YARD CAMPAIGN COMES TO AN END

Mrs. Arthur Bell of Smith Chapel Wins First Prize Over 27 Contestants

The Yard Improvement contest was brought to a close yesterday at the home of J. R. Best, Belfast Community Poultry Association, Goldsboro, N. C., Route 2, when at the regular monthly poultry meeting prizes were presented to the winners in the campaign.

The first prize offered by Thomas H. Norwood was presented to Mrs. Arthur Bell of Smith Chapel, Mt. Olive, Route 2. She had improved both her back and front yard. The front yard was covered with grass. A curved walk of cement stepping stones, which she had made herself leads up to the front door. The underplanning of the house had been concealed by shrubbery. Going to the back yard you became inspired in carrying out her idea too. There you found hollyhocks, against a background of white lattice fence, a pergola made of log from the river, a bird bath of cement, also made by Mrs. Bell, the whole making a little formal garden which Mrs. Bell says gives her a bright cheerful greeting each morning. All this had been done for \$9.95 and for what else could that amount have been used to give more pleasure to all members of the family. Each member of the Bell family is proud of their home with its prize winning kitchen and yard.

With \$4.50 Mr. and Mrs. Roscoe Johnson of Rosewood, Goldsboro, Route 1, have done wonders. The yard has been filled in with good soil which is retained by a pretty stone wall made by Mr. Johnson and outlined by Iris. A curved flag stone walk leads up to the house around which we can see shrubs and flowers. On the terrace at the front, Verdure grows at will. The recent rains have brought life to the joint grass so that the lawn is also green. It is a place you would like to spend the day. To Mr. and Mrs. Johnson goes the second prize of \$15 offered by Mr. A. H. Edgerton.

Mrs. Bryan Bizzell also of Smith Chapel was among the winners having received the third prize of \$10 given by Mr. Edgerton. She had a hard problem but the results are gratifying. The Old Parker homestead again comes into its beauty with the improvements made during the contest. Grass adds much to the natural beauty of the large trees and with the flowers, shrubs and other improvements, it all makes up a lovely scene.

Honorable mention goes to Mrs. I. F. Smith of Rosewood, Goldsboro, Route 1, and Mrs. E. L. Peele, Nantux, Pikeville, Route 3.

MAY BUY FEED ON CO-OP PLAN

Announcement Made by Poultry Agent Brown at Meeting Yesterday

Members of the Wayne county poultry association may this fall adopt the cooperative system of purchasing poultry feeds, it was indicated by County Agent T. T. Brown in announcements made yesterday at the June meeting of the club with Mr. and Mrs. J. R. Best of the Belfast community.

The principal address of the day was made by Dr. A. H. Kerr of the county health department. He urged an adequate poultry flock and dairy cattle for every farm in the county, declaring that the cow and the hen could be used for better health and for more money.

W. M. Ginn, recent graduate of State College and a poultry specialist was introduced at the meeting and made a few remarks. The meeting was started with the spread of a bounteous picnic dinner at noon. The business session was held after the dinner.

DAWSON RESIGNS CHAIRMANSHIP DEMOCRATIC EXECUTIVE COMMITTEE

RALEIGH, June 24.—(AP)—John G. Dawson, of Kinston, tonight announced his resignation of the chairmanship of the State Democratic Executive Committee. He served four years. "The one reason prompting my resignation is" Mr. Dawson said "that my personal and professional matters need attention solely. "It does not seem that I should longer neglect them as to retain the chairmanship would necessarily mean. "At an early date I shall call the committee together to accept my resignation and name my successor."

Equalization Board May Be Asked Explain Its Course

RALEIGH, June 24.—(AP)—Resort to courts to secure a more equitable distribution of the \$3,125,000 school equalization fund was threatened tonight by Senator Pat Williams of Elizabeth City, who represented the first district composed of seven northeastern counties in the last Legislature. Senator Williams here today attended a meeting of directors of the Atlantic Joint Stock Land Bank. Others expressing themselves today as opposed to the proposed distribution of funds under the Wolitz act included J. H. Alexander, Jr. of Scotland Neck.

Mr. Alexander said he was at a loss to understand how the schedules for distribution were arrived at. Pasquotank and Halifax, two of the larger agricultural counties received \$4,000 and \$4,500 respectively under the board's distribution for this year. Other counties not heretofore received any money under the fund received more than \$20,000, those protesting pointed out.

