

MADE SEVEN ENTRIES IN CITY THIS WEEK

SOULS GREAT BUSINESS OF CHURCH BACK ON

Took Pistol, Saw Clothing, And Grit Porter

Entered Hardware By Climbing Water Spout To Third Story

An unidentified party or parties entered the home of Griff Porter on East Walnut street between 2 and 3 o'clock yesterday afternoon and stole a pistol, a dinner ring, small articles of clothing, and some small change.

This is the seventh time this week that a Goldboro home or business has been entered.

All evidence points to the fact that the burglars are being carried out by a lone man who has some of the ear marks of an expert third story climber.

A noticeable thing about each of the instances has been that the burglar seems to be intent on getting cash. He will go to an end of trouble to get into a building and then will content himself with a petty piece of work.

The items and stores entered this week are as follows:

Parrot-Creech Store—Sunday night.

Handley-Stallings Hardware Company—Thursday night.

H. H. Hobbs Home—Friday afternoon.

Farley's Department Store—Friday night.

Griff Porter Residence—Saturday afternoon.

The Parrot-Creech store was entered by means of prising open the back door. The prowler is said to have prised open the cash drawer and not finding any change to have left without taking any merchandise.

The most spectacular entry was that made into the Smith Hardware Store on Tuesday and Thursday night.

In this instance an entrance to the store was effected by climbing a water spout on the back of the store to the third story window, raising the window and climbing in. Members of the firm thought that the prowler got through \$40 and \$50 worth of small hardware, mostly pocket knives.

On Thursday night the prowler also entered the store of the Handley-Stallings Hardware Store. Firm members here were not able to say whether or not any goods were taken. A second attempt was made to enter this store on a subsequent night, but the means employed for getting into the building the first time had been closed.

Friday afternoon came Mrs. H. H. Hobbs, discovered a negro in her home about 4:30 o'clock, and Friday night G. S. Sasser, returning to work in the Farley's store for some night tanks found a negro concealed in the building. The negro was armed with a pistol and hatchet, and after escaping to the upstairs walked across the Handley-Stallings building and escaped down some wires on the building within the last two weeks the wholesale grocery firm of Jeffreys and ...

forced his way into the building by a back entrance and prised open the cash drawer, securing a little change.

It will also be recalled that the firm of A. A. Joseph was entered several weeks ago.

WAYNE HAS AUTO FOR EVERY 6 INHABITANTS

Wayne county—in thirty-ninth place in the list of counties of the state—has one automobile for every 6.6 inhabitants in the county, according to statistics printed in the University News Letter. This is one-tenth above the average for the State as a whole, which is one car for every 6.6 inhabitants. The statistics give 7,073 automobiles for Wayne, and were taken from the State Department of Revenue figures. Statistics as to inhabitants were based on 1923 counts.

Gulfport leads all other counties in the State with 22,451 cars, which is one motor car for every 3.8 inhabitants, while Yancey county stands at the bottom of the list with 607 automobiles for every 26.7 inhabitants. The average for the State is one car for every 6.5 persons, but at the present rate of purchasing cars, the State will average one to the family by another 12 months, says the bulletin, taking five as the number of the average family in the State.

According to this average, Gulfport has considerably more motor cars than she has families. The entire population of Gulfport could go to ride at once, and leave enough cars at home to carry the population of any one of the smaller counties of the State.

Mecklenburg is second in motor cars with 20,912, and also second in inhabitants per car with one car for every four inhabitants. Wake county stands fifth in both counts with Rowan holding third place and Lincoln fourth. Wake has 16,445 cars which is one car for every 4.8 persons. The ...

of the list which includes in addition to those named above, Buncombe, Caldwell, Lee and Henderson average a motor car or better to a family.

Eight mountain and two tidewater counties comprise the 10 counties that foot the tabulated list. Yancey ranks last with approximately five families to the motor car, but Yancey averages almost as well as the State averaged at the end of the prosperous year 1919 when 100,000 cars were listed in the State.

DIES OF INJURIES

ABHEVILLE, Aug. 8.—(AP)—James W. Redmond, 60 year old, well known resident of Madison County, died here today in a hospital which he entered several days ago for treatment of injuries he sustained when struck by a Southern Railway train at Marshal. The body will be carried to Mr. Redmond's former home in Madison county where the funeral and interment will take place Sunday.

SOMETHING MUST BE DONE

Something must be done about the burglaries which are being perpetuated in Goldboro. Seven successful attempts at breaking and entering in one week in a city of this size are entirely too many.

A few more days of such successes on the part of the prowler or prowlers and the good women of Goldboro will be afraid to remain alone in their homes.

Nine policemen for a town of this size is insufficient, as The News has pointed out in a previous issue.

