PRICE FIVE CENTS

300,000 POUNDS SOLD IN GREATEST OPENING HERE

OLD GLORY WELL ON HER WAY NON-STOP FLIGHT TO ROME

Price Somewhat Under That Paid At Opening Last Year But Approximates 20 Cts.

Auctioneers Do Not Finish With Piles in Big Brick on Opening Day

CURRIN OPERATORS GET ADDED HOUSE SPACE Arrange for Space in Wayne Bonded Warehouse to Take Care of Offerings

Goldsboro yesterday experienced the greatest sales in the history of the tobacco market here. Auctions had begun in the morning in the Big Brick warehouse and although an estimated sum of 300,000 pounds was sold, a portion of the house remained to be auctioned this morning.

The price paid was lightly off of the opening price of last year—a condition also reported as existing on the Wilson market, according to the Wilson Times—but the price for fair offerings averaged about 20 cents. There were a number of sales for 40 cents, but the average was probably about 20.

About an hour will be needed to clear the Big Brick this morning, it was thought, and then the auctioneers will proceed to the Timberlake House.

Fully 600,000 pounds of the first day's offerings are still in the city to be sold. Dan W. Taylor of the Taylor Brothers estimated last evening that his house has 300,000 pounds under obligation already within the city and in order to take care of great loads of the golden weed already here, Mr. Taylor arranged to secure any portion of the Wayne Bonded Warehouse which may be needed.

Unloading of the weed and preparations for sales at the Bonded warehouse will go forward this morning, Mr. Taylor said. He estimated that there already was a sufficient amount offered to take up a great part of 95,000 additional square feet of floor space arranged for at the Warehouse.

The Timberlake house was jammed to utmost capacity and the annex, a huge garage next to the City Hall on North Center street, was also loaded to the lees for the second sale today. It was doubted whether the auctioneers would be able to sell out the Timberlake house, and entirely clear the Currin today.

The additional 95,000 square feet of floor space secured by the Taylor Brothers, operators of the Currin House, and the additional facilities provided in the annex to the Timberlake house, facilities arranged for since the first of the week, bring total floor space of the Goldsboro market to beyond 265,000 square feet as against 151,000 square feet when the market opened.

HALEIGH, Sept. 6.—(AP)—Available tobacco sales tonight showed that at least 10,500,000 pounds were offered on the floors of 60-odd warehouses in the section.

An early average price showed around 20 cents to be a conservative estimate. The better grades will be offered later.

Last year the bright belt sold 212,000,000 pounds at an average of 25.53 for the crop. This year's estimated crop of 421,000,000, all hands predict, will bring at least as good a price and probably better.

The four largest markets of the section, Wilson, Greenville, Kinston, and Rocky Mount, in today's opening handled over 10,000,000 pounds. Will (Continued on Page Two)

Goldsboro Preacher Robbed in New York

"Will be home Saturday, but may have to walk," was the word which friends here received yesterday from Rev. R. E. Brown of the Goldsboro Methodist circuit, who with Mrs. Brown, has been spending sometime in New York City, Mr. Brown may have to walk, he explained, because of the fact that thieves entered his hotel room, stole all his money, and all clothes of himself and Mrs. Brown that had been left in the room.

FREMONT YOUTH DIES SUDDENLY

Was on Operating Table For Minor Operation When Death Came

(Special to The News)
FREMONT, Sept. 6.—Thomas Whitely, 18, son of the late Henry T. Whitely and one of the most popular young men of this place died in Wilson this morning while undergoing a minor operation.

Young Whitely was preparing to enter the University of North Carolina this fall and had been advised to have his tonsils removed. In the highest of spirits and youthful exuberance, he had gone early today to Wilson for the operation. A few hours later came back the sad word that he had died on the operating table.

As an athlete with the Fremont high school team, Whitely had distinguished himself in basketball and in football. Last year he was a student at Fyehurn Military Academy and here again he brought honor to himself.

He is survived by his mother, Mrs. Lizzie Whitely, and by his grandmother, Mrs. Laura Aycock.

Funeral service will be conducted at 5 o'clock Thursday afternoon.

BANDITS ARRESTED

BOONE, Sept. 6.—(AP)—Tory Cannon said to be one of the two bandits who on Monday held up and robbed the Valle Crucis bank was captured late last night at the home of his father, Arthur Cannon just across the North Carolina line in Tennessee and was brought back to Boone today.

New Hope For Redfern As Ship's Story Is Examined

BRUNSWICK, Ga., Sept. 6.—(AP)—Belief among the backers of the Redfern to Brazil flight that Paul Redfern the youthful aviator, is safe somewhere on the South American continent, has been strengthened by the elaboration of the story that the plane was seen over the Venezuelan coast by the crew of a Norwegian steamer.

Although there is a discrepancy of day between the time the officer of the Christian Krogh said they saw the airplane and natives reported seeing it flying across Orinoco river delta, friends of Redfern believe the dates somehow have been confused and that the planes were identical. If this is true then Redfern, after learning the direction of land, from the steamer, flew straight to Venezuela as related, and reaching the coast line, continued southward. His backers believe he landed somewhere along the coast and did not attempt to fly inland.

