

Italy Accepts Terms Of Ambassadors

Will Give Up Corfu And Islands When Greece Complies

All Machinery of Council Will be Ready When Reply Comes; Optimistic Feeling Prevails

ROME, Sept. 8.—(By the Associated Press.)—Italy accepts the terms of the Council of Ambassadors and agrees to evacuate Corfu and adjacent islands as soon as Greece has satisfied all Italy's indemnity claims.

Optimism Prevails

PARIS, Sept. 8.—A feeling of relief and optimism is prevailing tonight in official and diplomatic circles which look with satisfaction upon the Inter Allied Council ambassadors' settlement in the Graeco-Italian crisis. After notifying Greece upon the terms agreed upon at yesterday's session, the council met today to make instructions to the equity commission to be appointed by it in its investigation of the assassination of the Italians which brought about the controversy.

Thus all the Council's machinery will be ready for prompt action when reply comes from Greece. All danger has been taken out of the crisis, officials think, though it is recognized that other negotiations must be made before final settlement. The compliance of Greece is expected.

The action of the ambassadors has been received with satisfaction in French circles where it is regarded by Premier Poincare who has insisted all along that there was very great danger if the parties not directly interested tried to settle it.

WILL HAVE NEW HOTEL SAYS SEC DENMARK

Report of Survey Made by Mr. Trostle Will be Made in Two Weeks

"Is Goldsboro going to get a new hotel?" The News asked W. C. Denmark, secretary of the Chamber of Commerce yesterday afternoon.

"She ain't going to have anything different," replied the Secretary, for the first time to our knowledge expressing himself in slang.

"I don't know when or where, or how big, but it seems assured that the city will have a new one," he continued.

James C. Trostle, of the Hokenbury System, Inc., who has been in the city the past week conducting a survey for his company, was present when Mr. Denmark made his statement and did not offer any details.

Mr. Trostle declared that within two weeks he would submit a report concerning his survey to the directors of the Chamber of Commerce here. The report is supposed to make recommendations as to the size of any project which may be undertaken. It will contain data concerning the number of conventions which might be interested in meeting here, and other data pertaining to the necessity for a hotel. Should the directors adopt the recommendations a date for a drive for the new hotel will be decided upon at this time.

Marriage Licenses Issued To Two

Two marriage licenses were issued by Registrar of Deeds E. C. Grantham yesterday. Freeman Coley, 53, of Nohonta township, secured license to wed Ellen Pittman, 35, of the same township. Bennie D. Howell, 19, applied in outlining progress banks are. The latter couple are citizens of Stoney Creek township.

Man's Death in Accident

The first mercurian pipe was made 200 years ago by a Hungarian shoemaker, who was a clever wood carver.

ROSE MAKES APPEAL TO CHURCHES TO AID

City Lacks \$300. of Raising in Red Cross Drive

The end of the second day of the campaign for relief for stricken Japanese being conducted in the city found Goldsboro \$300 short of her quota, according to Dr. D. J. Rose, chairman of the Wayne County Red Cross, who is directing the drive. The amount assigned the city from Southern headquarters of the Red Cross was \$500. Of this amount \$200 has been collected.

In an effort to carry Goldsboro over the top today, Dr. Rose has made appeal to a number of the ministers of the city that they take collections at their regular services today and direct the money into the Red Cross channels. He requested the News to make notice of this fact today.

"We are not conducting a house to house campaign as is being done in a number of the cities of the State, and I think it can best be done by making appeals at the churches today," he declared.

BUSINESS WOMEN TO HAVE N.Y. EXHIBIT

Will Show Goldsboro Products at National Meet at Hotel Commodore

The Business and Professional Women's Club of the city will take part in a national exhibit of womanly activities exhibit at the Hotel Commodore, New York City, September 24 to 28. The local club is cooperating with the fourteen other clubs of North Carolina in this movement.

Business interests of the city are cooperating in the undertaking and will see that the local club has a fine exhibit of Goldsboro products. The Empire Manufacturing Company, A. H. Edgerton, president, will supply a feature exhibit in three ply veneer packing cases and panels. The News is informed that this plant is the largest of its kind in the United States.

