Troops Will Be Withdrawn From Salisbury; Violence Still Features Rail Strike

ACTIONS TAKEN ON GOVERNOR'S ORDER

Investigation of Alleged Wreck and Sabotage Is Now Under Way

RALEIGH, Aug. 30.—National guardsmen who for two weeks have been stationed in Salisbury and vicinity for urgent use during the strike of 17,000 shophans at Spencer, will be withdrawn Friday by Adjutant General J. Van B. Metts, it was announced today following instructions from the governor.

CHICAGO, Aug. 30.—(By the Associated Press)—Ben W. Hooper, chairman of the railroad labor board, announced this morning at the hearing of the application of the maintenance of way men on more than 100 railroads for an increase in minimum rates of pay opened, that no decision in the case would be rendered until all the members of the labor group of board members have returned to Chicago. They are expected to return about the middle of September.

John G. Walker, executive secretary of the bureau of information for eastern railroads, was ready to make an answer in today's session to the union's plea for a "living wage" principle.

CHICAGO, Ill., Aug. 30.—(By the Associated Press)—Continued bomb outrages and other forms of violence; inquiries into wrecks and alleged sabotage plots; settlement of unauthorized walkouts by trainmen on the Chicago and Alton, Elgin, Joliet and Eastern and Missouri Pacific and an appeal to Congress by railway maintenance of way employes for an amendment to the transportation act assuring a "living wage" for rail workers marked the sixty-first daily chapter of the history of the nation-wide railroad strike today.

Meanwhile chiefs of the "big four" transportation brotherhoods meeting at Cleveland, asserted their attitude toward the shophans' strike remained unchanged. The end of the tie-up on the Chicago and Alton came early today when striking trainmen at Slater, Mo., agreed to return to work. Their action followed similar moves by trainmen at Roadhouse, Ill., and by trainmen and switchmen on the Elgin, Joliet and Eastern at Joliet, Ill.

Although chiefs of the transportation brotherhoods declared their view of the shophans' strike was unchanged, as well as their position in not expecting brotherhood members to work where their lives were endangered, W. E. Lee reiterated the statement that his men would be authorized to walkout only within the provisions of their constitution and agreement.

New Injunctions

New injunctions restraining strikers from interfering with railroad operations were granted today by U. S. District Judge at Meridian, Miss.

Another development of the strike during the last 24 hours was the reassertion of the railroad's position on the seniority question in a statement by Hale Holden, president of the Chicago, Burlington and Quincy. The statement declared the roads had gone "to the extreme limit" in trying to adjust the strike of the shop crafts. Mr. Holden asserted that no steps toward obtaining new men were taken until the shophans strike had been in progress ten days. He declared there was nothing further for the roads to do than to "proceed in the course that has been followed upon us and thereby maintain the operation of our property in the public interest."

Leaders of the maintenance of way union continued presentation of their claims for increased wages before the U. S. Railroad Labor Board today after dispatching their message to President Harding and Senator Cummings, of Iowa, co-author of the transportation act, asking for the "living wage" amendment.

Seek Ocean Crater Grave For German Sub

NORFOLK, Va., Aug. 30.—The mine sweeper Falcon sailed from the navy yard today with the former German submarine U-111 in tow for Winter Quarter, near which there is said to be a sort of Ocean Crater 800 fathoms deep. If it can be located it will be the submarine's grave. Otherwise the falcon will proceed with her tow beyond the fifty fathom depth and sink the submarine with T. N. T. If the sea is smooth enough to permit it men from the falcon will board the hulk and place the charges where they will be most effective. If a heavy sea is running the Falcon will run along side and swing 50 pound charges of explosives on the deck of the hulk with firing wires attached, and then ease off to a safe distance for firing the explosives. It is thought two of them will be sufficient to open her deck and side seams and cause her to fill and sink.

The Falcon will reach Winter Quarter about day light tomorrow morning.