Meanwhile Dr. Fredrick C. Redfern, Columbia, S. C., father of Paul, was considering whether to join an expedition which is planned to make

TRYING OUT RUN MUSTANG PONY

Hardrock Simpson of Burlington Runs Through City En Route To Morehead City

Goldsboro had a glimpse of a race yesterday novelty of which in this day of automobiles and airplanes was very striking. About six o'clock a small horse was seen trotting through the streets and just behind was a runner in shirt and trousers trotting as the his life depended on it.

Investigation revealed that this was a part of the second day out from Burlington of an endurance race between the man and horse as to which could travel from Burlington to Morehead and back the quicker a \$5000 purse to go to the winner. The runner's name was Paul "Hardrock" Simpson, a student at E'con College. Owen Fancette rode the Texas mustang.

Occupants of one of the two automobiles accompanying the racers told The News reporter that at one place "Hardrock" had run twenty-four miles without a rest. In another stretch, coming into Durham he had traveled 36 miles in 4 hours and a quarter.

The competitors left Burlington Monday morning at nine and arrived at Raleigh where they spent the night at eight o'clock, a distance of 66 miles.

The whole distance to be traveled is 175 miles each way or a total of about 350 miles.

It was said that Simpson would be an entrant in the trans-continental race planned for next March.

DORMITORIES AT HILL FULL

More Than 1,400 Students Assigned to Fifteen Dormitories

CHAPEL HILL, Sept. 6.—All rooms in the University of North Carolina dormitories have been filled, according to announcement today from the office of J. A. Warren, treasurer.

"With the approach of the fall opening," said Mr. Warren, "numbers of applications for rooms pouring in from men who wait until the last minute to make reservations are being turned down. All rooms on the campus have been filled and deposits have been made by each applicant to insure their reservation."

This announcement, translated into figures means that approximately 1400 students have been assigned to the 15 dormitories on the campus, not including Spencer Hall, the co-ed building. With 2750 students expected when the University opens September 23, this leaves 1350 who will have to be accommodated in fraternity and rooming houses in the village.

MARKET MUSINGS

John Neal, Fork township farmer, sold a load of tobacco on the Goldsboro market yesterday morning. In the afternoon he visited the floors of the largest leaf tobacco market in the world. When he returned to Goldsboro, he told his friends, "Goldsboro averages as a whole seemed better." Mr. Neal was quoted as having made careful investigation as to prices brought by certain qualities.

Thad Velverton, prominent Burk's farmer, visited the Goldsboro tobacco market yesterday. He also visited the market of the biggest leaf tobacco market in the world. After an inspection tour of the houses on the latter market he came away satisfied that Goldsboro was good enough for him.

"Prices were no better than those paid in Goldsboro," he said. He was convinced that the quality of the weed offered on the floors of the biggest leaf tobacco market in the world was better than that offered here.

MAY GIVE MORE MONEY FOR WORK

Formal Endorsement Increased Federal Aid Forestry Research Work

ASHEVILLE, Sept. 6.—(AP)—Formal endorsement of increased federal appropriations for investigative work in forestry and related work was given by the national resource production department of the United States Chamber of Commerce, Joseph Hyde Pratt, president of the North Carolina forestry association.

The endorsement was in the form of a resolution approving the principles laid down in a bill introduced by Representative John McSweeney of Ohio, in the last session of Congress. The bill authorizes appropriations to the department of agriculture for promoting the full use of land for timber growing and other purposes, authorized a national survey of forest resources and timber requirements and provided for continuation of expansion of research in timber growing, wood utilization and the elimination of waste.

Similar endorsements of this bill by the national lumber manufacturers association, the state of Wisconsin, the southern forestry congress and other large and influential organizations show widespread interest in securing adequate funds for the support of scientific investigation of timber growing, better utilization of wood products, forest cover and protection to stream flow and water power, and development of game and animals in the forest, Pratt said.

It is expected a bill similar to the McSweeney measure will be introduced in the next session of congress, he declared. It will then become one of the constructive pieces of legislation generated with national importance. The great virtue of such a bill is that it outlines a comprehensive ten year plan as a guide to the department of agriculture. The bureau of the budget and congress. Such a plan would go a long way toward insuring regular, sustained growth in the research activities provided for.

FLIGHT POSTPONED

HARBOR GRACE, N. F., Sept. 6.—(AP)—The hop-off of the London to London plane Sir John Carling was postponed today until tomorrow morning. The flier, Captain Terry Tully and Lt. Medcalf, decided to devote today to overhauling their plane which arrived here yesterday from Caribou, Maine.

THREE MEN GOT FIGHT FOR CHI

20,000 Parked Automobiles Have Filled Space About Soldiers Field

CHICAGO, Sept. 6.—(AP)—The three men—largely responsible for giving Chicago its first heavyweight championship boxing match can look out the front window of their offices and see across the street the immense stadium where Dempsey and Tunney will fight September 23.

From Twelfth Street to Twenty-second street the stadium extends along the center of Grant Park, little more than a block from the most famous thoroughfare in the city, Michigan Boulevard.

