The Fight Again

We were glad of an opportunity to see the real fight picture at the theatre this afternoon, strictly because we had always noticed the stress of that count in the seventh round, and secondly because we had seen a scene for seeing where Clara was being stung by the bee, a second time.

The count in the seventh round was fair, as was Clara—we are glad to see that.

We return the belt to Mr. Tracy, though we hate to do it.

Why that punk burger didn't get scratch on his pretty mug, while our baby's dear little cherubic countenance was thoroughly "tor-tured" is a mystery.

After seeing the picture, we don't believe that we like prize fighting as much as we did anyhow. Both of them seemed to be such a common sort of fare fluffers. And then we saw the mind on Clara how plucking that rose—a nature—while we were looking at the fight picture. It is a wonderful study while plucking roses with her togs.

SECOND CAR OF GOVERNMENT EXPLOSIVES FOR FARMERS

Farmers will please take notice that this month is the last opportunity for obtaining Government Explosives for use in clearing land of stumps. North Carolina will only have 60 percent as much of this Pyrotol Explosive as was available last year. The price is the same as last year—\$9.00 per 100 pounds delivered Goldsboro, and if you intend using some of this cheap dynamite on your farm let us have your order by November 10th, and be more certain of getting it filled. Caps and Fuse may be ordered if a sufficient number want them.

Cash must accompany orders for Pyrotol Explosive. Kindly tell others of this.
