THIS WEEK'S PAPER.

This issue abounds in timely reading natter. If space permitted we could give much more,

But as it is, we send out eight pages Instead of four. Study the telling catechism on first page of supplement. It is a rapid fire magazine guo. The cartoon pictures also are significant and impressive illustrations of political traths. The Chadbourn letter which we mentioned last week is given in full on fourth page of supplement, and on all the other pages warm campaign master is plentiful.

Head it and pass your paper around.

GASTON'S XEGRO BOAD OVERSERR It has some to us that Senator Butter at one or two places has been trying to justify megro rule ander fusion power by nowling that Democrats in Gaston had appointed a negro road overseer. Butler was put on to this racket, perhaps, by his local benchmen, one of whom, we are told, has been carrying around a written or printed paper to that effect. The Fusionists are upon their last legs and they know it. In utter desperation, they seize upon any hope or promise of help for their swiftly waning cause.

tinston did have a negro oversue: appointed by Democrats. The Crowder's Mountain case is the one about which so great a how! is raised, Esquire R. H. Garrett, Hon. S. M. Wilson, Esquire A. C. Stroup, and others Know the truth about it and know for what base purposes the fusion hecters and howlers have dragged it into political use. But the hypocritical whiners will find bot small service for their cause in this much advertised incident.

If there was a negro overseer-what of it? What is the truth about it? There was on the Clover and King's Mountain road a short section near the top of the mountain, but an important place of road, nevertheless. There was

PRATING INTPOCHERY. Mildly indeed is Marion Batler's course in the present compalgu obaractorized when it is called by no severve name than prating hypocrisy. The inspired writer adds force to his words by declaring that though he was once young and is now old he had not seen a certain truth fail. At Dallas and ugain at Rutherfordton Marion Botler's remarks were begun in reminiscental mood He referred to what he had sold in his speeches six years and four years before. I said so and so then-was it not all true ? "Yes." he would make answer to his own questions, I am preaching the same doctrine to-day, was the trend of his There was a tremor in the old gentie artful appeal, I was young then, I am older now; but I am the same, you are. And by such means would he artfully boast of unchanging devotion to his

bearers' interests. Now let's stop and think. Butler found it good to go back six years; while we are going back, suppose we turn back ten years. Butler was then in favor of white supremacy in North Carolina. Hear him. In the Coucusian's prospectus Dec. 20, 1988, Butles said :

"We are in favor of the present sys-"We are in favor of the present sys-tem of county government as long us there is a single county that is saved by it from African and Scalawag rule. We will ever preach that this is a Caucasian government founded by the courage, framed by the wisdom and won by the patriotism of white men, for the benefit of all citizens alike. Therefore it is of right, ought to be KANAGED BY WRITE MEN ONLY." La that true ? Can it be that our senator Batler over said that ? Lat us pinch ourselves to see if wo are not dreaming. No, we are not dreaming: Butler certaioly said these things. And yet it is a matter of common knowledge that Butler has in ten years since that time been the chiefest agen cy in overthrowing the very things he then advocated. He and his crowd overthrew the old county system of government and put Eastern North Carolina under their "African and scalawag rule" of to-day. Butler and his gang of prating hypocrites no longer preach that this is a Caucasian government and eight to be inanaged by white men only, but are going from one end of the State to the other breathing out threatenings and slaughter against those loyal and patriotic and truth-loving men who do preach these dostrines. Everybody knows

this. But it is too bad to go back so far, Let's go back with Butler, just six years. Just before the Populists held their State Convention in 1802, Batler said in the Cancusian:

"From the present outlook we very much fear that the l'eople's party will put a State ticket in the field. Such pois a State tokes in the field. Such action if taken would be greatly to be regretized, and should be prevented if possible. Whatever differences may exist among North Carolinians over questions of national policy there should be none in the State, where Angle-Saxon supremacy and good government is the paramount issue." There you are ! If it was true then it is true now. If it was good truth then, it is good truth now. But the man who penned these lines has been running from them almost ever since. He saw a way to serve his pocket and feed his personal ambition by forsaking

these truths and he forsook them. But that is still too far back. Let's go back to the early days of last year. Here are some extracts from Butler's same paper in 1897:

"I'p to this date the Legislature is

"I HAVE FOUND NO FALLT."

