BILL ARP ON A CIRCUS TRAIN.

THAT'S NOW HE GOT INTO CHAR-LOTTE.

He Came With the Animals and Three Sice Ladies and Some tientimen from Monroe, and Walked Up from the Seaboard Atation-Experie at falisbury and Marion. Attenta Constitution.

"Hard, bard, indeed, is the contest "Hard, hard, indeed, is the contest for freedom and the struggle for liber-ty." "There is no rest for the wick-ed." This world in all a fleeting show and Jordan is a hard road to travel, I believe ! There are other ejacula-tions I might utter, for of late there tions I might utter, for of late there has been trouble on the old man's mind. You see, I was invited over here to talk to these people in a ha-morone and phikaophic way and my wife said as the larder was getting low and the girls needed some more winter clothes, and the tax man was bobbing around and the grandchildren would be expecting something for Christmas, she thought I had better go. So she packed my values with my hest clothes and fortified me with a little drug store of camphorated oil and flannel and liver medicine and paregorie and cough drops and quinke and bead-ache powders, and so forth and so on. We kiesed goodby all round and I de-parted feeling like I was being driven off from home by and necessity. I took the Senbowrd Air Line at Atlanta bound for Charlotte, via Monroe, but bound for Charlotte, via Monros, but our engine broke down at Greensbord about dark and delayed us three long, dreary hours, and when we reached Monroe it was away after midnight and the Charlotte train had gone. Thore were three nice ladies aboard and several gontlemen, who were greatly disappointed, but the conduc-tor was kind and sympathetic and said there was a circus train mear by that there was a circus train near by that there was a circus train near by that was going to Charlotte right away and if we didn't mind riding thirty miles in a cab, he would get us the privilege. The ladies said yes, and we did, too, and we climbed in. It was as dark as Erebus. We felt our way to find scats but there was outplus but ours but there was oothing but some long tool boxes whose lids were hard and cold. There was no fire and the wind blew through a broken glass on the back of my head. The indies chatted away merrily, for they were going home, but I wasn't and I couldn't chat to save my life, for I was very tired and thought of that good, soft bed at home. By and by the conductor came in with a lantern and took up our

tickets and left us in the dark again. About that time the animals got rest

less and the lion gave an quearthly howl. You see this was a menagerie

select, and I hope elect according to l'resuyterian theology. So all is well that eads well. The next evening found me at the live little town of Marion, in western North Carolina, away up in the land of the sky. They are good people there, I know, for they filled the court house that night and gave me an ovation. The old soldiers are thick in that region, and they came out to hear mo, avd some of us got together and talked of old Boh Lee and Joe Johnston and Generals Larly and Pender and Whit-ing and linke and Bansom and Pettiing and Hoke and Ransom and Petti-grew and Clingman and others. Their ing and links and Ransom and Petti-grew and Clingman and others. Their eyes watered and their hearts burned within them, and they got closer and closer together. What a people these Tar Heels are—these descendants of the Soutch ! About every other name is Soutch, a McLane or MaLaurin or McArthur or McSomethingelse, and then there are Alexanders everywhere and Caliwells and Cariyes. After the lecture we had a musicale at the botel by the gifted Gruber family, who keep the hotel, Mr. Gruber and Mra. Gruber and their seven children. I have heard much during my long life, but I never heard any better anywhere. How the old man's ingers did dance upon the strings; how sweetly did the still handsome matron sing the "Last Rose of Summer" and other old-time songs of Scotland ! What delightful chords came from the piano under the touch of the young ladies of only ten summers ! And when they piaged. "Home Sweet Home." with variations I could hardly restrain my tears. I

Church Marely Saved. Church Marely Saved. LONDON, November 20.—One of the most disastrous fires in London's his-tory since the great fire of 1666 broke out in a large block of buildings lying eastward of Aldergate street and be-tween that thoroughfare and Rederces street, just after 1 o'clock last after-noon. The flames were fanned by a strong wind and were fed by highly in flammable stocks of Christmas facey guods and filmsy dress materials of all descriptions, that filled every floor of the six story building in the old street. Cousequently the configration gained headway with surprising rapidity, and was soon far beyond the possibility of being checked by the lew engines which were early on the spot. For four hours and a half the flames had their own way and it was only after

the fire was under control. At 11 o'clock tonight the fire is still the scene of great excitement. Fifty engines are playing upon the ruins, wagons are hurrying up coal and tons of water are pouring into the dobris. The scene must occupy the fire bri-gade for several days, especially in view of the grave danger of the col-lapse of shells of buildings which fall now and again with a loud report. The latest accounts indicate that fould hardly restrain my tears. I felt like we all ought to hold a seauce, if we could, with John Howard Payne if we could, with John Howard Payne and tell him how the world loved him for his song. I had sweet dreams that night. I am still on the ground rounds, talking to the unpretending people of this grand old State. It seems to have got ont, however, that I had joined John Robinson's circus and gone off with it. Senator Butler yesterday worked Senator Hatler yesterday worked a nice little bluff for the morning train. The Senator was going off on the east-bound Mouthern train. There had been much said about pass-toters and some people were wondering what the Sen-ator was going to do about it. He came in burriedly with his bag, stepped up in the Southern Railway ticket window took out a reall of monor window, took out a roll of money, handed over a \$5 bill to the agent with a request to change it. While the nanced over a \$5 bill to the agent with a request to change it. While the agent was doing this the Secator shifted some other change from one pocket to another; which to the crowd behind him, who could hear nothing of what passed looked like he was put-ting a ticket in his pocket. Then he raked in the S5 in change, ploked up his bag and burried toward the train. "And so the Senator is buying a tiotet," said several in the crowd-but he did nothing of the kind-be rode on his pass.