PRISON MUTINY HAS COME TO END

Those Desiring Surrender But Not Those Wishing Still to Hold Out

LANSHING, Kan., June 24.—(AP)—A short furious battle within the ranks of the 328 mutinous convicts in the Kansas prison coal mine resulted in victory late today for the forces favoring surrender and ended the uprising. In the battle, about 270 men, driven by fear and hunger after seventy-seven hours of self imposed in incarceration 720 feet below ground allied themselves the 50 strike leaders and overpowered them. Shortly before the men announced their willingness to come to the top, Dr. Charles Huffman, chairman of the state board of administration, had assured a spokesman for the convicts over the telephone that "we can't promise you anything except that your demands will be considered fairly and impartially. The convicts' last night had served an ultimatum on the board, demanding more consideration for patrol and privileges under the rules.

PRINTING PRICES IN CAROLINA TOO HIGH, GOVERNOR SAYS

RALEIGH, June 24.—(AP)—Costs of public printing items in many other states are much lower than costs quoted by North Carolina printers in bids on the public printing for the next biennium, according to Governor McLean and Secretary of State Perrett, who based their statement today on information recently received.

On the basis of the information we have received the prices quoted in recent bids seem entirely unjustified," said Governor McLean. He said many other states quote lower prices than North Carolina not only on compensation but on binding. Meeting today, the state printing commission authorized Department of Labor and printing to go ahead with such printing for the coming two year period.

Two sets of bids on the state's printing have been received. The first was rejected. Frank Crist, commissioner of Labor and Printing, has not yet returned from a trip through several other states where he is inspecting methods of letting contract for public printing.

HE'S CHAMP DESERTER

BOSTON, Mass.—Louis Sanders wanted to see the world, but joined the army instead of the navy. He conceived the idea of deserting and re-enlisting elsewhere for a change of scenery. Finally arrested at Fort Andrews, Sanders is said by army officials to have enlisted and gone A. W. O. L. 43 times in the past two days.

GET NEW IDEAS ABOUT WORLD

Public Welfare Progress Reviews Service Being Performed by Industrial School

ROCKY MOUNT, June 24.—(AP)—Getting a new conception of life and learning to play and work fairly and squarely. That is what Public Welfare Progress, June issue published by the North Carolina State Board of Charities and Public Welfare, says the boys of the Eastern Carolina Industrial school for boys here are getting. The school had its beginning in 1923 and was opened in 1925 with R. T. Fountain, who introduced the original bill, as head of the board of trustees.

Samuel E. Leonard, the superintendent of the school, after overcoming many complications which arose in regard to the construction of the dormitory and the water supply, has now brought together a small and efficient staff and the state board finds the school is running in a fine way.

They have only a small plant at the school just a brick dormitory, building, the superintendent's cottage, which the boys helped to build, and some barns and sheds which were constructed mainly out of old sheds which were on the place when it was given to the state by the people of Rocky Mount.

Most of the boys who have been sent to the school have been truants. Because of that fact the school is being run on the "project plan" and every piece of work is planned by the boys who incidentally find that books are useful. By using half of the boys on the outside during the morning session, and the other half during the afternoon, the farm and house duties are kept up along with the school work.

Rocky Mount claims the school and the boys as its own, and the state board says there seems to be no end to the kindness shown to them. The boys have a victrola, a radio and a piano which were given to the school. A small library is growing by means of the interest of various individuals and organizations. Guess what the boys want now: an old-fashioned swimming hole. The plan is to dig one near a spring.

TILDEN MOVES UP ANOTHER STEP IN TENNIS TOURNAMENT

WIMBLEDON, Eng., June 24.—(AP)—William T. Tilden advanced another step in his march toward the singles final of the Wimbledon tournament today by a straight set victory over Christian Boususs, a young French player.

Mr. Taylor Thinks Outlook For Market Here Is Bright

Goldsboro will this season enter upon a new era in her history as a tobacco market, according to Dan W. Taylor, for four years in the warehouse business at Wilson. Mr. Taylor has leased the Currin Warehouse here for a period of five years and he did so, he told The News yesterday, because he believes that Goldsboro is destined to be one of the most important markets of Eastern Carolina.

"For many years I have closely followed the market of Wilson and I have seen it go through a cycle of thirty years ago Goldsboro had a chance to become a great market. The big companies wanted to make this city a big market, but some of the folks did not take to the idea so much—tobacco was a new crop then. Now it is different.

"For the past few years, tobacco bought on the market here has had to be shipped out for final purposes, but now with the Ardath Tobacco company of Great Britain having purchased the re-drying plant, that will be changed. We will do the re-drying right here, and that means that Goldsboro will be paying the top price for top-grade tobacco. For the Ardath people are known as going in extensively for the best grades. I expect to see a great many bring their tobacco from other counties and sell it here this year."

