DETROIT PLANE IN MUNICH--NO WORD OF REDFERN ROTARY OFFICERS 57th DISTRICT BEGIN MEETING TODAY

Appeal Made To Government Agencies And Countries Of S. America To Start Hunt

Round-World American Birdmen Reached Germany at 4:05 Yesterday
SUCCESSFULLY COMPLETE SECOND LAP OF JOURNEY
Aim to Break Existing Records of Circling Earth in 28.5 Days

MUNICH, Germany, August 29.—(AP)—America's latest trans-Atlantic fliers, William Brock and Edward Svehlec, have concluded the second lap of their round-the-world flight. The "Pride of Detroit" reached here from England at 4:05 o'clock this afternoon.

The fliers were in fine spirits and reported a satisfactory voyage, particularly so after the flight over the Atlantic ocean. Leaving London shortly after 8 o'clock in the morning, the plane flew before a favorable wind, but over Germany a sudden violent east wind arose which retarded their speed and their arrival was delayed. The welcome extended to the fliers was most enthusiastic. After the manner in which Chamberlain and Levine had been received in various German cities, the fliers were presented with a stein of beer as they stepped on land.

BRUNSWICK, Ga., August 29.—(AP)—Hope grouping at every straw tonight maintained the faith of the wife and friends of Paul Redfern that the young aviator had not paid with his life for the adventurous attempt to make the non-stop flight to Brazil.

WASHINGTON, August 29.—(AP)—Lack of naval vessels in the vicinity of the Redfern route makes it impossible for the navy to assist in searching for the lost aviator. Assistant Secretary Warner in charge of naval aviation notified friends and backers of the aviator in Georgia today. Intelligence was given, however, that the Coast Guard which had a number of vessels off the Florida coast, would lend aid. The cooperation of both the Navy and Coast Guard in a systematic search was requested today.

M'CLEAN TO LAY SANITARY GHOST

Report of Attorney General's Investigation is on Desk of Chief Executive for Action

The whitewashed tombstone of the turbulent sanitary graft probe lay on the desk of Governor McLean Monday morning in the form of several hundred pages of transcript of the evidence as heard by Attorney General Dennis G. Brummitt.

As no direct evidence of graft was given at the hearing, it is a practical certainty that all that remains of the charges and alleged charges which rocked the State towards the close of the Legislature will be a formal statement from the Governor dismissing the matter and clearing the skirts of the State Board of Health and its inspectors.

Senator Rivers Johnson and Dr. John B. Wright were mentioned as the principal allegers of graft at the time of the excitement. Just whether or not they actually made the allegations remains a moot point in the minds of many.

MILL OWNERS REJECT OFFER

Within Hour Turn Down New Proposition Made by Striking Workers

HENDERSON, August 29.—(AP)—A new proposal embodying terms on which the 800 striking operatives of the Harriet cotton mills promised to return at once to their work was presented this afternoon to directors of the mills and an hour later the committee that brought in the proposals received the reply of the officials rejecting the offer. L. L. McDade, of the strikers, said this evening that he did not know what else to do and that the committee had exhausted its resources in this direction and could not get the workers to go back without having something to offer them.

The conference at which the proposal of the strikers was considered by the directors of the mills lasted an hour. Considerations of it was asked in the petition and quick decision was given. The reply contained just thirteen words: "We regret very much to advise that your request cannot be complied with." This leaves the status of the strikers virtually as it was before and with still no sign of a break in the position that has been assumed by the mill owners, namely, that they were not in a position to grant the demands of the workers.

GENRIG PULLS UP

NEW YORK, August 29.—(AP)—Lou Gehrig pulled up to within one run of Babe Ruth today by getting number 41 with two men on base. He also played a single white Ruth went hitless in four times at bat.

Sampson Fails Appear For Kiwanis Club Talk

Paul O. Sampson, who had reported himself as a food expert, failed to make an appearance for an address at the local Kiwanis club meeting here last night and in the absence of the scheduled speaker an impromptu program was carried out, a program in which plans for the Kiwanis concert at Smith's Chapel this evening were made.

Sampson is the man who recently in Raleigh was attacked by Dr. G. M. Cooper of the State Board of Health as purporting to represent an organization which could not be located. Names of two of the sons of Sampson were given as directors of the company on its stationery, Dr. Cooper also charged. Following the making of these allegations, Sampson failed to appear for an address at Smithfield and again failed here last evening. He gave no explanation of his failure in either instance.

Vice-president C. B. Miller presided over last night's meeting in the absence of President Taylor. It was urged that all Kiwanians, attend the Smith Chapel concert tonight in the interest of the Goldsboro tobacco market.

A special musical program was carried out with Mrs. Barham at the piano and Prof. K. B. Hurst at the violin.

GRADY TALKS TO MASONIC GROUP

Decries Condition of Courts Which Allowed Postponement Sacco Execution

Grady and Vanzetti would years ago have paid the penalty for their murder had they not been backed by a powerful organization able to raise finances for their support, Judge Henry G. Grady, speaking before a joint meeting of the Wayne and Goldsboro Masonic lodges, declared here last evening. Judge Grady decried a condition which could exist in the courts of one of the oldest of the States of the union under which money could keep justice being done over a period of years.

