Outperforming

all other low-priced sixes at lower cost than ever

During 1928, a large public utilities corporation operated 996 automobiles of 33 different makes. And according to its own accurately recorded cost figures, its Pontiacs cost one cent less per mile to operate than any other low-priced six in the field at that time. Yet even that great record of economy is being surpassed by the Pontiac Big Six because of a number of refinements and advancements which this latest Pontiac includes.
