LOCAL AFFAIRS.

--Our news items had to be boiled down short and sweet this week--we didn't have space to burn.

is the talk of the lown and there'll be lots of foks out to see it.

-The market of Williams and Dellinger has changed hands, the purclosse being Mr. J. H. Green of Cleveland.

-There was an up-to-date eclipse of the moon Tuesday night from 6 to 8 o'clock. It was noticed by a great

-Monday reminded one of a busy Saturday evening. There were lots of people in town and a good deal of trade went on throughout the day.

-Was ever a finer frost seen than that of Monday morning? Next thing to a snow. And cold?-oh, 'twas a fine morning, that's what!

-The Dr. Taylor livery stable has been sold by J. B. Fraiey, of High Point, to J. A. Armstrong, of Pilot Mountain, who will be in before long with his stock. Mr. Wade Dellinger is his managor.

-The special proposition for Decem-er is closed. If you failed to take advantage we are sorrier for it than any one else. What is THE GAZETTE worth now? Two dollars a year, but we charge only \$1.50.

-It was twelve years last night since the editor was married. We always bank, of course, upon folks who get married during Christmas, and we renew our compliments and good wishes to the present season's crop of new house-keepers.

-The action of the town council to forbidding the explosion of fire works in the corporation this year was hard on the little folks, but it was right and merits the grateful applause of every-body who enjoys Christmas for the comfort it brings.

- Hervices at the Baptist church next Sunday morning will be conducted by Rev. W. M. Jones, of Maxton, N. C. He is regarded as among the pos-sibilities, while the church is looking for a new paster, and his visit here is by invitation for the purpose of estab-lishing mutual acquaintance.

-If the boys think it a hardship that in town, they must remember that it might have been worse. We read that in a certain New Hampshire town the law prohibits the girls from walking with the boys on the street. When they want to perambulate together. they have to go outside the corpora-

often appeared in The GAZETTE, is dead. She died early Tuesday morning of pneumonia, and grief over her dead mother. Their home was in New York City. Her real mamo was Mrs. Isabel Mullon. She was the widow of a young Irishman, who died soon after marriage, was a member of the Sloan family in Maryland and a Catholic in faith. She was also the "Rath Ashmore" of the Ladies Hom- Journal.

-The "business local" by Mr. Armstrong about laundry complaints last week read like an intimation that Mr. J. H. Gallant, the manager, wasn't managing every thing all right. Nothing of the sort is true and nothing of the sort was intended. The notice was dashed off in the rush of Christmas hurry and nobody noticed how it sounded until it appeared in the paper. No reflection was intended upon any-body. The idea of the proprietor and the manager is that they will be glad to receive complaints of any unsatisfactory work or any helpful suggestions from their patrons, so that they may make any changes or additions in unchinery and equipment necessary to keep squarely up-to-date.

A SINDBY PAROLLY.

Newspaper men are always interested in their readers, and in THE GAZETTE's case; its readers are regarded as a great discuss the man and the fireside every week to look over its payer and discuss the man it contains. Among these is one family in particular of which Lus finzeres has a right to be proud and in which it feels much bonored. It is the family of Mr. J. M. Huffstetler, of Begonia. True, they do not all live under the same roof. but they are yet of the same family.

Mr. Huffstetler has four some and one
daughter with families of their own. The sons live near the old homestead and the daughter, Mrs. It. F. Ratchford, lives near South Point. These six families take a copy of THE Cla-ERTTE apleco aix in all and have been taking it for we cannot tell how tong. And they are all good Demoproud in their declining years, and there is no happiness which we could wish for ourselves which we do do not

The Washington Ster says: Now that the regular theatrical means is drawing to a close it is quite refreshing to see announced the custing of a reputable and legitimate high class attraction. It has been the custom of local managers in order to lengthies their assent to engage interior takent or combinations, thereby imposing on the theatrageing public, but much to the credit of Manager Kernan he has reserved his best luckings for the last of his season; in evidence of this. Fields and Hauson's Minutrels will be his attraction the coming week. This company is noted for the originality of its make up and the novelty and sterling merit of the performance furnished to its patrons.