There was in our office this week a elderly citizen of the county, 71 years of age. He is a good man, a man of peace, a lover of guod order, one of those plain, houest, substantial men who are a state's pride in peace and datence in war. Of course, something was said about polities. "What was the matter with the Democratic party ?" asked the venerable old man with a touch of pathos. "What made them go off and leave us? I have been knowing the Democratic party aloce 19, and I have found no fault with it. It has given us good government,

it always gave us good government." man's voice as if a pain had struck at his heart. It was a thought of present conditions passing through his

mind

Here was a model citizen of the State, for whose sake government largely exists. He was tall, and was well built in his day-a man large in body and in heart. He was the maker of a home and the father of sons and daughters who now have sons and daughters of their own. He asked no aid or honors of the government. He asked only the liberty of worshipping God as he thought best, the humble privilege of following in peace the pursuit of bappiness, the privilege of enjoying the fruits of his own labor. and the same protection in these pursuits that was accorded to other cititens. These rights he has had and enjoyed. He is a pious member of a denomination not large in North Caro lins, but he has worshipped at its altars uomolested these many years. In the pursuit of happiness he has not been disappointed. He has labored and sequired property, reared under a plous roof his sons and daughters, and as he felt able has educated them. When the tax-gatherer came he paid cheerfully and willingly his proportion of tribute, and when 37 years ago the South called her sons to battle, he was as loyal in the storm of war as he had been in the auony days of peace. He has been a good citizen of the State; bas discharged well all the duties of citizenship in peace and in war; in these things he

weers in his breast a conscience void of offence. When such a wan as this says: have found no fault with the Demo-

eratic party; it has given us good government" the words fall as a patriarchal benediction. They are like an inspired "Well done" from one with authority to speak. We felt it an honor to grasp the good man's hand. And when, bidding as farewell, he said that in a few days he would be 71 years of

happiest he had ever seen. PRITCHARD TALKS OF TRODPS. Senator Pritchard hus suggested to President McKinley the possibility that he might be at any time called on to send troops to North Carolina. He

thinks perhaps of frightening white men away from their houest determination to carry North Carolina for good government. Pritchard makes a great blonder. Of

course no troops will be sent, but the bluffer has threatened it and that is enough. It will redouble our efforts to redeem the State.

But if the President is forced to send his troops, let him send white men and

What Punion Has Given the State-Of the 170,000 Fusion Votes. 199,000 Were that by Megroco-Let the People Take the Case. Inleigh News and Observer.

After spending two mouths to de-cuncing cartoons that fairly illustrate the present disgraceful administration in North Carolina the Fusion leaders bave issued a big "supplement" full of cartoons to be sent out by the organs

cartoons to be sent out by the organs of Negro Supromacy. This eight page is but a re-hash of the lies contained in the so-called "Hand-Book of Facts." Its first and chief feature is the slander upon the Democratic members of the Legish-ture of 1870 that was put in circula-tion by Dr. Cyrus Thompson in his barangue which he called his "great speech." In Wayne county, Thomp-son apologized for saying that Mr. I. F. Dortoh and Mr. F. M. Aveock had voted for negro magistrates, and Mr. M. S. Robbins and others have shown that the statement is false. And yet

that the statement is false. And yet it has the dret place in this campaign Next follows a repelition of the

charges which have been exposed as false alleging that Democrats put taise alleging that hemocrats put many negroes in office, accompanied by lying affidavits. The editor of this sheet has the effrontery to repeat the charge that Sheriff Page had a negro deputy when the Populists of Wake county themselves know that the charge is without foundation, and when it is well known that most of when it is well known that most of them will support him in 1898 as many of them did in 1891.