Charlotte, N. C., Sept. 7.—Four intensionaries of the United States Lutheran Church, all residents of North Carolina, are believed to have been visiting a resort in the mountains near Tokio, when the earthquake shocks swept Japan last Saturday and Sunday. This information reached the ASSOCIATED PRESS here today from the National Lutheran Council, with officers in New York. Their names are given as J. Arthur Linn, and wife Mount Pleasant, N. C., and C. W. Hepper, and wife address not given. Lynn and his wife were stationed at Mount Hepper and his wife served at Omaha.

The advent of this national exhibit is a most timely one, for no definite word has yet been received regarding facts of the Church's property but, declares loss likely to run over \$100,000.

The object of the exhibit is to present a visual compilation of the various vocations open to women and the manner in which they may be trained for them. "Representative business women feel that every young woman should be thoroughly trained to be self supporting. It is not the intention of the group to stress the making of a separate place for women in the business and professional world but rather to indicate the power of both men and women to stabilize business conditions. This exhibit is more than a mere exposition of what women have accomplished—it is a milestone on the road of progress," says a member of the local club.

IRELAND JOINS THE LEAGUE OF NATIONS

Spontaneous Demonstration of Friendly Greth Advent of New Members

Geneva, Sept. 8.—(By the Associated Press.)—An impressive demonstration of welcome and friendship featured this evening's meeting of the League of Nations when by the unanimous vote of the membership, Ireland was recommended for admission. On Monday she will become a part of the league by the formal action of the commission.

Representatives joined in a spontaneous demonstration of good will and best wishes for Ireland and her future prosperity and happiness. England, France, China, Persia, and the spokesmen of other lands participated in the demonstration of friendliness.

Thus the most palpitating week of the history of the League ended in general rejoicing in good prospects of settlement of the Greek-Italian settlement with the cooperation of the league, but with the conviction that the conviction that the question of the league's competency to act in such crisis must be settled for once and all.

The issues at stake are regarded as clear. Italy, a member state has declined to recognize that the league has authority. Delegates of many countries said that if this defiance of the covenant is allowed to stand, international prestige of the organization is imperiled if not lost altogether.

Samuel Gompers, the veteran president of the American Federation of Labor, was his 15 years old when he took out his first union card.

MANSLAUGHTER CHARGE

Charlotte, N. C., Sept. 8.—A coroner's jury investigating the death in an automobile accident near here Wednesday of John Graham, printer of Charlotte, and John G. Clemmer, sailor of Bessemer City, has returned a verdict, on which is based a charge of manslaughter brought against Crawford Phifer of Charlotte, who is alleged to have been driving the death car in a rapid and reckless manner at the time of the accident.

Discovery of the Sault by Brule Celebrated

Ojibway Indians joined with the white residents of Sault Ste. Marie, Ont., in celebrating "Discovery week," commemorating the three hundredth anniversary of the discovery of the Sault by Etienne Brule. One of the features was a production of "Hiawatha" by the Indians of the district. Photograph shows Indian wigwams erected on the shore and on adjoining islets, and the Cairn erected by the Dominion sites and monuments board at the old Northwest company's lock, unveiled by Dr. J. H. Coyne, F. R. S. C.

OVER HALF MILLION POUNDS WEED SOLD

For the Week Closing Friday 319,000 Pounds Brought In—Good Prices

More than a half million pounds of tobacco were sold on the Goldsboro market during the first two weeks of the season, according to figures compiled yesterday. The figures as given out were 616,000 pounds. Of this amount 257,000 was sold the first week and 319,000 the second. The price has ranged from 20 to 23 cents. Figures given do not include the receipts made by the cooperative warehouse. Local members of this association declare that the receipts here have been extra good.

At Curran's warehouse Friday 58,000 pounds were received for which \$11,000 was received. Lee Alpha, proprietor of the Farmer's Warehouse, says that he received 50,000 pounds the same day and the price averaged 23 1-2 cents.

The price loaf of that day was probably brought in by Joe Dannell. He brought 250 pounds to the Farmer's Warehouse for which he received \$108 an average of 43 1-2 cents per pound.