TAR HEEL MILLS MAY HAVE TO CLOSE DOWN; LACK OF FUEL CHARLOTTE, Aug. 30.—The coal shortage is threatening to close practically all cotton mills here and hereabouts within the next few days if relief isn't forthcoming, according to Winston B. Adams, secretary of the American Manufacturers Association, who has made a survey of the situation and finding that some of the textile management are ordering shavings with which to continue operation of their plants.

DISAPPEARANCE OF RICHMOND BROKER IS BAFFLING OFFICERS

Nothing Seen of Edward H. Moon Since He Returned On Board Jefferson

UNIVERSITY TEACHER WAS LAST TO SEE HIM

RICHMOND, Va., Aug. 30.—Edward H. Moon, local merchandise broker, whose mysterious disappearance is causing widespread investigation, including inquiries by the police of New York, Norfolk, Richmond, and other cities, was aboard the steamer Jefferson, New York to Norfolk about 11 o'clock Monday night, according to William Coan, member of the faculty of Washington and Lee University, Lexington, Va., who was one of the boat's passengers on the trip.

Mr. Coan did not know of Moon's disappearance until this morning. He immediately informed the local police that he last saw the broker partially dressed, in his stateroom. Mr. Coan went to sleep and awoke at 7 o'clock next morning, he said. When he awoke Moon was not in the stateroom. Some of Moon's clothing was hanging against the wall and his baggage was open. He did not see Moon again. Moon appeared to be thoroughly normal and appeared in his usual manner in the afternoon.

Moon remained in the afternoon before Mr. Coan that he expected to be seafaring as travel agent affected him that way. Coan explained that the transfer of himself to the room previously assigned to Moon was done in order to make room for Mrs. L. B. Detamore, who is the mother of Mrs. Coan. Mr. and Mrs. Coan and Mrs. Detamore all live in Lexington, Va. The party came up from Norfolk by way of Williamsburg, arriving in Richmond last night.

NORFOLK, Va., Aug. 30.—While Norfolk police, baffled by the mysterious disappearance of Edward H. Moon, a broker, of Richmond from the Old Dominion Transportation Company, steamship Jefferson, sought William Coan of Lexington, Va., in Norfolk, Richmond and Lexington that they might learn something of what transpired in stateroom 72, which Moon and Mrs. Coan, his wife and her mother, Mrs. L. B. Detamore, were spending the night in Williamsburg.

NUMBER OF COTTON RECEIVING POINTS NAMED BY CO-OP'S

RALEIGH, Aug. 30.—With arrangements completed for a score of cotton warehouses and negotiations pending for the use of a score more, the North Carolina cotton growers' cooperative association will be able to handle the cotton of its members as fast as it is gathered, according to B. F. Brown, manager of the warehouse department. Delay has been occasioned in closing deals with many of the warehouses because the association will store its cotton only in state licensed warehouses. Deals for storage space in many warehouses await the granting of licenses before being closed.

It was thought best not to undertake to receive cotton at the opening of the season except at licensed warehouses, but by September 10th the association will have ample warehouse space contracted for, it is announced, and seventy-five receiving points will be provided in addition to the receipt of cotton from members of the association tomorrow are located at the following points: Statesville, Monroe, Mt. Gilead, Polkton, Morven, Lilesville, Fayetteville, Moncure, Dunn, Clinton, Creedmoor, Louisville, Pollockville, New Bern, Oriental, Kelford, Elizabeth City, and Smithfield. Cotton will be received by state licensed warehouses Friday and such other warehouses with which the association has contracts to receive their state licenses in time Manager Brown states.

When the first telegraphic cable was laid between England and America a message cost dollars a word.

HOPE FOR ENTOMBED MINERS FAST WANING

Rescue Workers Get to Edge of Raging Fire But Are Driven Back

JACKSON, Cal., Aug. 30.—Hope for the rescue of 47 prisoners of the Argonaut gold mine waned today. Picked miners of the Mother Lodge Country, working with a desperate earnestness that leaves them exhausted at the end of their six-hour shifts, battered away at the thin but incredibly tough wall of slate that separates the Kennedy mine from the Argonaut at the 3,600-foot level. Beyond that wall, in the lower levels of the Argonaut are the 47 who have waited helplessly since fire above them cut them off from escape at midnight Sunday.