Geneva Hears Japan Intends Feel Out Attitude Of United States Concerning Matter

JUNE PAYMENTS SHOW INCREASE

Wholesale Prices Remained The Same Last Week as Previous Week

RALEIGH, June 24.—(AP)—The dollar volume of trade during the third week of June as indicated by check payments, although less than in the previous week of 1926, according to the weekly statement of the department of commerce made public here today. Wholesale prices remained the same as during the previous week, but were still well below the level of a year ago. Prices for cotton declined slightly, while wheat prices advanced.

Loans and discounts of federal reserve member banks were substantially larger than in either the previous week or the corresponding week of last year. Interest rates on time money also averaged higher than in either the preceding week or a year ago. Bond prices again declined as compared with the previous week, but were higher than last year. Stock prices showed little change.

Interest rates on call loans, although higher than in the same week of 1926, were lower than in the preceding week. Loans to brokers and dealers by federal reserve member banks in New York City, secured by stocks and bonds, continued to expand. The federal reserve ration, however, although slightly lower than in the preceding week, was higher than in the corresponding week of last year. Business failures were less numerous than in the preceding week and were practically the same as in the same week of last year.

Production of bituminous coal during the week ending June 11, was higher than in the previous week but less than in the same week last year. The output of lumber during the same week showed like comparisons with both prior periods. Beehive coke output was lower than during either the preceding week or a year ago. The production of crude petroleum was almost as great as when the new high level was reached during the first week of June. Freight carloadings continued to show a large distribution of goods, although less than a year ago. Receipts of cattle in the principal markets were smaller than a year ago, while hog receipts were greater.

PRISON CLOSES ON BAD BANDITS

Ashland Burns Autremont Brothers in Effigy, Recalling Old Crimes

SALEM, Oregon, June 24.—(AP)—Prison gates closed on the three de autremont brothers here today as they started serving life sentences for four murders committed in a train hold-up of October 1925.

While they were being put through prison routine and given their prison garb, they were hanged in effigy in Ashland, not far from the scene of the crime which each of the brothers confessed.

Popular feeling at Ashland, home of a Southern Pacific brakeman, one of the four men killed in the hold-up, stirred several hundred citizens to participate in the hanging, in which dummies labelled "Ray, Roy and Hugh" were strung up. Ashland people were indignant because the brothers had escaped death sentences.

CONTRACT LET BURLINGTON.—(AP)—Contract for erection of the boiler house at the National Dye Works has been let to Potter and Schackelford, Greenville, S. C.

Think Japan Would Like United States To Let It Be Known Whether Or Not Pact Might Be Considered; President Coolidge Pleased With Start of Naval Limitations Parley

GENEVA, June 24.—(AP)—The possibility that the American Government and people may soon have to decide whether they wish to negotiate a perpetual peace pact with Japan is now looming as an outgrowth of the naval conference here.

The Japanese delegates to the conference deny that they have made any overtures on this subject and Hugh Gibson, head of the American delegation, made a similar denial but the impression, nevertheless, prevails in authoritative circles that Admiral Saito, head of the Japanese delegation, and a close counselor of the Emperor, may suggest some sort of treaty outlining a way between Japan and the United States to supplement the four-power pact which was reached in the Washington conference as a substitute to the Anglo-Japanese alliance.

It is believed that before making any overtures officially, the Japanese would want to receive some assurance that such overtures would have a reasonable chance of meeting favorable consideration. In this connection it is felt that the conclusion of such a pact, perhaps along the lines of the suggested Franco-American treaty, might influence Japan's attitude in her demand for a higher percentage in auxiliary warships than the 5-5-8 ratio established at Washington for cruiser ships.

It was said today at the summer White House that Mr. Coolidge is watching the conference with keen interest and that he considers it commenced under auspicious circumstances.

While the conference is in progress, however, the President desires to maintain silence as to details of the Geneva transaction, because he has found that sometimes his informal expressions are known abroad.

The visit here of Representative Tilden of Connecticut house leader, has left the situation regarding a special session of Congress unchanged until there is a formal indication from the White House that a special session is under consideration. Mr. Coolidge was represented as believing it safe to say that none would be called.

RECALL MORE U. S. MARINES

500 Will Leave Nicaragua Once And Others Will Follow in Time

WASHINGTON, June 24.—(AP)—Immediate recall of 500 Marines in Nicaragua in line with the plan for withdrawal of the American expeditionary forces there was ordered today by the navy department.

The submarine tender, Argonaut will bring the men to the Chesapeake, Virginia Marine base. The vessel is scheduled to return to Nicaragua at once and if conditions there warrant it a second force of 400 men will be taken to San Diego, Calif. If conditions are still favorable, a third withdrawal of 600 Marines is contemplated. This would reduce the number of Marines in Nicaragua to about 3,000 men.