Buyers declared yesterday that they expected the coming week to witness new breaks and record sales. The growers in Wayne and surrounding counties are beginning to learn of the prices paid on the Goldsboro market and are bringing their produce here, buyers stated.

TEACHERS GATHER FOR ORGANIZATION

City Schools Will Open Monday With An Increase of 14 Per Cent

Teachers in the Goldsboro city schools met yesterday for organization in preparation for the opening of school Monday morning. Supt. O. A. Hamilton expects that the enrollment on the opening day will be 1500 and that the maximum enrollment will be 1900. The buildings have been thoroughly gone over and cleaned in preparation for the opening day.

Fifty-four teachers were in attendance at the organization meeting yesterday. Superintendent Hamilton explained the regulations which had been decided upon for the year and urged the teachers to cooperate toward making this year the best year in the history of the schools.

There are three more teachers employed this year than there were last. The average teaching experience of the entire faculty will approach 9 years, Supt. Hamilton declares, and expressed pleasure at being able to secure such a well trained force.

Through the addition of another teacher in the commercial department it has been made possible to offer a course in this department to employed boys and girls or to people who wish only to take special work. It is expected that a number will take advantage of this offer. The only cost will be that of books required in the course.

Asked about the expected increase in attendance, Supt. Hamilton declared that it would be 14 per cent over that of last year. Statistics compiled in his office show that for the past four years his rate of increase has held good.

MUCH MONEY FOR POULTRY EXHIBITS

More Than \$2,700 in Prizes For Poultrymen at the State Fair

(Special to News.)

Raleigh, Sept. 8.—A. G. Oliver, State poultry extension agent, has gone and done it. He has gathered together some \$2,700 in prizes for the poultry division of the North Carolina State Fair to say nothing of five hundred dollars that are offered members of the boys' and girls' poultry clubs.

That would be a sizable achievement in itself, but Oliver has gone more. He has gotten more than a thousand dollars for the special classification that is open to all owners, and some of the biggest and best poultry breeders in the country have entered exhibits for the fair. Of course, they have an eye out for some blue ribbons and honors, but the money is also a real attraction.

General Manager E. V. Waiborn, who has been going to state fairs over the country for quite a while says that the poultry show this year will be just about the best of any of the state fairs. And he denies that he is trying to "string" anybody, for for what are known to the trade as "string" fowl exhibitors are barred from the State Fair. By "string" poultry shown is understood those exhibitors that the fairs pay to get.

No inducements are being offered to anybody at the State Fair except those contained in the premium list. The special classification is open to every club boy and girl in North Carolina on the same basis as that of the biggest breeder in the country. That "Tar Heel" boys and girls can raise good chickens is indicated by the fact that one of them pulled down one of the big prizes at the Madison Square Gardens Show in New York last year.

But the prize money, more than \$1,600, is reserved for the regular classification which is confined to North and South Carolina, Georgia, Virginia and Tennessee. There are some fine poultrymen in these states, and they will be on hand for the show this year.

Miners and Operators Have Signed Agreement

ARE PILING UP DEAD IN STRICKEN LAND

Japanese Soldiers Arrive and Take Charge of Situation

London, Sept. 8.—(By the Associated Press.)—With a ring of bayonets extending around the gigantic shambles where a week ago Tokio and Yokohama were in flames, teeming millions of Japanese are feverishly piling up the dead and clearing a way through the ruins and buildings and erecting temporary structures to house the homeless who are encamped at once to the steel company warehouses were buildings. This ring of bayonets backed by Japanese soldiers symbolizes the power that saved Japan after earthquake, flood and fire had laid waste one of the richest and most thickly settled sections of the island empire—and the district where all foreigners lived.

Immediately after the first shock a week ago, a long line of khaki clad troops marched towards the stricken districts from the barracks which topped many of Tokio's hills and knolls and provisional headquarters were set up around the capital.

Grants 10 Per Cent Increase in Wages To Miners And 8 Hour Day

BASED UPON PINCHOT'S OFFER

Harrisburg, Penn., Sept. 8.—(By the Associated Press.)—Anthracite operators and miners signed a new contract at nine o'clock tonight agreeing upon wages. It was suggested that the new agreement would be presented at once to the steel company representatives in session.