Ten men from the United States Bureau of Mine Rescue crew have been going down in the burning mine in relays. This morning they reported they had again reached the 2,700-foot level from which a crew was driven last night. The smoke was intense there and the fire was reported racing fiercely below the point. The flames are said to be gradually creeping up the shaft.

If of the miners along the Mother Lodge far up here in the Bret Harte Country have responded with volunteers to aid in the attempted rescue.

The Amador County Red Cross has a group of twenty women on duty serving hot coffee and sandwiches to the fighters and comforting the grief stricken families of the entombed men. Thanks to the custom of the mine to permit parties of twenty miners to go on hunting and fishing trips Sunday, the regular underground crew working on the Sunday night shift was a score short of the regular number, 20 men whose time it was to enjoy a holiday are alive and are on top now.

While the officials of the mine will not give out lists of the names, Skip Tender Panalicho states there were 47 lunch baskets in the lot which he took underground preceding the lunch hour Sunday night. It is from this statement that the number of the imprisoned men are fixed today at 47.

Superintendent Garbrini has ordered newspaper men and moving picture operators excluded from the mine property.

USINK WAR INSTRUMENTS The silence of war was called upon today to assist the rescue crews which are trying to reach the miners entombed in the Argonaut mine at Jackson. William F. French, chairman of the State Industrial Accident Commission, announced that a geophone, used to detect sounds distant from the instrument, is being rushed from Berkeley, Calif., that L. H. Duschek, expert on gases for the commission, is on his way to Jackson from here.

The geophone will be used in the tunnel through which it is hoped to effect a rescue. It is so delicately adjusted, according to Mr. French, that it will detect the noise of a falling leaf 100 feet away. It is hoped through the instrument to detect the distance and location of any noises that might be made by trapped miners.

Dr. Duschek will test the gases in the mine both before and after the tunnel is cleared to determine how far the rescuers may go without too much risk to themselves.

BABE RUTH GETS HIS 28TH HOMER

NEW YORK, Aug. 30.—Babe Ruth cracked out his twenty-eighth home run of the season for the New York Yankees today in the first inning of their game with Washington.

HODGIN CASE IS CONTINUED The restraining order of G. E. Hodgkin against the estate of his mother to prevent the sale of the property by the administrator of the estate and its distribution among the heirs, was continued yesterday by Judge Oliver H. Allen until the October session of Superior court. Judge W. S. O'H. Robinson, counsel for Mrs. Bertha Hodgkin Rose, sister of Mr. Hodgkin declared that he did not particularly care about selling the estate anyway until after the harvest of the crops. He referred to the methods of the opposition and the \$312 charged in the restraining order by Mr. Hodgkin, for hauling his mother to church as "left handed."

FORMER MANAGER RICH GOES TO ALEXANDRIA. ALEXANDRIA, Va., Aug. 30.—Wilder M. Rich, former City Manager of Goldsboro, N. C., has been appointed City Manager of Alexandria. He will begin his duties here Friday, it is announced. He comes here highly recommended and will start his work with the backing of all of the city officials. All civic bodies, it is stated, will aid Mr. Rich in giving the city an efficient, economical administration.

HOLT GETS 10 YEARS FOR MURDER OF CORA HARRIS, HIS BEST GIRL

Collins, Convicted of Cutting Off Negro's Head, is Given Twenty Years.

