be made to carry water through fire in a wicker basket."

(1) Cabinet Minister Noske, (2) Hugo Stinnes, German trust king, (3) Admiral Behne, chief of German marine, (4) President Ebert, (5) Clara-Nova Stinnes, daughter of Hugo Stinnes.

HAPPENINGS OF THE DAY AT MOUNT OLIVE

J. E. Redfern Quits As Head of the Schools to Go to Aberdeen

BY MISS MAY STERLE. MOUNT OLIVE, May 14.—Mr. James Lee left Tuesday to attend the University finals.

Mr. Madrid Loftin left yesterday for Durham, where he will attend the summer session of the Trinity Law School. Among those leaving for summer school at North Carolina College for Women were Misses Jesse and Nellie Flowers.

Mr. J. E. Redfern, who resigned last week as the superintendent of the Mt. Olive schools, has accepted a position as superintendent of the Aberdeen schools with an increase in salary. Mr. Redfern has been assisting in his efforts to build up the Mount Olive public schools. He came to us in the fall of 1919 and since that time the school has added six members to its faculty, the science department has been developed extensively, and by interesting the patrons of the school in a playground for children, Mr. Redfern has built and equipped one of the finest school playgrounds in the state.

Mount Olive appreciates his efforts in its behalf and scores of good wishes follow him and his family to their home in the peach belt.

Not over a year ago, Dr. Royal S. Copeland, Health Commissioner of New York City has a class of women, who wanted to get thin. He made their life miserable by making them diet and take all manner of exercise, but the women each lost from ten to thirty pounds.

Mount Olive has no doctor who is willing to denote a week or two to reduction, but the M. O. women are like women the world over. The fat, the pleasingly plump, the thin all want to be skinny. They believe in exercise and diet as the highway to a good figure and health.

There is more than one name with Dr. Lulu Peter's "Diet and Health" on the center table. Others who are not so bold have a vase of weight control hidden safe in some dressing table drawer. There are others—however, who diet without a guide as the woman who said she used "just plain common sense."

The women are not the only ones who diet, but they are more systematic than the men. The men give up drinking water at meals and think that is the supreme sacrifice, but a woman who wants slenderness will refuse candy and ice cream.

One flapper who weighs three pounds over a hundred came out with the announcement that she had given up all breads and cereals.

"Why you are thin 'ready," came the chorus.

"I know, but I want to be skinny," she replied.

Dr. Copeland believes that the ice cream or a slice of cake, provided that it is eaten at meal times and not between meals, is not fattening, but some while Brides of 1922 who leave Mt. in Mount Olive are willing to go all Olive have their pictures taken at the way and give up sweets. There some exclusive photographer's alone, are others who are frankly fat and with hubby not even in the dim back do not care. They eat what they please ground.

MINE WAGE SCALE CONFERENCE ENDS

Operators Refuse To Further Negotiate Unless Owners Agree Arbitrate

NEW YORK, June 14.—With the refusal of miners' representative on the wage scale conference to accept arbitration, the anthracite operators' representatives late today flatly refused to proceed further in the negotiations unless the miners agree to arbitration. The conference adjourned without setting a date for another meeting.

Both sides regard the negotiations as broken off, at least for the present.

"We do not see what more any war or organization could do," Samuel D. Warriner, spokesman for the operators, said after the conference. "It looks like a strike," asserted Phillip Murray, "vice president of the union and spokesman for the scale committee. "We will call out even the maintenance men if necessary." The strike votes now being taken will be counted, Mr. Murray said, in the various districts and headquarters on July 22.

One thousand gallons of paint are required to paint the dome of the capitol in Washington.

Australia has more places of public worship in proportion to population than any other country.

Twenty cities and towns in the United States bear the name of Columbus, in addition to a number of Columbian and Columbianas.

A steel-like grass from the volcanic slopes of Oran, Algeria, is so elastic that it can be used instead of springs in the manufacture of furniture.

Some throats, diphtheria and many similar complaints are practically unknown among those employed in the oil fields, refineries and other branches of the petroleum industry.

The first case of a wild animal suffering from rabies has just been reported from India, where a panther, which was killed after attacking several people, was found to be suffering from this complaint.

when they please. "Comfort first" they say, and take another chocolate covered Brazil nut.

Evolution. Brides who left Mount Olive in 1872 for their honeymoons had their pictures taken standing behind their husbands who were seated.

Brides of 1892 were photographed seated beside their new males.

Brides of 1902 photographs stood in front of their husbands.

While Brides of 1922 who leave Mt. in Mount Olive are willing to go all Olive have their pictures taken at the way and give up sweets. There some exclusive photographer's alone, are others who are frankly fat and with hubby not even in the dim back do not care. They eat what they please ground.

Coal Distributors To Meet With Hoover

WASHINGTON, June 14.—Representatives of the producing and distributing branches of the coal industry are to meet with Secretary Hoover tomorrow to consider steps for bringing in line operators and dealers who have failed to comply with the administration's plan for voluntary price restraint during the strike.

While the majority of operators and dealers, Mr. Hoover said tonight, are holding to the plan, prices of bituminous coal in districts which have refused to accept the voluntary program have risen to as much as \$5.00 a ton and the average price has advanced thirty six cents a ton since the scheme was adopted.

Advancing prices of anthracite coal are also to be considered, at the conference.

GOLDSBORO MARKETS. Cotton, middling 20 1-2 to 21. Cotton seed, per bu. 45. Country hams, per lb. 25 to 30. Eggs, per doz. 25. Spring Chickens 40. Hens, per lb. 20. Roosters, each. 50.