The proposed new contract covers two years. The steel committee was called at once to approve it.

The agreement would make the new contracts expire August 31, 1925. Besides approval by steel committee it requires ratification of miners of three districts in the anthracite fields before the present suspension of miners can be ended.

Provisions of the new agreement drawn up in conference which continued throughout the day were based generally upon the four points of the settlement plans suggested by Governor Pinchot when he called representatives of both disputants together last week. They included a 10 per cent increase for all mine workers, the eight hour day, and recognition of the union and of the principle of collective bargaining.

CO-OPS IN LENOIR SELL MUCH TOBACCO

From 50 to 60 Thousand Daily at Smithfield Ayden

Raleigh, Sept. 8.—The Tobacco Growers Co-operative Association established a new high record in deliveries for reason during the past week when over seven and a half million pounds reached the co-op floors in the South Carolina and Eastern belts.

Several Eastern markets of the big cooperative recorded the largest receipts in their history last week when Lenoir county co-ops flooded their warehouse floor on Friday with 100,000 pounds of tobacco and deliveries for a single day ran as high as 80,000 pounds at Richlands and from fifty to sixty thousand pounds at Smithfield, Ayden and Fremont. The Eastern Carolina co-ops brought in two million pounds of tobacco, according to A. V. Bobbitt, association warehouse manager for that district, who states that new members are signing up at many points.

According to Mr. Bobbitt, the first cash advances by the association are averaging over fifty per cent of the prices being paid on most of the auction floors, the advances on the better grades being particularly advantageous to the organized farmers. The biggest gain in membership from North Carolina is now coming to the Association from the Eastern counties, particularly Duplin, Sampson and Pender, where the average of the markets last week was reported as only a few dollars ahead of the first cash advances being paid by the Co-operative Association.

One Duplin County grower is reliably reported to have "lucked" a sixteen days ago, it was said, Manager Duncan slaughtered a gravenoise rabbit under a full moon. He then carefully cut off the animal's left hind foot and put it in the Capitals' supply bag according to the information that seeped through from secretary yesterday. A few days later "Jumbo" Barrett, first baseman for the locals, found a horse shoe, which he has been carrying with him continuously with the exception of the time he is on the field playing, during which time he loans the shoe to the pitcher, drawing the hurling assignment for the game. The pitcher always totes the horseshoe to the mound with him.

Since the two proverbially good luck signs have been with the club the Capitals have won fifteen out of sixteen games played, winning the last six straight encounters climbing from the second division near the bottom of the league to within one game of the top. Indications say local fans now are pointing towards victory for the Capitals for the last half of the present season.

The season's play will end September 15 and the post season series is expected to begin September 18. It has been announced that the first series of games in the postseason group will be played at Greensboro, home of the winners of the first half of the season.

SUIT FILED

Suit to collect \$1824.41 from W. B. Martin and Geneva Martin, was filed yesterday by the Goldsboro Grocery Company. The Grocery Company in its complaint alleges that the defendants on March 22, 1923, accepted a note for \$2071.33 in their favor and that to date only \$250 has been paid on the note.

Lightening Damages St. Paul's Steeple

The steeple of St. Paul's Methodist church was slightly damaged about 2:30 yesterday afternoon when struck by lightning during the storm that wracked the city. Brick and cement work of the steeple was torn loose, but the chimes inside the cupola were said to have escaped damage. Hundreds of people in the business district of the city saw the happening.

BABBITT-FOOT HAS TURNED THE TRICK

Duke Duncan Says It Has Rejuvenated His Team

Raleigh, Sept. 8.—Baseball fans throughout the Piedmont league probably have been wondering what Duke Duncan, manager of the Hamilton Capitals, has done to instill in his men the pep and fight that has characterized their playing recently. For three weeks the mystery has remained a secret, but yesterday it was divulged.

