LEADERS HURRYING TO CHICAGO FOR LATEST STRIKE CONFERENCE

Meeting Today of Executive Council Preceding Monday Session Policy Committee

SILENCE RESPECTING NEWEST PEACE RUMOR

CHICAGO, Sept. 7.—Rail strike leaders from every section of the country were hurrying tonight in response to the summons of R. M. Jewell, head of the railway employees department of the American Federation of Labor.

Tomorrow there will be a meeting of the executive council consisting of the six executives of the shop crafts and Mr. Jewell and Monday there will be a meeting of the policy committee at ninety.

The meeting Monday will take place simultaneously with the hearing before Federal Judge Wilkerson on the action by the government seeking to make the temporary injunction granted last Friday against the strikers permanent.

CHICAGO, Ill., Sept. 7.—With the railway shops' crafts policy committee of ninety summoned to meet in Chicago next Monday, hope of an early or partial settlement of the rail strike was renewed today for the first time since railroad executive and union chiefs broke off peace negotiations in New York.

These hopes were founded principally on the call for the union's policy committee meeting and statements by strike leaders of the possibility of separate agreements with fifty-two of the class on roads representing approximately \$20,000,000.

The call for the policy committee meeting issued at Chicago strike headquarters by John Scott, Secretary of the Railway Employees' Department of the American Federation of Labor, went out to the general chairman of R. M. Jewell, head of the department, whose whereabouts had remained publically unknown since the government's strike injunction was granted.

Officials of the Baltimore and Ohio Railroad, of which Daniel Willard is president and which is included in the group of roads from which strike leaders hope to obtain separate agreements, denied knowledge of any conference with Jewell or his associates.

With the issuance of the call for the policy committee meeting, Mr. Jewell was reported to be en route to Chicago. The call informed the general chairman that the meeting was "very important."

Attorney General Daugherty announced at Washington that the government would consider in due time what proceedings would be taken against the few misguiding labor leaders who have made incendiary speeches in connection with the industrial situation.

Business houses along Centre street, both sides of Walnut, were indignant yesterday afternoon as the result of a shifting engine blocking traffic for more than thirty minutes.