The Fusionists, in thus keeping the negro question to the front as the paramount State issue are doing exactly what the Democrats want done. It has been easy to refute trumped up allegations, and in every county this bas been fully and promptly done. As the people read these canards they will ask themselves some questions that will show them that the Democratic party is the only white man's party in the State. Some of these questions will be :

1. If the Democratic party puts the

1. If the Democratic party puts the negro in office, as alloged, why do the inegroes vote solidly against it ? 2. If the Democratic party is the "nigger" party why does it make no appeal for negro support ? 3. How many begroes held office in North Carolina when the Democrats went out of power on the first of Janu

ary, 1805 ? The snawer is, not one in a county controlled by Democrats.

4. How many negroes hold office in North Carolina now? The answer is over 900, every one of whom was elected or appointed by Fusionists. The answer to these questions, even without the positive proof of the faisity of the statements made by Fusionists, puts an end to all the bluster about the Democrats putting negroes in office. There isn't a five year old boy in

North Carolina who does not know that if the Democrats put negroes in of-fice negroes would not be solidly arrayed against it. And there is not a boy who does not know that every Fusion candidate in the State is down on his age, we couldn't help speaking the knees, praying in a bondsman's key wish that this birthday might be the to the negro to keep him in office. More than that; there isn't a voter,

white or black, who does not know that of the 170,000 Fusion votes in North Carelina, more than 130,000 of the votes were cast by negroes, and that in fifty counties in the State the negross compose a majority of the Itspublican conventions and dictate all Fusion nominations. Even in Buncombe county, take out the negro vote and the Fusion party would never have the ghost of a chauce of winning. But it is useless to follow up the false statement which the Fusion poli-

and to the point. As a division of time had been ar-ranged between M. H. Justice, Demo-oratic candidate for the Senate, and Dr. Cy. Thompson, Secretary of State, the latter was introduced. He began by abusing the Democrats for not fus-ing with the Populists. He read the Populista' proposition to the Demo crats, all except the horse-swapping clause, demanding a division of offices, which he catofully left out. He said the Democratic State convention was controlled by railroad attorneys, ctc. Yet this was the crowd he wanted to fuse with, and because they would not fuse he said he and other Populists that the Democrats should not control the State, which was an acknowledgement that he is opposing the Demo-cratic parcy not because he believes the Democrats are wrong, but because he thinks the Democrats should not coutrol the State, and from pure venom and downright meanness. He tried to belittle the negro question, and said the fusionists have given the State the eleanest administration it had ever had. This statement alone is sufficient to condemn him with every honest to condemn him with every honest man in North Carolina. He gave con-siderative time to free aliver, yet his mission here was to try elect a gold-bug to-the Lagislature from this coun-ty, as Mr. Jenkins is an avowed gold man. and Mr. Houser is a free silver Democrat. When Thompson's time was up nearly all the l'opolists and R-publicaus left the house, for they knew what was coming. knew what was coming. Mr. Justice made a fair, open, manly

sprech, which was quite a contrast to the tricky, evasive harangue of his predecesso predecessor. The way Justice put Thompson in a hole is simply beyond description The way he showed up his braggadocio, his trickery and his inconsistencies, was a source of great delight to all Democrats. And I nev-

er before saw such enthusiasm. Mr. Justice made a great speech, and be is a clean, pure Christian gentleman. Our people know him and love him, and the contrast between the open, fair and musty Justice, and the wily, tricky Thompson was too plain not to be noticed even by the oppo-

nents of Democracy. Your correspondent heard of a num ber of persons who have heretofore not with fhompeon. I heard a very intel-ligent citizen of this place-and ho is not a Democrat-may : "Thompson is not a Democrat-suy : "Thompson is smart, but 1 believe he is a rascal."