Eighteen days ago, it was said, Manager Duncan slaughtered a gravenoise rabbit under a full moon. He then carefully cut off the animal's left hind foot and put it in the Capitals' supply bag according to the information that seeped through from secretary yesterday. A few days later "Jumbo" Barrett, first baseman for the locals, found a horse shoe, which he has been carrying with him continuously with the exception of the time he is on the field playing, during which time he loans the shoe to the pitcher, drawing the hurling assignment for the game. The pitcher always totes the horseshoe to the mound with him.

Since the two proverbially good luck signs have been with the club the Capitals have won fifteen out of sixteen games played, winning the last six straight encounters climbing from the second division near the bottom of the league to within one game of the top. Indications say local fans now are pointing towards victory for the Capitals for the last half of the present season.

The season's play will end September 15 and the post season series is expected to begin September 18. It has been announced that the first series of games in the postseason group will be played at Greensboro, home of the winners of the first half of the season.

Charters Granted

Raleigh, N. C., Sept. 8.—Charters have been issued to the following corporations by Secretary of State W. N. Everett:

Snyder-Hunter, Incorporated, Charlotte barber shop business, with authorized capital of \$50,000, of which \$10,000 has been subscribed by S. A. Hunter, Jr., J. Snyder and Mrs. Sadie Hunter all of Charlotte.

The Office Equipment Company, High Point, with authorized capital of \$25,000, of which \$25,000 has been subscribed by J. A. Morris, A. H. Henley, J. J. Dell and J. W. Fambrough, Jr., all of High Point.

Rockingham Paper Company, Rockingham, with authorized capital of \$75,000, of which \$25,000 has been subscribed by W. H. McCall, P. L. McCall, Henry C. Wall, J. P. Harbough, Clade Gore, A. G. Corpening, John L. Everett, all of Rockingham.

The largest peach orchard in the world is in Arkansas.

IRELAND JOINS THE LEAGUE OF NATIONS

Spontaneous Demonstration of Friendly Greth Advent of New Members

Geneva, Sept. 8.—(By the Associated Press.)—An impressive demonstration of welcome and friendship featured this evening's meeting of the League of Nations when by the unanimous vote of the membership, Ireland was recommended for admission. On Monday she will become a part of the league by the formal action of the commission.

Representatives joined in a spontaneous demonstration of good will and best wishes for Ireland and her future prosperity and happiness. England, France, China, Persia, and the spokesmen of other lands participated in the demonstration of friendliness.

Thus the most palpitating week of the history of the League ended in general rejoicing in good prospects of settlement of the Greek-Italian settlement with the cooperation of the league, but with the conviction that the conviction that the question of the league's competency to act in such crisis must be settled for once and all.

The issues at stake are regarded as clear. Italy, a member state has declined to recognize that the league has authority. Delegates of many countries said that if this defiance of the covenant is allowed to stand, international prestige of the organization is imperiled if not lost altogether.

Samuel Gompers, the veteran president of the American Federation of Labor, was his 15 years old when he took out his first union card.

MAKING PLANS FOR GREAT FAIR WEEK

The Greatest Week in Wayne County History Is the Slogan that Fair Officials have Adopted for the Wayne County Fair, October 20th to November 2nd

The greatest week in Wayne county history is the slogan that fair officials have adopted for the Wayne county fair, October 20th to November 2nd. Field crops, poultry and livestock exhibits by the hundreds have already been secured, says a circular, and work of equipping the buildings begun. A special feature of the Fall this year will be the school exhibits.

"Every minute of the week will be full of interesting happenings and the premium list is more attractive this year will be the school exhibits. Preparations are being made to entertain the hundreds of visitors who will be in attendance from the surrounding towns and counties.

The racing program will be superior to any ever presented and the free attractions, consisting of high wire and trapeze performing, dog and pony shows, high jumping horses, fireworks and other sensational features have been contracted for. The midway consisting of thirty full length cars, equipment will offer all of the latest riding devices high class educational and instructive shows and clean and

CUMBERLAND RATE \$1.38

Fayetteville, N. C., Sept. 8.—Cumberland county's tax rate for the year 1923-24 has been set by the county commissioners at \$1.38 per \$100 valuation, apportioned as follows: Schools, 76 cents; county 15 cents; bonds, 30 cents; pensions 2 cents; roads 15 cents.