COURT NOW ON ITS FIFTH CAPITAL CASE FOR TERM

The granting of an absolute divorce to Lola Jones from her husband Walter Jones, the conviction of Joe Holt, 25 years of age, colored, of second degree murder for killing sweetheart, Cora Harris, the conviction of three negroes, Elijah Oldham, Thomas Highsmith, age 17, and David Chadwick on a charge of storebreaking, the sentencing of Don Collins to serve 20 years in the penitentiary, and finding Fred Satterthwait, colored, guilty on a charge of selling whiskey, sums up the activities of the Superior court yesterday. Today the trial of Herman Liggett, 25, colored, charged with first degree burglary, will begin. A special venire of 25 jurors has been summoned.

Joe Holt was given a sentence of 10 years, while Oldham, Highsmith, and Chadwick were each given a sentence of three years. Collins was given a sentence of 20 years and told by Judge Allen that he would be a great deal better off in the penitentiary than roaming about the country. Evidence brought out by his attorney, Hugh Dortch was that Collins had been shot in the head at a sawmill and that he was in a measure irresponsible for the waylaying and killing of Will Davis with an ax, of which crime he was found guilty of Tuesday. He maintained his innocence to the very last, never confessing even to his attorney.

Judge Robinson and Mr. Dortch, attorney for Joe Holt, submitted to a charge of second degree murder, and he escaped with a light sentence.

It was a sad day indeed for Fred Satterthwait when he took an appeal from the Recorder's court after being found guilty of making whiskey and being sentenced to six months. Judge Allen yesterday doubled his sentence, to instead of coming home along with Washington's birthday he will still be filling the orders of Mr. Page when the September morn of 1923 rolls around.

Mr. Duschek who defended the younger of the colored storebreakers wanted him to submit and get off with a year, but he wouldn't listen, so he got three years. The evidence in the case against Herman Liggett is said to be pretty strong. It was stated at the sheriff's office that according to witnesses he broke into the home of Henry Smith and wife and trucked an ax between them while they were in bed. His trial is finished tomorrow. It will make a third capital case tried here this week, and a fifth tried since Judge Allen convened court.

Despite the rapidity with which capital cases have been tried, Judge Allen and others have little hope of clearing the docket by the time court adjourns at the end of the week.

DR. JOYNER TO BE CO-OP SPEAKER SATURDAY

Everything Being Gotten in Readiness For Big "Sign-Up Day" Rally

Dr. J. Joyner, former state superintendent of public instruction and now a member of the board of directors of the Tobacco Growers' Co-operative Association will speak at a mass meeting to be held at the Wayne county court house Saturday, September 2, at 2 o'clock in the final drive of the Cotton Growers' Co-operative Assn. for 100 new members. Efforts are being made to have W. H. Austin of Smithfield, president of the cotton association, to speak on that day, but whether he will be here is still a matter of doubt.

This is the final campaign of the co-operators. Those who sign contracts by Saturday night will be able to sell their crops this year through the co-operators but those who do not sign will be out of the organization so far as marketing their crops through the organization this year is concerned.

One by one new members, it is stated by Field Manager C. R. Garrison will be practically every farmer and farming business man out of the organization at present.

Today and tomorrow Mr. Garrison and Home Demonstrator A. K. Robinson will be busy holding group meetings all over the county as preliminary steps to the final meeting here Saturday. Tonight group meetings will be held in 17 townships.

Yesterday a mass meeting in which practically every township in the county was represented was held at the court house at 2 o'clock, and the general instructions on the marketing of the crop given out at the state meeting was transferred to the co-operators by Mr. Garrison. These instructions were that the bales were to be weighed at the warehouse here, and that they would then and there be given a bill of lading which they could take to the bank and get their cash advance of \$50 on each bale of cotton delivered.

G. C. Korngay, chairman of the board of directors of the People's Bank and Trust Company, spoke and said his bank would be glad to give any assistance it could to the marketers.

JOHNSON'S LEAD IS WELL OVER FIFTY THOUSAND.

SAN FRANCISCO, Aug. 30.—Senator Hiram Johnson's lead for the Republican nomination for United States senator from California, in yesterday's primaries, stands at \$2,711 with about two-thirds of the vote in the state reported. Only four counties in the state out of 49 voted for his opponent C. C. Moore.