Edward J. Kelly, president of the South Park, which granted the use of Soldiers Field to Tex Rickard, has offices hardly more than a stone's throw from the structure.

Rickard's headquarters in the Congress hotel look out over the arena and George F. Gatz, the millionaire coal operator, who took up fight promoting to bring the bout to Chicago, can turn in his office chair and look down into the stadium a few blocks away.

The wide spaces of Grant Park's 100 acre stretch held nearly 20,000 parked automobiles here today in the Army Navy game last fall, while as many more taxis passed in and out of the broad drive Soldiers Field lies between the two wide boulevards which skirt the lake there, one for north and one for south bound traffic.

BROCK MAKES ANOTHER JUMP

Round World Fliers Have Covered 8,030 Miles in 88 Hours Flying Time

CALCUTTA, Sept. 6.—(AP)—The Pride of Detroit with Brock and Schlee aboard, hopped off from Calcutta this morning for Rangoon, 665 miles distant.

The Pride of Detroit spent the day on the ground here instead of winging its way onward in its globe circling attempt. Wm. S. Brock, pilot and Edward S. Schlee occupied their time testing and preparing the plane for its next hop with Rangoon, 665 miles away its destination.

The journey here from Alahabad, 485 miles away had been made in 4 hours and 40 minutes. Their arrival here put 8,030 miles of their total around the world mileage behind them. They still have 13,300 miles to go. They left Harbor Grace, N. E., August 27. Their actual flying time is 88 hours.

Authorize Issuance City Improvement Bonds \$75,000

Meeting in adjourned session last evening the city aldermen passed ordinance authorizing the issuance of \$75,000 permanent improvement bond, assessed rately companies sums for the installation of water and sewer lines, sidewalks, curbs and gutter on a part of South Oak street, on North Park and on George street.

Archie Gully was granted permission to erect a filling station near the Overhead bridge at Grantham and Carolina street.

Improvement of the old car barn so as to provide adequate stable space for stock of the city street department was authorized. This work will cost about \$700, it was said.

Of the total of \$5.00 expended in installing sewer and water lines in Oak Heights \$1.10 was assigned against the Oak Heights realty company for sewer construction. The company will pay 6 percent interest on that sum less the sewer line costs until such time as the water line receipts in the section begin to pay 6 percent on the investment. (Continued on Page Two)

Radio Message Received At 8:30 Last Evening Reported Ship As Over Newfoundland

OLD GLORY'S LOG

Sept 6—12:23 P. M., Eastern Standard time, took off from Old Orchard, Maine for Rome.

12:45 P. M.—Passed over coast guard station at Popmam Beach, 40 miles east of starting point.

1 P. M.—Passed Nonchogonak Island, Maine, an entrance to Passobet Bay.

2:45 P. M.—Canadian freighter Empress reports to Independent wireless sighting Old Glory ten miles off Delighty, Nova Scotia.

3:55 P. M.—St. John, N. S. Wireless Station picked up message from Old Glory's radio station making 100 miles an hour.

All Well.

3:15 P. M.—Old Glory passes over Harbortville, Nova Scotia, flying low.

4:10 P. M.—Believed sighted over Parrabro, Cumberland county, Nova Scotia, Plane flying high.

4:30 P. M.—Old Glory passed over Truro, N. S., flying east by southeast.

6 P. M.—Sighted over North Sidney and South Barr, Cape Breton.

No Developments Reidsville Case

REIDSVILLE, Sept. 6.—(AP)—There were no new developments here today in the R. Smith Petty murder case. The criminal term of Rockingham county superior court is in session at Wentworth, the county seat and solicitor Gwynn and Sheriff J. F. Smith who were active in uncovering the murder, are busy with court affairs. As a result, further investigation that might lead to other arrests for the murder for which Mrs. Alma May Gattin, the slain man's daughter is now held in jail, is temporarily delayed. Officials today did elaborate on the state and yesterday that three men suspected of having a part in the crime.

The stranger who is said to have given Petty a sound beating the last time he was seen alive here is said to be known to a number of residents and it is believed he may know something about the case. The former local druggist also under suspicion, is said to have been located. It is thought that as soon as the sheriff and solicitor get away from this term of criminal court they will resume operations to remove many of the elements of mystery.

HONE NEST DISCOVERED

NEW YORK, Sept. 6.—Detectives who uncovered in Brooklyn a "hone nest" and enough loose material to crack a Jones spy-circuit today shut down in a shower six men suspected of bombing the court building in Brooklyn yesterday. Investigators seized in a tenement room anarchistic literature, maps of New York and Washington; cast lead, intricate clock work mechanism and an internal machine and enough parts to build 10 deadly bombs.

ALLEGED BANDIT IS ARRESTED ANOTHER NOW BEING SOUGHT

BOONE, N. C., Sept. 6.—(AP)—Tory Cannon, said to be one of the two bandits who on Monday held up and robbed the Valle Crucis bank, was captured late last night at the home of his father, Arthur Cannon just across the North Carolina line in Tennessee, and was brought back to Boone today.
