NUMBER VETERANS EXCEEDS REPORT OF YESTERDAY

In the Sunday issue of the News it was incorrectly stated that Mr. W. B. Fort was the sole veteran to depart for the Confederate Reunion and Winston-Salem. The following veterans left for the reunion: W. B. Fort, W. B. Anderson, James Jones, Ben Casey, Heywood Lynch and B. H. Tyson.

Formulation of a letter in reply to Mrs. Kate M. Johnson, state commissioner of Public Welfare, was begun by an open session of the county Welfare office and the fixing of the tax rate occupied the attention of County Commissioners in session yesterday.

The tax rate was fixed at 95 cents and distributed as follows: 20 cents road 20 cents general and 55 cents sinking fund. That rate is the same as that of three years ago. No change has been made in the rate since.

The letter to Mrs. Johnson recognizes her right of veto power, but objects strongly to the method of exercising the matter through public interview to the press. The commissioners request that Mrs. Johnson talk directly to them. They have shown by chairman L. A. Newnam, after pleading the board's objection to Mrs. Johnson's proposal, that they must insist that you continue direct with this body. The commissioners in the letter seem to be of the fact that Mr. Mintz, who is eliminated from the race as an officer.

The letter acknowledges the receipt of Mrs. Johnson's letter and states in part:

Recognizing as we must and do, the authority of your Department, which amounts in effect to a veto power, we are unable to state the reasons for the undue publicity that seems to have pervaded the Department since the last meeting of our Board. If our Board is incorrect in making the appointment of Mr. Mintz prior to his obtaining a certificate of qualification, that is the only thing that was necessary for your department to do was to advise us with this error and then await further action by our Board before giving evidence of additional undue excitement.

Contrary to this course, however, we find that after advising us of your attitude through the letter of August 24th and with four days after your letter was written, and within two days after its receipt by the individual members of this Board and before this Board could hold its next meeting to deliberate upon your letter, your Department makes frequent interviews through the press in one of which a threat is made to place the matter in the hands of the Solicitor of this District.

Not To Be Stammered

With due respect for the dignity of your office and with a proper respect for its own functions and duties, to be stammered through the public interviews of your Department, into whose course that may not be in accordance with its best judgment in the light of all of the facts and after mature consideration. The County Commissioners are accustomed to handling the public matters that come before them by orderly procedure, and where they feel the need of legal advice upon questions of importance, they are accustomed to lay their questions before their duly appointed attorneys for their advice. It is not the regular process of your Department, together with such other legal matters as the Board may require, for their duty appointed attorney for their consideration and advice. It is proper for this Board to inquire whether good taste does not require that questions which have to be determined by the Board of Education be taken up and discussed between the respective responsible bodies, rather than by interviews through the press.