At the November election Senator Johnson will be opposed by Willie Pearson of Los Angeles, Democrat.

HENLEY BOOSTING TRIP TO NEW BERN

Says Purpose of Invasion Is To Give Ham-Ramsay Meeting A Fine Send-Off

By R. L. DENMARK. In conversation with the writer yesterday on the contemplated trip to New Bern Sunday to be present at the opening of the Ham-Ramsay campaign in that city, T. A. Henley, president of the Layman's Federation, made the following statement:

"For the benefit of the public we may say that we are going to New Bern Sunday with a delegation from both Federations and will show New Bern that we are with them in the campaign soon to be launched there.

"We have made the necessary arrangements with the railroad people and have chartered a train that will leave Sunday afternoon at 12:30, returning from New Bern Sunday night at 10 o'clock, giving us ample time to attend the afternoon and night services.

"We have also secured a reduced rate of \$2.00 round trip and feel that Goldsboro will be well represented on this special occasion and do a noble work in giving their time and talents toward evangelizing this part of the country.

"We will have to guarantee 200 passengers, but I feel confident that 400 will want to go judging from the interest I found when I attended the Women's Federation Monday night.

"It is not the desire of the Federation to go to New Bern for the trip altogether but for the influence it will have upon the people of New Bern in order that they may feel that Goldsboro is interested in them and want their campaign started in the proper way that it may have the best results to be obtained and I feel at the same time the presence of the delegation from Goldsboro will be an incentive to New Bern."

While it was the desire of Mr. Ramsay upon leaving Goldsboro that a delegation from here go to New Bern when the campaign opens on next Sunday the Federation feels that it would be doing Mr. Ham and Mr. Ramsay an injustice if they did not comply with his request and it is for this reason that the president, Mr. Henley, desires a full delegation to be on hand as has been stated, the state is watching Goldsboro as well as the Federation.

GOLDSBORO CHILD INFECTED WITH T. B. FROM DRINKING MILK

Dr. Ellington and Dr. Dinger Appointed to Ask For Educational Aid

WILL ASK FOR A FULL TIME VETERINARIAN

Eradication of tuberculosis among the stock and cattle of Wayne county was declared an economic and commercial necessity at a meeting in Dr. J. A. Ellington's office at the health department last night. Miss Gertrude Well, Mrs. M. E. Robinson, Dr. Dindinger of the Federal Bureau of Animal Industry, Dr. A. H. Zealy, and Dr. Ellington spoke.

Dr. Well referred to the meeting as completing a "double drive," since she regarded it as a supplement of the meeting of the North Carolina Association for the Eradication of Tuberculosis to be held here October 3. She declared that both were "community problems." The result of the meeting which representatives from all parts of Wayne county were present, endorsed, will be that Dr. Ellington and Dr. Dindinger will go before the county commissioners when they meet at their regular meeting next Monday and ask that the commissioners support a full-time veterinarian for a year so that tuberculosis can be eradicated from among the 5,000 cattle Wayne county and measures adopted to prevent them from becoming infected again, it was stated by Dr. Ellington.

Dr. Dindinger told last night how he is putting the work on in 12 other counties, including Pender and New Hanover. He has already made arrangements to put it on in Johnston, and if Wayne comes in just now the work will all be put on together in the two counties it was stated.

Dr. Zealy was there last night to tell how his three year old child had become infected with tuberculosis from cow's milk. Half a dozen other cases were cited, among them the three year old child of J. T. Harris. Dr. Dindinger gave figures showing that 12 out of every 100 cows slaughtered by a packing house last year were found infected with tuberculosis, and that of those infected 50 per cent were found entirely unfit for use as beef.

Germany takes a census every five years.

TWO SHOT GUNS SEIZED FROM SPENCER PICKET CONFISCATED BY SCOT

Reports of Trouble Brewing Causes State Guard Officer To Take Action

INSPECTOR OF PICKET LINES CAUSES A STIR

SALISBURY, Aug. 30.—Two shotguns found in the possession of pickets stationed near the shops of the Southern Railway at East Spencer were seized this morning under the direction of Col. Don E. Scott, commanding officer of the National Guard organizations at Camp Morrison.