We cannot afford to allow the small matter of the salaries of a few additional policemen stand between the citizens and that feeling of security to which he is entitled in his home.

SOMETHING MUST BE DONE.

TOBACCO MEN TO LEAVE FOR SUNDAY SCHOOL ASSN TO MEET

Market Will be Opened on Tuesday; Short Crop This Year and Good Prices, Expected

Tobacco men from Goldboro and other Eastern North Carolina points will leave tomorrow and Monday for points in South Carolina where the tobacco market opens Tuesday. Many of the tobacco markets on the border of South Carolina and located within the state of North Carolina will also open Tuesday.

A number of the men who went from this city and vicinity to the opening of the Georgia markets will travel Northward to the South Carolina trade markets are: Fairmont, Whiteville, the markets in South Carolina belt which will open tomorrow are: Andrews, Conway, Darlington, Dillon, Florence, Johnsonville, Kingstree, Lake City, Lamar, Loris, Lake View, Manning, Marion, Mullins, Nichols, Olanza, Pamplico, Sumter and Timmonsville. The border markets, located in North Carolina but opening on the same day as the South Carolina markets are, a firmont, Whiteville, Lumberton, Fair Bluff, Clarkton, Chadbourne and Tabor.

Approximately 50,000,000 pounds of tobacco are expected to be sold on the South Carolina markets this year. There is approximately 72 per cent of last year's production available in South Carolina this year, and prices are expected to be somewhat higher than last year's, a larger crop was available to choose from.

Last year a production of 70,863,712 pounds. Of this amount 19,721,071 was pooled. This year the "pool is out" and about the same amount of tobacco is expected to be handled by the warehouses as last year.

Activity of the local market will begin four weeks after the opening of the South Carolina market or September 7. Preparations for the local opening are being made now.

Women live longer than men because of the sheltered lives they lead, a London specialist declares. He points out that of a total of 383 deaths of persons over 100 years old, 278 were women.

HEAR WITNESSES IN MURDER CASE

Answers of Four Who Appear in Hall-Mills Investigation Kept Secret

SOMERVILLE, N. J., Aug. 7.—(AP)—Four witnesses were questioned today in the revived Hall-Mills murder investigation. State Senator Alexander Simpson is in charge of the investigation Jersey City made no announcement of the nature of the answers given by the witnesses.

Mrs. Kathryn Russell of New Brunswick, one of the witnesses, testified in the first investigation that she was walking along the New Brunswick street about the time of the murder of the Rev. Edward Wheeler Hall and Mrs. Eleanor Mills in September, 1923 and was picked up in the automobile of Ralph M. Goresline and taken to her home.

Senator Simpson and Capt. J. Lamb of the State police said yesterday that a warrant for Goresline's arrest as accessory after the fact had been issued.

Deputy T. Conklin, former sheriff of Somerset county, was questioned about the finding of the bodies of the "love notes" found beside the bodies were picked up by Conklin.

District Judge James A. Bowers, former prosecutor of Somerset county, made a similar statement yesterday that he had been in possession of evidence in the case. Senator Simpson alleged yesterday that important papers and Dr. Hall's cuff links had been given to the warden of the Somerset county jail. Mrs. Hall, out under bail on charges of the murder of her husband, spent the day quietly in her New Brunswick apartment.

MEMORY GONE FROM EXPLOSION

Two Men Who Were at Arsenal Fire Turn up in Toledo

TOLEDO, O., Aug. 8.—His memory gone and his nerves unstrung, Oliver Bliss, 28, of Waterville, Ohio, was at home today trying to piece together events since July 10 when lightning struck the Pickett army arsenal at Lake Denmark, N. J. With him, blindly groping through the haze of a lost memory Paul Morey of New Britain, Conn., was sharing hospitality of the Bliss home.

The two men, both shell-shocked were found at the Interurban station by Bliss' father. First indications that the men were in Toledo came when a cousin reported he had seen Oliver on the street.

When found Bliss denied his identity and threatened to arrest his father if he continued to molest him. It was an hour before he recognized any of his relatives. Neither of the men would say how they got to Toledo, but the father said they walked, Oliver had \$1.75 in his pocket.

Discusses Journalism As Power for Peace

WILLIAMSTOWN, Mass., Aug. 8.—(AP)—A. J. ...

and his power for international peace and for the spread of public welfare were described in an address today by Kent Cooper, General Manager of the A. P. at the Institute of Politics. He said the history of today is found in newspapers and that it is upon the facts presented by news dispatches that the judgment of 80,000,000 people is swung toward individuals and nations.

He related how the impressive picture of the allied troops as they marched in Paris in 1919 inspired the idea of an all inclusive journalism which was the faith that something could be done to bring to the people of this country a better understanding of conditions of life abroad.
