NEGRO IS KILLED TRYING TO ENTER GIRL'S ROOM

Walter Glover of Dover Is Exonerated of Blame By Craven Co. Coroner

William Black, Negro, Was Cutting Screen From Window of Room of Miss Glover

SHOTGUN LOAD TOOK EFFECT CLOSE RANGE

Negro Had Few Minutes Previously Tried Enter Room of Miss Glover

NEW BERN, May 21.—William Johnson, 35-year old negro, was shot and instantly killed last night by Walter Glover, prominent Dover citizen, as the black man was attempting a forcible entrance into bedroom of his daughter, Miss Edna Glover, who is about 18 years of age. Dr. J. R. Latham viewed the body this morning, heard a recital of the circumstances and exonerated Mr. Glover.

According to the story told Dr. Latham, Miss Glover and another had been out during the evening. They returned about 11 o'clock and the young woman went to her room, which was on the first floor, and retired. A short time later, she said, she heard a noise at the window and observed a man attempting to remove a screen from it. She made no outcry. After a brief attempt to remove the screen, the man left. Miss Glover then went to her father's room and related the story to him.

Securing a shot gun Mr. Glover and a son made a search about the house and yard but could find no one. Mr. Glover then went to his daughter's room. All the lights in the house were out. A wail of a few minutes and the figure appeared again at the window and worked with a knife he had secured. He finally got the screen loose, but as he did so Mr. Glover "let go" with a load of buck shot from a 12-gauge shotgun. The negro was hit squarely in the face. He fell back, carrying the screen with him. He fell on his back and the screen landed across the face. The raised window dropped to the sill with a force that shattered the glass, these also falling on the dead man's face.

Mr. Glover removed his family to the home of a neighbor and notified Sheriff Lane. Yesterday morning Coroner Latham was notified and he went up and viewed the body. It was been left where it had fallen until the coroner's arrival. He ordered it buried.

Johnson is said to be from South Carolina. He had been working for the Goldsboro Lumber company for about four weeks.

The craft was filled for a test flight late in the afternoon but this was abandoned because of fog and rain. Williams said the plane was in splendid shape and the flight was to have been made merely to "kill time." When the weather man says "go we go," Williams said, the plane will take.

SENATE IS HOT ABOUT COLLAR

Publication of Roll Call of Executive Session Brings Hot Remarks

WASHINGTON, May 21.—(AP)—Publication of a roll call purporting to show the vote in executive session of the senate on the confirmation of Irvine Lenroot as a judge of the court of customs appeals provoked heated words in the senate today and brought a call for an investigation.

The roll call which was sent out by several newspapers, was described by Senator Barkley, Democrat, Kentucky, as "inaccurate" in several instances. It was read into the record however, by Senator Blaine, Republican, Wisconsin, after a futile attempt by Senator Reed, Republican, Pennsylvania, to stop him.

The senate upheld a ruling of vice president Curtis that the published roll call could be read into the record by a vote of 63 to 9. Smith, Democrat, of South Carolina, asked if there was to be an investigation of the manner in which the names of the call reached the press. Senator Watson, Republican leader, announced that the rules committee was meeting tomorrow to consider that question.

Senator Glenn, Republican, Illinois, asked if the roll call was published by a reporter for the same press organization which ended the world war a week in advance. Reed said he did not know.

Senator Caraway, Democrat of Kansas, urged that the senate abolish the rule of secrecy on executive sessions "because I want to take away from the member of this senate or the employee the market for his own dishonesty."