Reports that trouble was brewing because negro workers entering the shops were alleged to be carrying arms, Col. Scott, commanding a company of mounted cavalry, at daybreak made a rigid inspection of the picket lines. Shortly afterward the officer issued a statement saying he had been informed there had been considerable rough picketing, that some negro workers had been fired upon, particularly Tuesday morning as they entered the shops for work.

The statement added that information pointed to possible trouble this morning and that the military inspection was made to prevent any disorder. Col. Scott stated the men entering the shops for work were searched for arms, but none was found. Search of pickets resulted in seizure of two shotguns by the soldiers, the officer added.

Col. Scott has arranged for a meeting with a committee of the shop crafts looking to an agreement that none of the pickets be armed, and he stated that he proposed to secure an agreement with Southern officials and employes that there shall be no carrying of arms inside the shops, the officer taking the position that "gun toting" must cease in the community.

SPENCER STIRRED. SALISBURY, N. C., Aug. 30.—The inspection of the picket lines around the Spencer shops shortly after daybreak this morning by a company of mounted cavalry, under command of Col. Don Scott, created a small stir among the workers of the three towns adjacent. Many hurried out to watch the cavalry march through town and around the shops. Afterward Col. Scott issued a statement, saying he had been informed that there has been considerable rough picketing, that some negroes have been fired upon, particularly Tuesday morning as they entered the shops for work, which were taken by the soldiers.

Col. Scott also arranged for a meeting with a committee of the shop crafts looking to an agreement that none of the men will go armed, that it may not be made necessary to make further searches for guns. He also stated that he proposed to secure an agreement with the Southern officials and employes that there shall be no gun toting inside the shops, that gun toting must cease throughout the community. Col. Scott stated that he has no axe to grind; that he has no objection and hopes for a happy solution of the matter by a mutual agreement that no arms will be used either inside the shops or on the outside.

In Rowan county court today A. J. Cordell, a young white man claiming Columbia as his home, was sentenced to four months on the county roads on the charge of forcing his way through the guard lines at Camp Morrison, near town. He was also fined twenty-five dollars and costs for drunkenness.

MILLS OF CAROLINAS MAY GET MORE POWER

Alabama Power Company Seeks Site On the Pamlico River

WASHINGTON, Aug. 30.—The Alabama Power Company has filed application with the Federal Power Commission for a site on the Pamlico river in Alabama which will include four dams of a capacity of 250,000 horse-power to cost about \$40,000,000.

The project is said to be of great importance to the cotton mills in the Carolinas which will have power available from the new plant. Many of the mills are now closing down for lack of coal, and are often embarrassed for lack of electric power during low water.

WASHINGTON, Aug. 30.—All pending amendments of the Soldiers' Bonus bill were disposed of today by the Senate. The paramount question in the minds of both friends and foes of the bill is what is the attitude toward the bill at the White House. There was no special word from the president during the day though callers at the White House gained the impression that the addition of the reclamation project amendment and the provision for the payment of the bonus out of the interest on the foreign debt would make it in its original form.

Leading proponents of the bill urged throughout the debate that the Senate refrain from weighing down the measure with additional amendments that might give further ground for a veto. All further proposed changes were rejected by decisive majorities.

BLEASE'S LEAD OVER MCLEOD INCREASED TO SEVEN THOUSAND

A Second Primary, However, Will Be Necessary To Secure Nomination

WOMEN VOTED IN THE PRIMARY FIRST TIME

COLUMBIA, S. C., Aug. 30.—Col. Blease, third term Democratic candidate for governor, increased his lead over Thomas G. McLeod in the returns from yesterday's primary as received here today by the Record. The tabulations show Blease leading McLeod by over seven thousand votes. A second primary will be necessary to decide a candidate. Blease's total vote, with 1,028 votes reported out of 1,292, is 64,273. McLeod's is 57,186.