Mention of the famous case came in the process of relating what an influence Masonry could have in sponsoring a true American citizenship. Judge Grady, continuing to show the need for some influence which can check the modern crime tendencies, cited statistics which have of late been going the rounds of the press to the effect that each year crime costs in the United States, the sum of ten billion dollars. He recalled also that one-third of the men called for service in the United States army during the World War were found to be unfit.

Masons were urged to throw their entire influence toward correcting these distressing tendencies of modern day life.

Judge Grady's remarks along this line had preceded a citing of Masonic history in general. He differed with some reports that incidences of Masonry could be traced to King Solomon's temple.

A number of visitors prominent Masons from nearby points were present for the address. Among those making remarks were: Rev. Mr. Baker of Mt. Olive, district deputy grand master, Patton, D. P. Smithwick of LaGrange, Fred R. Crowson, potentate of Sudan temple; and R. R. Morgan.

PRESIDING OVER ROTARY CONFERENCE

LUTHER H. HODGES
District Governor Hodges, of Lenoirville, Tenn., will call the vast committee of the Fifty-Seventh district into session at 9:30 here today and will head the two-day program of the conference. Governor Hodges recently returned from Ostend, Belgium, where he attended the Convention of Rotary International.

Insurance Covers Part \$35,000 Mt. Olive Five

Having counted the cost of its \$35,000 fire which early Sunday morning visited three establishments in the business section, Mt. Olive yesterday began preparations for the resumption of normal business in the stores damaged. The loss was partially covered by insurance, advices from the Mt. Olive Tribune last night said, and were largely confined to the general merchandise store of M. W. Pope.

Originating in some undetermined fashion in the Pope store, the flames had gained considerable headway when discovered and Mt. Olive's fire fighters did valiant service in practically confining the flames to the Pope store, it was said. Damage to Gay Brothers, The Mt. Olive Drug Company and Andrews Drug Company was in the main due to smoke, it was said. The building which suffered most was the property of Y. H. Knowles.

18 DIE IN BARRACKS FALL

LEGHORN, Italy, August 29.—(AP)—The military barracks collapsed today burying a large number of soldiers. Eighteen were taken from the ruins dead while 32 were injured.

State Board Health Is Freed of Charges

RALPH CITY, August 29.—(AP)—The last chapter of the investigation into charges of graft in administration of the state sanitary laws was written today.

Governor McLean made public Attorney General Brummitt's report on the hearing that the latter found so evidence that graft had been practiced.

"It is very heartening to know," the chief executive told the Attorney General, "that after exhaustive investigation you were able to find no evidence showing any graft or unlawful conduct on the part of any employee of the State Board of Health. I am sure you were with me that the administration of this great vital branch of our government must be above suspicion."

District Governor Hodges To Preside Over Sessions Starting At 9:30 This A. M.

WILSON LADY BADLY HURT

Stepping From Speeding Automobile Mrs. C. H. Duke is Unconscious as Result of Fall

Mrs. C. H. Duke, of Wilson, was brought to Spicer's Sanatorium Sunday afternoon, for treatment, as the result of injuries sustained in an accident on the Wilson highway, Sunday afternoon about 1:30.

Mrs. Wilson, together with her husband, who is a brother to Mr. C. G. Duke, of Goldsboro, and several children, were on their way from Wilson to Goldsboro to spend the afternoon with relatives here. When about six miles out from this city, the radiator hose on their car, a Studebaker light six sedan, suddenly burst, causing great clouds of steam and boiling water to escape and splash back against the windshield of the car. The driver, a son of Mr. Duke, immediately applied the brakes, in an effort to slow the car down to a stop, while Mrs. Duke who evidently thought the car was on fire opened the door, so as to be in readiness to get out as soon as the automobile was brought to a standstill. It is thought, however, but her foot much have caught on the door latch, causing her to fall out to the pavement on her face with great force while the car was moving. Mr. Duke jumped out quickly and ran back to where Mrs. Duke lay unconscious on the highway, picked her up, and carrying her back to the car. She was rushed to the Spicer Sanatorium, where she still remains in a serious condition, according to information received last evening.

Levine's Take-Off Sets France Talking

PARIS, Aug. 29.—(AP)—Charles Levine's hop-off from the flying field here to London in his airplane, Columbia, was the talk of Paris tonight. All the afternoon newspapers string great headlines across front pages to let the public know that the Columbia had flown from her coop leaving behind Maurice Droukin, French aviator who had expected to go with Levine and leaving him with no chance of achieving his ambition to fly to New York with Levine. Even those who have openly expressed a dislike of Mr. Levine's method of getting ready for the return flight home complimented him on his cleverness on slipping away unannounced as pilot of the plane in which he was supposed to go as passenger.

SAYS STATE LABOR GROUP DIDN'T KNOW

ASHEVILLE August 29.—The N. C. State Labor Council today announced that it had no knowledge of the strike of 800 operatives of the Harriet cotton mills at Henderson, until after it had been called, according to H. C. Caldwell, president of the Asheville central labor union.

Caldwell made this statement today in commenting upon charges made throughout the State that the Federation of Labor was responsible for the strike. The Henderson operatives, he declared were members of no union, and organized their own strike. Since the strike has been called, Caldwell said, organized labor throughout the State was interested in the success of the strikers, and were willing to help them organize.

Delegates Begin Arriving in City Late Yesterday Afternoon

BRIDGE LUNCHEON FOR LADIES THIS MORNING

Many Rotary Members Will Appear on Program During Two Day Session
