JURY FINDS YOUNG VANDERBURG IS NOT GUILTY

Gaston Boy Goes Free After Jury Considers Case 2 Hours, 17 Min.

Verdict Returned at 8:50 Last Evening By Gaston County Jury

HAD CHARGED BOY KILLED FIVE MEMBERS OF FAMILY

Defense Successfully Refuted Circumstantial Evidence of Prosecution

GASTONIA, May 1.—(AP)—Jacob Vanderburg charged with the murder of five members of his family, was acquitted by a jury in Gaston county superior court at 8:50 o'clock tonight. The jury was out 2 hours and 17 minutes.

The 17-year-old farm boy was free of police custody for the first time since December 28 when the bodies of his parents, his two sisters and a younger brother were found in the ruins of their burned home on the outskirts of this city.

Judge A. M. Stack, presiding, completed his charge to the jury at 5:53 o'clock this afternoon and the jury retired with the privilege of returning a verdict of first degree murder as asked by the state, second degree murder, manslaughter or acquittal.

During the trial which started eight days ago the state attempted to prove that Jacob had hacked his sleeping kinpeople to death with a hatchet, dragged their bodies to the kitchen and set fire to the house. Alleged bloodspots police said they found on Jacob's clothes at the time of his arrest, a bloodstained hand axe and incriminating statements attributed to him by state's witnesses were linked in the chain of prosecution evidence. Jacob was arrested on the night of the fire after neighbors had discovered him sitting beneath a tree, shot-gun in hand watching the flames.

Police said he told them of fleeing the burning house after making his way to his mother's room, feeling her head and finding it wet with blood.

The defense centered its fight on refutation of state's evidence. The youth took the stand to deny statements attributed to him. Physicians belittled the import of the blood stains on his clothing and a neighbor testified he has used the hand axe to kill a chicken since the night of the fire.

Testimony was concluded Tuesday and fire arguments were heard at the afternoon session. Arguments continued Wednesday morning with indications that the jury would get the case about 5 o'clock.

J. M. Hoyle, second of the defense attorneys in the Vanderburg trial, finished his speech to the jury at 10:15 Wednesday morning after speaking 45 minutes. He started his argument Tuesday afternoon but after he had spoken 30 minutes court adjourned for the day.

Marvin Ritch of Charlotte followed Mr. Hoyle and spoke an hour and a half. George W. Wilson and A. E. Spitz of the defense were also spoken Wednesday morning with Solicitor Carpenter speaking for the state to close the arguments.

KILL HEFLIN RESOLUTION

Fiery Alabaman Wanted Senate To Cuss Out Folks Who Rocked Him

WASHINGTON, May 1.—(AP)—The senate worked on the farm relief bill today while the house devoted its time to a prohibition debate in the absence of any legislation ready for consideration.

After defeating the Heflin resolution to express senatorial condemnation for persons who recently threw missiles at the Alabaman during a speech.

Senator Watson of Indiana, Republican leader, and Senator Robinson of Arkansas, Democrat leader, held the floor for two hours discussing their past and present attitude on the equalization fee as a measure of agricultural relief.

In the meantime a decision to withhold further farm legislation from the house until after the passage of the tariff bill had left that body without any work to do.

Mr. Johnson Grows Giant Strawberries

R. P. Johnson, farmer living on the Raleigh highway about three miles west of Goldsboro, grows strawberries that assume gigantic sizes. Mr. Johnson brought some of his berries in to town yesterday, and a quart of the fruit was brought to The News office. All of the berries were firm and ripe, and have a delicious flavor. Their size is their greatest asset, however. Some of the berries measured two inches in diameter in every direction. "Some strawberries."

Number Killed in May Day Riots In The City of Berlin

BERLIN, May 1.—(AP)—Serious rioting broke out tonight in the working class quarters in North Berlin.

Three policemen were reported killed and more than a score injured. More than 500 police late tonight were fighting nearly 2,000 communists armed with pistols, clubs, and stones.

The rioters erected barricades in the main thoroughfare. The police charged them repeatedly with batons until the commanding officer realized that his force was too weak for these tactics and ordered his men to open fire. Then armored cars were brought up and the police finally captured the barricades.

Communist ambulances and first aid squads were overwhelmed by the number of victims brought from the fighting front.

Fighting was also reported from Eastern and southeastern parts of the city.

(By Associated Press) The melody of the "Internationale" was heard in almost in every sizable city of Europe yesterday when Socialists, Communists and working men's organizations generally observed May Day.

In Moscow the tune dominated all the other sounds as the military forces of the Soviet union converged on the Kremlin with bands blaring, airplanes rearing overhead and guns booming.

SEWER PROJECT WELL UNDER WAY

Will Require 40 More Days to Complete \$50,000 Additions

Approximately 40 more days will be required to complete the city's \$50,000 sewage project, which was begun about two months ago, City Manager Zeno Hollowell told The News last evening. Work on the laying of two lines of storm sewage has already progressed as far as the corner of Mulberry street and Audubon Avenue in Edgewood, and as far as the Atlantic Coast Line railroad crossing in Little Washington. The Little Washington line extends through the colored cemetery, and is expected to do away with a great deal of the high water nuisance experienced in that section of town during past floods.

Several car-loads of sewer piping will have been used in the laying of the two lines when the job is completed, city engineer Guy E. Whitman estimated. The completed project will entail considerable expense and labor, but city officials consider that the construction of the sewer lines will remove a great menace to public health by disposing of all surplus water matter arising from flood water conditions.