It appears that E. B. Jackson is elected lieutenant governor on the first ballot, says the Record. His vote is 896. Adams, 23,204; Owens, 31,111. Whether additional returns will change the results of this race is problematical.

W. Banks Dove was elected secretary of state; Walter Duncan, comptroller general; and Sam Wells attorney general, according to the Record.

J. H. Hope gained a majority in the race for superintendent of education, being led by J. E. Swearingen. Hope's total is 31,978 this afternoon. Swearingen's is 23,408. Mrs. Beattie Rogers Drake has 29,665; C. D. Sney 6,487; Cecil H. Seigler, 19,924; and Mrs. E. Barton Wallace 18,032.

In the Congressional contests, W. Turner Logan, of the first district, appears to be nominated. With returns in from all precincts except six small ones in Berkeley county and five in Chatham county, Logan was leading by a majority of 1,230 votes. The vote stood: Logan, 10,135; Harris, 7,160; Manning, 1,163. In the third district Fred W. Dominick was renominated by a majority of approximately 800 votes over E. P. McCreavey and S. H. Sherman, according to practically complete returns compiled by the Greenwood Index Journal.

Women Voted. Women voted in the primary for the first time in the history of the state, but the unofficial returns show the women's vote for State Superintendent of Education were defeated by their masculine opponents. Rogers Drake, of Sumterville, received a vote of 28,250 over E. B. Wallace, E. Swearingen, 15,000, while J. H. Hope, 23,770, Adams, 23,204, and Owens, 23,204. In the seventh district Congressman H. P. Zulmer was renominated over A. J. Bethen and J. J. McMahon, both of Columbia, by a majority of 9,000. His vote was 15,928; Bethen, 2,566; McMahon, 2,322.

Race For Lieutenant-Governor. A second race between E. B. Adams, of Aiken county and E. C. L. Adams, of Columbia, for Lieutenant-Governor is apparent, though J. K. Owens, of Yorkville, is a close third. Jackson's vote for the race totals 34,721; Adams, 23,204, and Owens, 23,204.

For Secretary of State W. Banks Dove was renominated over W. C. Dowler of Rock Hill by a plurality of about 10,000.

Attorney-General Sam Wells was renominated over two opponents, Harold Eshbanks and D. M. Winters, both of Columbia, by a plurality of more than 4,000. His vote totals 42,907; Winters, 32,720, and Eshbanks, 29,720.

Walter E. Duncan, ex-comptroller general, was renominated over T. Haged Gooding, of Bamberg, by a two to one majority. The total vote in this race was approximately 120,000, of which Duncan received 51,922.

For Adjutant-General, Robert E. Craig, of Columbia, was renominated over Thomas B. Marshall, of Columbia, the vote being 67,108 against 23,204.

H. Harris was renominated as Commissioner of Agriculture over George Wightman, of Saluda, by a vote which stands this morning at 73,861 to 44,707. State Treasurer Carter was re-elected without opposition.

Mrs. Enrico Caruso Is To Fight Father's Will

NEW YORK, Aug. 30.—The children of Park Benjamin, with the exception of Mrs. Enrico Caruso, who is in Italy, will confer here this week to decide whether to attempt an appeal of the will of their father, which was shown after his death and denounced them as having been less as children than as parasites.

Mrs. Caruso, who went against the wishes of her father in marrying the famous tenor in 1918, will return next month from Italy. She is in accord with her brother and sisters in their attitude toward the father's will, it was said.

It is to Mrs. Caruso's former companion and governess that most of her father's estate, estimated to exceed \$500,000, would eventually go under the terms of his will. The former governess, Anna Delchi Benjamin, was employed as a daughter by Mr. Benjamin in 1913, and his will, agreed upon when the records regarding said will were being made, provided that she should have the title of Mrs. Benjamin and his own children.
